

Mission to Mombasa, Kenya, Sunday, April 14, 2013

Sunday Morning Church Service at Neno Evangelism Center and Afternoon Open Air Crusade

Tony:

Again, thanks to all for your prayers, the Kingdom of God has advanced these days! This would have to be the largest church service we have ever ministered in. There has been a picture painted, unintentionally, among the churches in Mombasa that the church leaders are the ones to do the ministry. Essential to our mission is to display that ALL believers can do the works of Jesus. If a fraction of these people get the message and demonstration that they can do the same works that Jesus did, then watch out devil! Many people heard and SAW demonstrated the true WAY, please pray with me that God will water those seeds planted.

At the morning church service, it would be like all of our home town meeting in one church building. There were people everywhere. Just the praise and dance teams are more in numbers than the average church in America. As I began to speak to them, I just kept feeling more and more of the compassion of Jesus for their physical, mental and emotional conditions. I was told that we had to go fast as we needed to get out to the crusade site. I knew these folks needed to see the real, loving, powerful, healing hand of The Lord on their bodies. So, I moved quickly into releasing words of knowledge. Everyone I prayed with was instantly healed. I had many of them speaking prayers of command over their own bodies so they could come away from this with more than an experience of someone else praying for them. The looks were absolutely priceless, their excitement was contagious. As the testimonies of their miracles were being given, other "desperate for healing" people just started coming up. I wanted to give a call for all to come, I felt it in my spirit, we could have been there the rest of the day, and I would have been elated seeing all of them genuinely touched, but someone made a decision to stop and the flow of those needing healing was cut off.

I saw a broken thumb have the bone reset supernaturally, various stages of blindness restored to full sight. I borrowed a pamphlet I saw sitting near by and opened it up for one man to try to read. He said "I can see nothing!" On the page was a large title, a smaller subtitle and very small content printing. I prayed for this man 3 times. The first time he could read the large title, the second time the smaller subtitle and the third time he could read all the small the small print. He was amazed at what God had done. For the most part, the prayer time was like this: "My feet have hurt every day for the last 6 years!" I would say, "ok, today is the last day, in Jesus Name, pain go and feet be restored!" I would ask the man to test out his feet, he would jump on them and say, "I am healed!" Normally there would be tears or big smile and I would send them up to the translator for all to hear the testimony. I looked over at the translator and at one time he had people all around him waiting to give testimony of their restoration as the healings were happening much faster than the testimonies could be given! All glory to God!

Crusade:

We were given opportunity to bring a word to the people and then minister thru words of knowledge. We released the words and up came the people. Now I want to tell you that

Resurrection Power operates thru the Spirit without noise, without fanfare, without our efforts or our strength. It is an awesome thing to stand in that place and see with your own eyes His Power flowing with a simple, gentle, loving word of faith to a hurting person in His Name! For all the crowd to see, I had the people that came up (all believers) praying for the next person! We were getting a double wammy here as the miracles were happening to person after person, but not by my hands, rather by believers that have never prayed like this before!

So, here we go: A lady with her jaw all swollen from some kind of tooth or gum infection. She couldn't swallow, with her throat swollen nearly shut. You could see she was afraid of this sickness and if this didn't work she would be going to the hospital. We had her put her hand on her swollen jaw. First fear left, then she felt the swelling going down right under her hand. All the discomfort and pain left and I want to tell you, she was in "God shock!" Totally healed she couldn't wait to tell others.

How about this: An older woman had a huge tumor on her throat. It was so big that her neck was the size of her head. Can you picture it? She said she had bad headaches, I wasn't surprised with this thing attached to her. After just a few moments of prayer and we told her to check it out. When she put her hand on her neck, she was in shock....squeezing, pinching, feeling, amazed that this basketball on her neck was gone. Gone! In Jesus Name! Now you know what happened to the head pains, right? Gone! I often try to put myself in the people position that we are praying for, seeing these kinds of miracles....the amazement, the wonder of the awesomness of God, the thoughts of how their life will be different now.

I will give you one more. A man that said he has had, for the last 24 years, debilitating pain in the small of his back. To where he couldn't work or even really live. He was overweight because he has not been able to work or exercise for the last 24 years. He stood there watching the first several people receive miracles and for some reason Holy Spirit had me look at him in the face with each miracle (this is before I knew his condition and that he was in despair and hopelessness) and tell him "watch, see how good The Lord is, His goodness will be coming to you in a few minutes!" I could literally SEE his faith rising higher and higher. Well, I had a lady pray a simple prayer of command for his healing and BAM! He was twisting, turning, bending and one very happy man!

