

April 16, 2015 Second Leaders Conference Day 1 Mission to Uganda

Bugayi Village Victory Spiritual Church

Tony:

We are taking off this morning to another bush location for another conference and crusade. We turned off the main road and we took a Cow Path. There were 5 of us in a Toyota sedan. At times the road was only big enough for a cow to get thru and we even had to wait while about 30 cows going home on the path had to clear the way. When we got there we were greeted with great enthusiasm by some pastors and were told that we were the First White people to come to minister in the Village ever, as far as they knew. They also informed me that 95% of the bush pastors have never had any training and they are all so very thankful for the training we are bringing to them. Of course they would like us to stay long term.

I love helping these guys as they have such a heart to help people. If we help 100 of these pastors then multiplied thousands of people will be trained thru these pastors. Multiplied thousands out to the streets (or should I say bush villages) to do the works of Jesus. Oh yeah!

When we got to the time of demonstration prayer, I gave just one word of knowledge, thinking I could get one or two people up to demonstrate. Well, here comes about 30 people. OK, so we made everyone wait while we prayed for one, then the second person, showing how easy this is.

Interesting, out of the 30 people, there were just a few men, the rest were all women!

Here is some of what I saw, first the women:

A lady said that she had been begging God to heal her for quite some time. She now realizes that she didn't need to beg. She had high blood pressure and pains in her chest and received instant healing.

Another lady said she had a bad heart, she said “it is so bad!” After prayer, you need to see the video on this one, she emphatically gave thanks!

A lady said that she could not lift her arms at all. She said that it was like her arms were made out of very heavy rocks. She said most painful and discouraging not being able to use her arms. After prayer she was smiling & laughing, she was waiving her arms like she was a helicopter!

Another lady with a skin condition, some kind of rashes, one looked like a brush burn on her leg. She said it bothered her continually and she hasn’t found anything to help it. Until now. I put my hand on that stuff and cursed it. After just a minute she said “I am better now, no more discomfort!”

A number of ladies with various pains in legs, hands (arthritis) and all over their bodies, all instantly healed!

Young lady said that right after she gave birth to her last child (this was a few years ago) she had serious pain in her head and back. This pain has been with her every day since then. She seemed quite distressed over the whole thing. We (pastors and I) prayed 3x, with only a little relief. Then we had her pray for herself after explaining the authority of Christ that has been given to her. And BAM, Holy Spirit came upon her and she started weeping and slowly bending down forward and then let out a shout and jumped up and said “I am healed!” This was so amazing to watch especially when she realized it was her prayers that did it!

Another lady had pain from her head down into her body. She said when the prayer started she felt something like ice water flowing down from her head into her body and BAM she got a miracle healing!

Another lady said her entire body burning up, all her joints on fire, she said when prayer started that it instantly left and she and all her joints were normal!

OK, here are the two men:

First a Pastor had an accident in 1991 and messed up his back and nobody could fix it. 14 years of living with that pain and in a matter of moments it is gone and he said “now I can bend and move as a young man!”

The other man had asthma and it looked like some kind of respiratory problem even worse than asthma. He said that his lungs hurt so much that it was difficult for him to move his chest or his arms or his shoulders. Weird! Anyways we prayed once, twice with a little change. The third time we had this man of God do the praying for himself. He did and again BAM he was taking deep breaths and moving his chest all around and smiling a whole lot!

Thank You , Thank You, Thank You Jesus!

At the end of this time of prayer, they took us to enjoy an authentic Bush African lunch and fellowship. From there we headed out to the village crusade. They were already cranking with the praise music as we walked down the dirt street where the crusade was being held under a huge tree with a big rock with a flat top being used as the platform for those leading.

I got right into dancing with and loving on the children. There were lots of them! It is just such a fun time and even the Muslims seemed to be enjoying it. As is very common I had the village drunk befriend me and ask me to pray for him. I gladly obliged.

When they called me up to the top of the rock to preach, I climbed up and quickly told them what Jesus was about to do. Gave a few words of knowledge and got down from the rock to pray. It was about 60 seconds before anybody moved, then a man came forward. After he came forward, then many more started coming and the prayer crowd got pretty big. I have pastors praying with me. One of the pastors was the oldest in the village, even older than me, he spoke clear English and I have to say he was in such good shape, he outdanced me on the dirt field! We had a blast! He had a suit jacket on for first 5 minutes of intense praise dancing with me and I knew I was in for a time when he took off his suit jacket! Amazing!

Well, this first guy said his knees were “killing” him. Since, we bring life and destroy the works of death, this killing thing had to go. The Anointing quickly did away with his problem and he was shouting and jumping, demonstrating to the crowd the miracle he had just received. We asked him, are you a Christian? He

said no I am a Muslim, but I now want this Jesus to save me! And saved he became. It looked like immediately the light of the Lord began to shine thru him!

Well, as the first few people went to the microphone to give testimonies, the prayer crowd grew larger.

