

Ministry to America  
Patmos Church, Rock Cave, West Virginia  
Pastor Bob Jacobus

This report combines both am and pm meetings

Tony:

Patmos Church: an assembly in metamorphosis approaching the break out point where 'all will become new!' I so sensed the Love of God and high calling on this church. We bless you Patmos Church!

There was something about this little church, meeting in the grade school auditorium. It was more than the fact that it was a new (6 month old) work of God or that Wes Hawkins, our good friend in the Lord, is one of the men founding this work. It was clear that this work is a beginning point for revival in this area. Just such a sense of liberty and freedom, brought by Holy Spirit. Holy Spirit showed me in a vision this work being in the initial metamorphosis state and the 'butterfly' was soon to emerge! There was spontaneous worship that broke out as the people began singing in the spirit, without any music. Hallelujah! God was in the house!

Again, there was great hunger in the hearts and on the faces of the people. That hunger really does place a demand on the anointing. I can feel the draw! After encouraging them on the 'true riches' that are available we moved into words of knowledge. Some had visions from the heavens being opened.

As the team released words of knowledge we began to pray. My attention was drawn to a lady still sitting and I asked her what was happening to her. She said, "I don't know, I am having intense pain from the middle of my back around to my side!" I asked her if she had ever had pain like that before and she said no! I knew it was a word for someone else, I explained how that works. There was a man with those exact symptoms and we had her pray for him. He was instantly healed! Yea God!

A couple of things I personally saw God do:

- How about this: a lady that was nearly deaf and just sat there watching my lips move but hearing nothing. **Then she jumped up with excitement and said her ears just popped open and she could now hear everything I was saying.** She was so excited to share that. God just did it!

- A man with heart issues we had put his hand on his heart, feeling in beat wildly. As we prayed he felt the change come over his heart and the anointing was released.
- A lady with debilitating arthritis, hardly able to move. After prayer there was an immediate improvement as all pain was gone and full mobility restored. She was a happy camper.
- There were deliverances with their needed healings following. God is just soooo good.
- A lady was brought with numerous physical ailments. I didn't know it at the time, but apparently this lady had been a Christian for awhile and had never experienced being overcome by the powerful Presence of Holy Spirit. As Holy Spirit came upon her and put her to the floor, He proceeded to remove every sickness from her body. The lady that brought her was doing a 'hallelujah dance' over her, filled with excitement to see her answer to prayer for this lady. During impartation prayer I asked her what she wanted and she said, "I can't imagine. I have already received a lifetime full of answers in just a few moments, but give me everything you got anyways, please!"
- I had given a word for specific accident victims and two women responded. One lady had 'rheumatoid arthritis' with some twisted joints and other physical problems since her accident a number of years ago. As we began to pray the power of God came upon her in a mighty way (with visible outward manifestations of His Glory upon her) and she spent quite awhile down under His healing virtue and Presence. She arose to new body parts, rejoicing with tears of joy!
- Another lady responded to a number of the words of knowledge, including the accident victim. She had been in all of the meetings so far in West Virginia and during each prayer time had received a measure of healing. While we were praying this last round before our departure at one point she let out a screech and fell backwards as if someone had punched her in the stomach very hard. When she got up I questioned her and she said "something definitely came out of me, it was a spirit of infirmity and I now know that I am definitely healed and will see the full manifestation of what had just happened!" She told me of how she had gone to Lakeland Florida outpouring and when the speaker was talking about the spirit of infirmity and its affects, she knew that was her problem. Thank You Lord for letting me be a part of this!

- Now this ought to inspire somebody: A lady was there, 88-1/2 years old and she lives too far away to walk to church. She doesn't have a driver's license anymore. She drives her lawnmower to church, getting the permission of neighbors to drive thru their property. Up and down hills she goes. When asked what she wanted prayer for she said "I want God's power to pray for people and see them get changed and healed. I meet quite a few people on my lawnmower!" During impartation prayer she said "I want everything you got and more because there are lots of people round here that need a touch!" She was filled with the joy of the Lord.

The time of impartation and prophetic prayer was very powerful. There was a lot of destiny and gifting releasing and 'confirmations' for folks. I am looking forward to hearing testimonies from some that have strong callings that have been put back in place!

