

FEBRUARY 14, 2015 – STANDARDTON, SOUTH AFRICA

SATURDAY MORNING AND EVENING MEETINGS:

2-14-2015 Saturday

Pastor Tony

In the morning service we taught them how to drink and receive from the Lord and we started praying and imparting. Now I want to tell you the Power level was extremely high! For some people we just touch them and BAM they are on the floor. Miraculous healings happening while people were on the floor. They would get up, go to the microphone and tell everyone the miracle they had received from the Lord while on the floor!

The leaders were making special note that tremendous power of God was released just by the slightest touch from the team and there was totally NO pushing and NO yelling! That seemed to be an amazing revelation to them!

There is so much spiritual activity happening here all the ministry is running together. These are just a few of the ones that stand out to me as I attempt to remember. God bless you all that are praying for this work of The Lord in South Africa!

Evening:

A man came that had 3 items on his list. First was his sight that was blurry, second his hand and wrist that were stiff and his legs go numb if he stands for very long. He asked if I could pray for a complete body overhaul. He said I believe God is going to do that. His wife stood there and said "I just want to stand here!" I told her, well, you can pray with me for your husband. She said ok. After first round of prayer, his eyes were still blurry. Second round I got him to put his hands on himself and pray with me. This time he said IT IS Clearer! He said he understood how this works, that we will continue to pray until they are totally clear. He kept saying "IT IS GETTING BETTER, IT IS GETTING BETTER, OH GOD, IT IS GETTING BETTER!" It was so cool to see him rise up in the authority of Jesus and boldly proclaim to eyes to be restored and to the spirit of blindness to completely

depart. Then we move on to his hand, fingers and wrist. I had his wife do the praying this time. I coached her a little, but she went after it! He said it was 70% better after his wife's first prayer. Now, she went after that last 30% like a hound dog after a game bird! Two more rounds and BAM, back to normal. Then the wife asked me to pray for her friend who had to leave and she would finish praying for her husband.

A woman suffering with infections in bladder and digestive system. One prayer and she said "OH GOD, it is gone! It is totally gone" And off she went, a happy camper.

Another woman came and told me about how she had taken herself thru deliverance on a couple of issues tonight, from what she learned in the training. Then she asked for her ears to open. She said it was very difficult to hear anything. First round, she said "I can definitely hear better now!" Prayed again and she said "Much Better now." We reviewed now how she should be speaking to her hurt body parts and agreed and hammered it once herself. We then talked about how she was embarrassed to try to minister due to physical problems. Another man stood there watching and said "I will pray!" I told him to go for it and he zeroed in on this woman's physical problems and commanded them all to leave. So cool to see others doing this!

A man with arthritis in his hands and wrists, with one finger that was badly twisted. We watched all the stiffness and tightness and pain GO!

Some folks came up to me a little while ago and said "there is a guy here that had an accident and his foot is immobilized and he needs surgery right away, that he cannot walk on the foot!" So, this is what happened. These folks came back to and said "remember the guy with damaged foot that needed surgery?" So, I thought they were asking me to please come, so I said I will be there shortly. They started jumping up and down with excitement and they said "No, No, we knew you were busy and that we were going to just do what you have been teaching us, so we prayed! We wanted to tell you, the cast is off, a miracle happened and his foot is completely normal and he walked out of this place just praising God!" OK, now we're talking.

OK, now here is a beauty. A woman sat as stiff as a piece of steel, she looked like a statue. Her husband standing with her, longing to see his wife restored. I asked what the problem was and she said that she had been told there are two discs in her vertebrae that are bone on bone and there was ABSOLUTELY no option for anything except surgery and that the surgery had to happen immediately. Now, this woman could not move her neck or left shoulder at all without extreme pain! After the first round of prayer, she started to smile a little and said it is so much better. Tears coming down her eyes. The pain was moving around so we went after the spirit of infirmity and that brought us to 80% of total healing. I then asked her husband to pray the rest out. He prayed and she said "My God, it is all gone!" She was moving her neck, shoulder and back around like a spring chicken. She said the devil worked very hard to keep her from coming to the meeting tonight! To see this lady at the start with the grimace on her face to now LIT Up with the glow of His Glory! This young couple has just gotten their marriage and lives back and stopped the thief from robbing them!

GLORY, GLORY, GLORY TO GOD!

Mama Nancy:

Our day started out with the team giving Tony and I a very sweet valentine's card that they all signed. They're a good bunch.

We continue in the two churches, Ark of Salvation and Full Gospel. The crowd this morning at Ark was small, but very anxious to receive prayer. The worship was led by the woman pastor, who has the sweetest voice, and you can just see the joy on her face when she sings praises. I am very popular with the children as they "somehow" found out that I have the gift of lollipops! I'm pretty popular with the adults too.....(same reason)

I don't seem to be praying for much physical healing, but am praying for those women with husband/children issues. I think a lot of them just want to have someone to talk to. And I have been having a wonderful time watching the whole team pray for others.

Marie Smith:

It is getting harder and harder to write...the hunger and desperation of the people is so intense. And so much is happening. This morning at the Ark church, worship had been going on for a while. The atmosphere was charged. It was a smaller group...with big expectations for MORE. Tony encouraged

all of us to thirst more for all the Father has. Everyone was invited to come forward for the team to pray and impart.

I went to a young lady who had stomach pain and a rash on her hands that comes and goes. I laid hands on her and prayed. She went down in the spirit. Suddenly she began to manifest. A demon was yelling in her ears as I was speaking. I took authority over a few spirits and they left. Glory to God. I took time to make sure she understood what happened and the authority she has to drive out demons. She is called to ministry and so desires to serve the Lord. Praying for those who were really desiring more of God must have been my assignment today. It is so much fun praying and speaking prophetically over them.