SALVATIONS: After several healing testimonies were given over the microphone I knew it was time to give an invitation for salvation. Many came to receive Christ today. It is just amazing to see how Jesus healing bodies and setting souls free draws people to receive Him! Hallelujah!!!

One after another I continued to pray for hurting people, with all manner of sickness, from poor vision to crippled, watching God restore them all!

One that got me tonight was an older lady whose eye sight was very poor and her hands were paralyzed. Her hands looked and felt like they were rigidly stuck in the same position. I felt such compassion for her, I thought how difficult it must be for her to live this way. I had the pastor with me pray for her eyes while I prayed for her hands. We commanded these diseases to leave her. When the pastor's hand was removed from her eyes, she just started looking all around and smiling. She said that she could see now, but not perfectly. Again commanding prayer was brought forth until she could see my white face perfectly and she looked at me with a big smile on her face. She was so caught up in being able to see that she didn't even realize that her hands were loosed. I took her hand and asked her to check and she moved her fingers and wrist freely.

I stand in Awe of your loving kindness Lord!

Day 3

Fredrick and Emily

I take this opportunity to thank all who are praying for this mission, they are being heard and are taking effect! Today we had one lesson and an open air crusade after late lunch, the meeting started late because it's rainy season many people first attend to their crops, some are planting while some are still tilling their lands.

The intense hunger again today was evident as the people are looking to receive from the Lord! During the introduction one of the leaders said it was the first time

Mzungu (white person) stepped in the church and into the village they were so happy, and praised the Lord, however the Presence of the Lord was amongst His people here to equip and to train. Many people received the word with an open heart, most people here have never owned a bible, yet they have been in the church for a long time, even some of their pastors do not have and if they have can either be a New Testament or a torn Holy Bible with missing pages. But God is faithful, Holy Spirit gave us lots of demonstration, After Tony had preached and taught the bible truths.

During the prayer I came to a lady in the line she was complaining of pain all over her body, headache, chest pain, backache and her legs were swollen, I asked Emily to pray with her, as I prayed for another elderly man who had painful legs the condition he was in for a long time, I asked him if he was born again and he said that he was, then I asked him to take his own authority to denounce the pain immediately the pain was gone, the legs became much lighter than when he came. Before I could embark to another person, Emily asked me to pray for the woman I left with her in prayer, as most of the sickness had gone but shoulders were still in pain, I realized that it was the spirit of infirmity I just spoke to the spirit to leave and she got healed.

Many people especially women came for prayers with similar problems of backaches, they were prayed for and all were healed. I think there are some territorial demons that are unleashing these sick similar sickness in the area, it's only through receiving the gospel which is power of God for salvation that can change the spiritual atmosphere of the area.

At the crusade many people came forward for prayer when Tony spoke through the Word of Knowledge, those suffering from all sorts of problems, we were called to be prayed for, people came but none of the sick people was willing for Emily and I to pray for them, they wanted a white person to pray for them, I went to Tony told him he had to pray for everyone since no none can accept our prayer they want a Mzungu. Tony smiled and said I can't pray for all these people alone, he said watch this, and he called one young woman and asked her of what she was suffering from, she did not answer because she could not speak English, I interjected and talked to her in her local dialect she said she had painful feet, I went ahead and commanded the pain to leave her, I knew she wanted to be healed but she did not know how to get the healing, Like a paralyzed man at the

at the pool of Bethesda for 38 years, Jesus come asking him if he want to be well instead he is complaining, Jesus commanded him to pick up his mat and walk. She couldn't believe what happened she began to laugh and praising God, she grabbed a microphone that was nearer from Pastor Fred, and testified of what has happened to her, when others saw it, they began flocking to where Emily and I was standing, that act opened up popcorn miracles, many of the people came we could not talk much or make a lengthy prayer, there were so many people. We could just command sickness to leave and theirs was to receive miracles. And everyone received a miracle.

A woman with something moving in her stomach like a tumor (a lump that was moving) got disappeared after prayer and even the pain she had also disappeared, she said she has had miscarriages three times, I commanded the spirits of miscarriage to leave her womb and spoke to the spirit of production to take over. Every kind of disease was healed without much struggle. A woman approached Emily for prayer complaining that her son wanted to sell a family land against her will, instead Emily brought her to me, after talking to her, I grabbed her palms and made a firm and authoritative commands as I mentioned the name of her son not to sell the land and would be buyer shall not very land even in future no one will buy the unless this Mama agrees I looked in the face this old mama she was in agreement and the face was radiant. later she brought a child whom she said was suffering from epilepsy fits as I prayed for the child I saw a child shocked as if something had hit him, I knew the demon had left the child immediately.

Emily

While in the church a woman with headache and pain in the neck and the shoulders got healed when I prayed for her.

Another one had a backache and pain in her feet, it took time for her begin to feel relief in her back, I asked Fredrick to come pray for her when spoke to the spirits of infirmity she got healed and even the legs that were in pain got the package of healing.

At the Crusade a woman from Kenya but married in Uganda, had stomach pains was prayed for and got her healing before referring her to Fredrick because she was talking of her son wanted to sale the family land.