Jesus we love you!

Harvey:

The church we were at today met in an elementary school gym and we worshiped with cd's but God was still there and moved powerfully. I couldn't help but wonder what it was like for the kids to come in and use the gym after a God explosion there. We did two services and they were both filled with the power of God but the thing I'll always remember was this lady that came up and called me Moses. Wes had told her about me and that on the mission field they call me Moses, it must be the white hair and furry face. She said that she had ringing in her ears and could not hear very well because of it. She also said that God told her to come and have me pray for her. So I prayed a couple times and God touched her and totally healed her. She came back in the evening and testified that God had told her to come to me for prayer and that now she could hear clearly and the ringing was gone. She said that all she heard before was just a buzz and that now she could hear every word clearly and the ringing was gone. Yea God!!

Many thanks to all of the prayer warriors. Later.

Casey:

This is a small church that meets in an elementary school gym. By no means did this mean that the Holy Spirit didn't show up. The worship was just songs played off a computer with the words shot up on the wall, but what a sweet Presence of the Holy Spirit. When the songs were finished one of the ladies started singing out loud. That didn't take long for everyone else

to join in, that was way cool. Tony shared on the true riches of the kingdom which was real good. Then he released us to give words of knowledge. I had two words to give. One was for burning in the eyes and the other I don't remember, but no one responded to it anyways. I did get to pray for the lady with the eye problem. Her eyes were burning and her vision was bad. After a short prayer she looked around and then rubbed her eyes and looked around again. She said the pain was all gone and she could see perfectly. God was moving fast this morning. Then all of a sudden the same woman got a sharp pain in her back under her shoulder blade. She said this is new, so we asked if anyone had pain in their back. One man stood up and said "yes, that's me." We had the lady pray for him and all the pain went away and the man was healed. This woman just stood there shocked. God gave her a "right now" example of the true riches. What a way to finish off the morning.

Well this was our last meeting of our trip and what a whirlwind weekend it was. It was such a blessing to see God move in such a mighty way without going overseas. Tonight was no different. We had another impartation service, but first we prayed for anybody that needed healing. I had a word of knowledge for a pain in the joints of the hands. Several responded for that word. The first woman I prayed for received healing in her hands and shoulder real fast and she looked shocked. I then went over and helped Marie pray for a woman with diabetes. She also had problems with her eyes because of her blood sugar problem. We prayed for the diabetes first and she said she felt different. I believe she was healed so we moved to her eye problem. Each time we prayed they kept getting better and better. I think it was just as much fun watching the expressions on Marie's face as it was of the woman being healed. The last woman I prayed for had pain in her hands. The healing came real fast and I asked her if there was anything else she needed prayer for. She said "yes" her neck was paining her for a long time. More than 30 years. She said due to a car accident. I placed my hand on her neck and the pain left instantly. She said "how about the lump on the back of my neck too? Can you pray for that?" I said "sure" and put my finger on the lump and felt it shrink into nothing. So I asked her to check and see if it felt smaller, knowing it was already gone. I wish all of you could have seen the look on her face when she felt her neck and found no lump. Ha-ha that was so cool. God is so awesome. This woman got lit up, she was so excited. She looked over at Wes and he said "I told you so, God heals!" What a weekend.

## MARIE

Last night's meeting and the drive to our host home in French Creek, WV ended with all of us not getting to bed until 3:00am. Morning came all too quickly. Nevertheless, after a wonderful hot shower (unlike some other mission spots), and a delicious breakfast supplied by Richard and Eileen Dean we were ready to head out to Patmos Church with fresh excitement for what Jesus would do for His bride that morning.

The church is a new birthing out of Wes and Barbara Hawkins' heart in combination with the passion for God's people that Pastor Bob Jacobus and his wife Maryann have for the Lord and for people. The congregation meets in the gymnasium of the elementary school - Plenty of ceiling space for worshiping with flags! Once again we felt the precious Presence of the Lord in the worship and the sincere hunger for the Lord coming from the people.