OK, so just one more: A young man, perhaps in his 20's stood before me with a broken wrist. He stood there the whole time waiting holding his damaged wrist with the good one. He said that for his work he must be in very good shape and he always does lots of push ups in the morning, but he has not been able to work or do push ups since the accident. A fast prayer and I said ok, let's see you do a push up. He wiggled his hand, a smile as wide as a big river and he dropped straight to the deck and landed right on his hands full force and proceeded to do rapid fire pushups.

Hey! Is Our God Good! After the demonstration of the power of God, we gave an invitation for Salvation and the lost came into the Kingdom tonight. All Glory to God!

FREDRICK;

We report only of the morning service as we have leave to go back home directly after this service.

As the praise and worship was going Tony asked the team to gather for short effective prayer asking the Lord to rain His Presence for His Glory to be seen.

The worship and praises was so powerful and the church was in prayerful mood, when finally Pastor Tony was called upon to preach he insisted on having trust in the Lord and that effective evangelism is just being led of the Spirit to love people.

Thereafter he began to minister through the word of knowledge, he also had us to give a word of knowledge, many people responded by coming in front to be ministered to.

A woman with multiple pain in her body came to me and Emily, we laid hands on her and asked her to repeat after me in confession that Jesus heals and by His strips we were healed. Immediately, I saw a smile on her face I asked what it was, she replied that she was so surprised, I asked why, "I am healed just like that" she said. Thank you Jesus!

About five people came with same problem, that case had revealed through the word of knowledge that there is someone with a thumb that is painful, they showed up, one said she fell and broke her thumb about two months ago and it was totally healed, another one said her thumb was cut by a cooking pan she went to hospital got stitched and treated it has not healed, until today and the rest theirs just got swollen up and don't know the cause, all of them got healed by waiving those hands in the air when I asked them to do so.

A young woman has been sick for two weeks and she felt weak from the waist to her legs, she also had a severe headache for the last one week, I told her to swing one of leg and thank Jesus at the same time. On the third time instantly she got strength and relief, then Emily laid hand on her head and was healed.

A man who was sick all over his whole body, shivering all over. After he had explained to me his case I just told him to thank God that He has healed him. He thanked God and got healed instantly without laying hands on him.

A woman with high blood pressure, headache and backache I told her to bend three times as we thanked God for the healing. She got healed instantly. Amazing how Holy Spirit led us to just give thanks and the healing came!

A woman came with a swollen stomach, and painful, she got operated on because her baby had died while in the womb, about three years ago, since then she never conceived and she has been in constant pains despite of being prayed for many times and visiting doctors. We laid hands on her and got instant blessing.

There was such a powerful anointing here this morning that many people who came we did not actually pray for, the Presence of God was so powerfully there that anything we asked for in Jesus Name was being done! Hallelujah!

Three people came with similar problems, all with itching eyes, I just told them rub them slightly and thank Jesus for the healing and all got healed! Amazing God!

Casey:

Whelp this was out last day of ministry in Mombasa. The church this morning was totally packed out. They told us that they seat 3 thousand and every seat was taken. Now you want to talk about a worshipping church this place has got that down solid. Everyone was up and dancing everywhere. It was so awesome to be in such a place. Terry and Kaylie jumped right in worship and joined the dance team. Now Kaylie, this girl looked as if she was a black girl she fit right in no problem now for Terry well she is defiantly a white girl all the way through. It was fun watching them dance with the worship team. When worship was over Tony gave a short message and we released a few words of knowledge and got right into praying for the sick. The anointing was real strong for healing this morning and everything was happening instantly. I didn't have an interpreter so for the most part I just had to wing it. I would just tell them to put their hands where the pain was. One lady placed her hands on her stomach and I just simply told the pain to go and it did. She was poking her stomach as if she was looking for something and all she said is "it's all gone all gone". I just praised God and sent her to go give a testimony on how God just healed her, and I moved on to the next person waiting. The next lady was having knee pain and as I was praying the other lady that had just got healed started to share what God did for her. Come to find out she had a large tumor in her belly for several years and it was very painful. In a moments time with the touch of God she was instantly set free and healed from that tumor. Wow and I thought she just had a belly ache. Another cool healing that took place was a young man that was deaf in his left ear. Tony started to pray for him and the healing was coming but the ear wasn't open all the way yet. So we played tag and I gave it a shot. I prayed a short prayer and started to check his hearing. He was now hearing fine and could even hear me snap my fingers from ten to fifteen feet away. I love it when God is in the house for healing and the lives that will forever be touched and changed. I was also blessed to lead several people through deliverance this morning using their own authority. Each one of them said they felt so good and free and were totally shocked on how easy and fast it took. When you know who you are and what authority we have what else would you expect?