### **PAIN GONE**

I was pretty tired this morning and felt kind of numb. But, there is something about getting into the action anyway! When Tony released us to pray for the people who needed healing I began with a woman whose knees were in pain. I prayed with her and the pain in her knees and in her back left.

She had been sitting and I asked her to stand and to really test out where the pain had been. I wish you could have seen the look on her face when she moved and walked pain free. Then I noticed she kept touching the area of her knee for which I had prayed. I realized she was “looking” for the pain. I told her, “**sister, the pain just ain't there any more so don't go looking for it.**” She smiled and we laughed together!

### **LIVER AND KIDNEYS**

“I feel heat and something moving”. That's what the next lady said when we began to pray for her liver and kidneys. **Pain and discomfort left.** Then for about at least one half hour she stood and was twisted around and bent in half and moved in all kinds of directions...We watched and knew the Holy Chiropractor Spirit was at work. At one point I sensed she was going to go into a “spin cycle”. Her arms began to flap back and forth....it was a strange sight but all the while I kept feeling it was so very HOLY. I found out later that she is one of the key intercessors of that church. There was no doubt in my mind that she was doing some powerful physical intercession that morning.

The people were all so thankful that the team had come to them. We had the honor of being their very first guest ministry. Thank you Jesus and please add to their numbers such as should be saved, healed, and delivered for the Glory of the Father and the reward of your sufferings.

The people of West Virginia are some of the nicest people we have ever met. We were so glad that Tony, Casey, and Harvey got to meet so many of the dear ones we have been blessed to be connected to for several years now. The team was touched by the hospitality of Barbara Weaver, a friend who lives in Bridgeport, WV. This precious sister was out of town ministering to the Navajo Nation and she simply let us come in and take over her lovely home for a couple of nights. What a blessing! Once we relocated to Upshur County the Deans housed us in their beautiful country home and made us all feel like family! We had great fellowship times at lunch on Sunday and again after the evening meeting. And the hugs were the best!

At the evening meeting Tony continued to teach about the reality of the Kingdom of God here in us and on earth today. He just knows how to talk about heaven as though he really came from there! It is so real to him that God IS His Daddy and Jesus has imparted to him **and to all of us** His kingdom. **We only have to believe and to go and do in His Name and He WILL back us up just cause He loves it when we press in to bringing His kingdom reality into the lives of others.**

And so, we again prayed for the sick and saw wonderful healings. Then we invited all the people up for the laying on of hands for impartation. The people understood clearly that they could jump in at the deep end of the pool no matter how long they had been saved because the things the Father has given us are meant to be freely given to others. **So they lined up hungry and eager and some waited a long time for each of us to get to them.** How humbling. It makes me want to cry as I remember their earnest desire for little ol' me to touch them and to give them something of the reality I have of the goodness and power of God.

The impartation time, for me, was again a tremendous experience of the flow of the Spirit towards the people. As I prayed for one woman in particular, I felt to impart to her the ability to bind up the broken hearted – a ministry so dear to Jesus' heart. She began to cry and whispered, “That’s what I need”. So, right there I prayed for the love of the Father to come and to heal HER broken heart. I held her tight and laid my hand on her heart as

she wept tears that seemed to have been bottled up for years. It was such a sweet and powerful time. **She felt healing come to her heart and I have no doubt she has been chosen by Abba to give the gift of love and compassion to other broken hearted people.**

The same thing happened this night as on Saturday. The anointing for impartation grew stronger and stronger the more I released all that the Father has given me. I don't understand how that works or what the effect will be on the life of the people and on my life but I know it was, is, and will all be good and for the good Glory of my Daddy in Heaven, my Precious Bridegroom, Jesus, and my Friend and Teacher, Holy Spirit.

My heart is running over with thanksgiving for all that I got to see and to be a part of on this first "Mission America" Ministry outreach/outpouring. Thank You for praying, and Thanks Debbie for watering my plants! And Matt for cutting the grass for us!

See you in about a week or so. Randy and I are in New York just now making plans with area pastors for a "Glory Explosion" of signs, wonders, & miracles in the fall. Living for Jesus International has been invited to participate in this "first of its kind" gathering in this area. Please cover this time of preparation in prayer.

Standing with you tonight for YOUR healing miracle!