The crusade crowd must have been doubled from last night. It was a sea of beautiful African faces all hungry for a touch from God. The worship went on until it was dark and the whole time all of us were out dancing and playing with the children. This is one of the best parts of the crusades here just getting to be with the people and love all over them. Within minutes you it's like you have several hundred new best friends. I love it. After Tony gave a short message we released words for healing and we were once again standing in the very glory of God. For me tonight the healings were coming instantly. I got to pray again for another deaf ear tonight. She was about 19 years old and she has never been able to hear out of her right ear until tonight. Just a short prayer and her world has changed forever. I love the look on their face when they hear for the first time, way cool. After she was healed I prayed for a bunch of people that were having pain in their mouth. Mostly teeth but to me I looked like the issue was worse than that. No matter as soon as the Holy Spirit would touch them all the pain was gone. They would move their mouth around making all kinds of funny faces checking for pain but couldn't find it. to

finish out the evening Kaylie called me over to help her pray for a woman with a broken leg. She was using crutches and was in a lot of pain. I know this pain from experience it's no fun. So Kaylie and I started to pray for her and instantly all the pain left her leg. As we continued praying for this woman we both had our hands on her broken leg. Then Kaylie and I looked at each other at the same time and I asked if she felt the bones moving around in her leg. That was cool feeling God set the bone back into place. Then Kaylie asked her if she could walk and this woman took off walking carrying her crutches. I am not sure who was more excited at this point. Thank You Jesus for such an awesome time working with the Holy Spirit.

Thank you to everyone that held us up in prayer Blessing to all of you. ><>

Terry:

Well today was Church service and Pastor Tony preached to a church of thousands of people. He spoke on real evangelism. Then we gave words of knowledge for several issues. The anointing was so strong and every person I prayed for received healing. It was so powerful and very fast. This lady walked up to me and said she needed prayer for cancer. Her eye was swollen. I started praying and saw this thing open up, puss started oozing out of her eye and it looked like a tumor moved out. I placed my hand right on the wound and more puss came out and she said she was healed. I do believe that the root to the cancer was pulled right out and she got completely healed. She was crying with Joy.

We went to the crusade tonight outside with maybe 6000 people, hard to tell, it was just a lot of people. Our team went out into the crowd and started dancing. Immediately about 50 children surrounded me. I loved every minute of this. I took their hands and had them get in a big circle. Pastor Tony joined this circle and we started making up dances with them and other children joined us. The joy on their face was priceless. It was so fun. Then Pastor Tony got up and preached on Gods willingness to heal and restore them right now and then gave words of knowledge. We had those people come up the stage. I prayed over many and here are some: a woman who had multiple problems: headaches, back pain, and feet problems. She got completely healed. There were several women who had digestive problems and got healed immediately. I prayed over a women who had teeth problems and was completely healed. A women who had pain in her right ribs. I prayed and she didn't get healed right then. The pain moved to the back and we prayed again and she got completely healed. Tony did an altar call and hundreds of kids came up. It was so sweet ☺ I loved this moment seeing them all standing next to the stage raising their hands. Then it was time to say goodbye and the kids were saying bye Terry ☺ My heart went pitter patter. It is now 11:15pm and Casey, Kaylie, Colette and I are sitting out at the pool trying to finish our reports. It is time for bed and we are so tired. So, until my next mission trip. I had an absolutely amazing time. I am so grateful I live in U.S.A. and have an amazing church. I love my family and friends and am so THANKFUL for ALL of you and YOUR PRAYERS..I felt them..We had such incredible favor on this trip..I love you all so much. YESU ANNA KUPENDA...It says Jesus LOVES YOU and so do I....See you soon..Miss you Beloved and Sisters..I miss my brothers too. Good Night ...

Brian:

Today was our final day to minister to the people at the Neno Evangelism Center and the crusade this evening. In the church service after words of knowledge were given we prayed for a lot of people for healing. All kinds of pains instantly gone, the two that stick are one man with walking pneumonia and in pain for seven years instantly healed. The second was a young man about twenty who'd had asthma since a young boy, who said he was instantly healed as he kept taking deep breathes.

At the evening crusade people were called up on stage and lots of pains instantly healed, after one was instantly healed I noticed this young man wandering towards the edge of the stage like a zombie in a trance and probably would have walked off it a five foot fall. I grabbed his arm brought him back to the center of the stage. I asked his mother what was wrong with the young man and she said he was insane. I asked her how long and she said seven years, so I prayed against the spirit of insanity and he opened his eyes and I said Jesus, and repeated it back. I asked some questions and he was conversing normally. This would have been much cooler at a Muslim village because the village would know this young man. At a crusade setting the crowd does not respond as well to these miracles because they do not know all the people who are receiving miracles. Yet, this was amazing for me to watch this change right in front of my eyes. There was so much that God did today, my mind is overwhelmed.

Colette:

Sunday service. Tony's teaching this morning was a beautiful word picture of Jesus and what are supposed to be like. The first person I ministered to had burning eyes and was quickly healed. Then there was a lady with TB and burninig in her feet. The TB caused pain in her chest. The pain in her chest was quickly gone and her feet were healed at the same time. After lunch we were taken to the crusade where the field was filled with people. The large sound system filled the air with worship music. On the stage was a team of Africans, about 36 people worshipping in dance and on the immediate grounds there was another team doing the same. Both male and female, they were dressed in colorful pants and long skirts and tops. We joined and mixed throughout the crowd. Both the very young to the elderly were participating in the worship. They were very surprised when we joined them. What a glorious time we have had!

When ministry time came there was a lady that had a headache, stomach and backache. I had her command the pain to leave her body and command a total restoration to come to her body, in Jesus Name! After checking for her ache, she said with a big smile that she felt great! This is how it went, people came for ministry and they were all healed and all very happy to be well again. Yes they came to know Him, Jesus, and the power of His resurrection and there will be more trials, but Jesus is always available!

Love and blessings....

Kaylie,

This morning was sooo fun!! When we arrived at the church, there were thousands of people! Terry and I joined in dancing and worship! I love the way these Africans worship in dancing!! After amazing worship, everyone would shake hands and encourage each other, as I was shaking hands, this woman stuck out to me, as she hugged me tightly and began crying with joy, it's amazing how much just loving someone can do. The Bishop then got up for a few minutes before Pastor Tony came up to teach and speak about how to evangelize, about how it is all about loving people and then the power flows. Then Tony had a few words of knowledge and people began coming up for prayer, I prayed for quite a few people, I would not be able to put every single person I prayed for on here, But there was a lot of people with back, eye, knee, and stomach problems, and every single person got healed!!! Yay God!! After that service, we went back to the hotel for about an hour before heading to the crusade. When we arrived at the crusade The Team and I headed right into the crowd to dance, when I first crossed under the rope all the kids were In the front, I began dancing with them, and as we headed further into the crowd, I became more and more surrounded by kids! They were all the most adorable kids! Then eventually some older people joined in too!! We were jumping and moving praising his name! I don't even know how it started but I somehow ended up trying to teach them how to tut and do different moves! I've always wanted to teach dance, but I was not sure what the Lord wanted me to do, I thought maybe I would teach in a studio somewhere in America, but I always had this vision in the back of my heart to teach, somewhere on the mission field, but I always thought other countries would have their own dance and would want nothing to do with dancing, but as I was showing them how to do moves WHILE WORSHIPING!!!! It was so God!! The Lord was showing me I CAN be ON the MISSION field WHILE DANCING!!!! And I was getting to know the kids! I LOVE them all soo much!! I wanted to take them all home with me!!! I did not want to leave! It was like God put this strong desire in my heart, and he was giving me a taste of what he put in my heart, and showing me it is possible, the enemy had been lying to me with doubt, but GOD showed He will give us the desires of our heart! And to taste and see that HE is GOOD!! It is amazing how on these trips God goes deep inside of our hearts and releases desires that have been shut it. This has been one of my favorite parts of the trip, I have so many favorite parts now! Then Tony gave a short encouragement to the people and gave a few words of knowledge and one of them was the back, and Terry, Casey, and I got the same thing, in the same place!! It is amazing how God does that! He then called those people to come up, And I prayed for a lot of people, they all got healed!!! Then there was a girl with pain and her knee was swelling, the pain was gone but I didn't get to see the swelling go down but it was coming!! Praise God!! After praying for people, I went down off the stage, and this girl with crutches, a broken knee, scars, and swelling asked me to pray for her, She didn't speak English very well, so I grabbed Casey, and we prayed for her and she walked away pain free and without using crutches!!!! Yay Jesus!!!! Then I got to play with the Kids again!!! Soo much fun!! That made my night! My Week!!

This trip has been amazing!! Thank you all for the prayers! They mean a lot!! I plan on many more mission trips, to bring honor and glory to my Daddy! I will see you all soon!