*Rejoicing in His Goodness*

Love, Marie

RANDY

The Patmos Church is located out in the countryside of West Virginia and it required driving down some very winding "Country Roads" to get there. I think the team appreciated that I knew the roads and was comfortable doing the driving. The Gym that serves as Patmos sanctuary wasn't full of amenities but it certainly was full of the Holy Spirit. Being rather new to having the Holy Spirit use me in the operation of the gift of Knowledge, I am learning as I go concerning whether a physical symptom in my body is a symptom of an illness of somebody else, or something I need to pray for my healing. I really wasn't feeling very good at all when I arrived at the church. I did press in during worship and I really enjoyed it. My neck was very tight

and sore on the right side and I slipped out before the ministry time to use the restroom. As I came back into the sanctuary I got hit with a lulu of a headache. When Pastor Tony asked if anyone on the team had any words of Knowledge I gave one for a headache. My dear friend Eileen came forward to be prayed for. When talking with her she said she not only had a bad headache, but her neck was tight and sore on the right side. When I shared with her what I had been feeling we both knew she would be healed and she instantly was and went down under the power. **She wept as she enjoyed being free from the pain.** I felt good also as the symptoms left my body also.

I so appreciated the willingness of the team to minister in a small church setting and to enjoy it as much as ministering at a large crusade. I believe that is the heart of Jesus working within us.

After leaving the morning service I noticed I was limping as we made our way to the car. My left heel was hurting. We drove back to the Deans home and had a wonderful fellowship dinner with many of our WV friends. The entire team really enjoyed the hospitality shown to us. After dinner I was really exhausted from the night before. We didn't get to our host home until three in the morning. I excused myself and went upstairs to take a rest before the evening meeting. When I took my shoes off I realized my feet and ankles were swollen. I talked to Pastor Tony and asked if he thought this was a word of knowledge. He advised me to first go with the idea that it was a word of knowledge. During the service I said is there somebody who is suffering from water retention or swollen feet and ankles? Two women responded. I also said is there someone who has an injured left heel or is suffering from heel spurs? A man came forward and I sat him down on a chair and I sat in front of him and prayed for his ankles. He sensed the Lord's presence and as a bonus his left elbow popped, and the pain he had in it left him. The discomfort in my heel and the swelling in my feet and ankles left me after the ministry time.

Now comes the impartation part of the service and the people were very hungry to receive from all of us. God's power always flows to the hungry. I imparted to everyone there, and many prophetic words were given. Lastly I prayed for Pastor Bob. After praying I asked for his impartation and he prayed for me. He prayed a wonderful prayer concerning my relationship to the Bride of Christ which I witnessed to. The subject of unity within the Body of Christ has been heavy on my heart for about the last three months,

so Bob's prayer struck a chord within my heart. This mission trip stands true with all the rest I have ever taken. I always am taught or learn more about God, and about my own heart. I big thank you goes out to those who have kept us in their prayers.

May our Heavenly Father bless you with an expression of His Love.

With my love, Randy

### **SPECIAL NOTE: ONE WEEK AFTER OUR MISSION VISIT TO PATMOS CHURCH:**

Randy and Marie returned to Patmos Church one week after our ministry there to get some follow up testimonies.

Marie:

We went to Patmos church this morning and heard testimonies of people who had their eyes prayed for that are seeing much more clearly and are excited to feel like the healing anointing is finishing the work. One gal I prayed with last weekend there had precancerous cells and was due for some type of procedure on Monday. When she went the doctor, he took a look around and said, "Well there is nothing there. I cannot find anything there. Glory to God."

And, Eileen testified last night at Way of Holiness where Randy taught and we got to minister. She explained that she had been in back/neck/ headache pain for over 13 years. She would get adjusted and feel pain free for a little while and then it would not stay and the pain would return. On Saturday night, while Tony taught, the Lord was turning her neck around as she sat. When I released the word about vertebrae in the neck she knew it was for her. I lead her out of her seat and prayed for her, she fell under the power of The Spirit. **Her testimony one week later: the neck/back pain is totally gone....totally...no re-occurrence of pain or needing adjustment. Glory to God.**