When things seem to be coming to an end....I declared "all of this is wrecking me" when asked if that is what I really want....knowing it will be a place of no return.....I said YES! . Casey and Tony prayed something and I was under the Glory for a long time. We all die daily but the reality of dying at a deeper level was my lot today. Someone even laid a rose on my chest I will be ever thankful for this South Africa experience and the prayers of those who "sent" me.

Marie evening.

Great clear teaching on deliverance tonight. Practiced on each other . Whole church participated. I helped a lady go through the steps and she got free of a lying spirit.

The only other person I got to pray for was a lady who was very hard of hearing. I'm not sure if she was totally deaf, but she definitely could hear after I prayed and cast out deaf spirit. It's been a blessed day Glory to God.

Terry Matis

My niece Olivia who is 6, gave me 3.00 to sow into someone's life. I met a sweet little girl 5, who reminded me of Olivia. I gave her grandmother the money and found out her Dad died and Mom walked away. God is so good. She was so blessed to receive the money. We had so many healings and a lot of deliverance from witchcraft. I prayed over a woman who couldn't move her arm. She got completely healed. It was an awesome morning.

Tonight was my favorite. The worship was so good. Casey did a teaching on flagging. We had around 15 children flagging. The little girl that my Niece Matis gave the money to wrote a Thank You letter to Matis. She said,"she was going to use the money to build a worship school and teach kids who don't know Jesus to worship him." I cried and believe that this will happen. We need to have childlike Faith to believe BIG FOR GOD. I prayed over a young boy who got completely healed. I spoke into his girlfriend life. The Lord gave me a word to this girl to sing and you will lead millions of teens to Jesus. She started weeping and said, The Lord told me that when I was 10. God is so awesome. I looked at her mother and the Lord showed me that she had a spirit of poverty. We broke the spirit and she started weeping. Then the mother said to me, "I see you on a tandem bike with Jesus. He is leading you up and down hills and your both having an amazing time together. She had no idea that I am a biker and I use that time for

Jesus. It was another amazing night of healings and deliverance. Keep Praying for Us. I love you and Thank You for all your prayers. I seriously feel them.

Chris Bowersox,

The morning started with beautiful song and worship. The Lord brought this man to me. I asked this man what he needed prayer for and he said, his stomach and knee. He kept changing his mind on what he wanted to have healed. I started praying for his leg when Patrick told me he was wearing a witchcraft bracelet. I stopped prayer and asked him again, "Do you know Jesus?" He said, Yes. I said will you take off your bracelet and necklace? He was reluctant but finally agreed with much prayer. The local elder brought a butcher knife and removed the bracelet and necklace. Immediately after the bracelets and necklace were removed everything changed. You could see relief over him and he got filled with peace. I prayed over a young man with chest trouble. He was healed; then I gave him a "Walk In It" shirt. What a day! Amen!

DICK EVANS

Morning

Back to Ark of Salvation Ministries this morning for a strong presence of God's Love. After a short message from Pastor Tony he called all who were present for prayer, prophecy, and blessings. Each of us had many to pray with; so many it is hard to remember specifics. There was a lot happening. I had a word of knowledge for a headache, but no opportunity to call it out. Well, God knew and brought me to a young woman with a headache! One quick prayer commanding the headache to go and all pain left. Thank you, Jesus. Prayed for a man with the help of an interpreter. Dizziness and pain left. Then for a woman with pain in her shoulder. Commanded pain to leave and she was instantly healed. Thank God for the young lady interpreting. Many more came forward looking for a word from God and a blessing. And He was faithful to speak to them.

Evening

After a teaching on deliverance by Pastor Tony, he called everyone to practice the four steps with each other and for anyone wanting prayer to come forward. I went to a couple of men that came forward. The first tried to tell me what he needed prayer for, but I could not understand his language. An interpreter came and we found out he had an automobile accident sometime in the past and had bruises, stiffness, and pain throughout his body. We cast out the spirit of pain and much of it left. With persistent prayer all pain including a headache left. The man that came up with him had small growth on his right elbow and when he lifted anything with that arm he felt pain in the elbow. We cast out pain and commanded the growth to go. All pain immediately left. Thank you, Jesus. Prayed with another team member for a woman with pain in her ankles, arthritis, and swelling in her legs. We cast out the spirit of arthritis and pain and for all damage done by arthritis to be restored. A lot of the pain left. We persisted with hands on her ankles and the pain left. A woman came up who desired a prayer language.

She had a few words, but wanted more. Another team member and I spoke with her and helped her to receive her language. Praise God.

SALLY DROST Day 4

Morning at Ark of Salvation Church, Feb. 14

After a short message that helped the people understand the infilling of the Holy Spirit, ministry began. Many people came forward for prayer. My eyes were drawn to two teammates beginning to pray for a lady in much distress. I recognized the distress as a manifestation of demon possession and I moved toward the group to help. One of the prayer warriors confirmed the presence of water spirits. One prayer was spoken into her ear using the authority of Jesus. The manifestation was cut off. We prayed authority prayers for a long time and finally she became free enough to receive Jesus as her Savior. His Life in her changed her whole appearance. She soaked up the victory! Joy and peace came in to fill her previously deranged body and mind. What she could not say earlier she proclaimed clearly: her hope in and love for Jesus.

Another girl wanted prayer for going to medical school. She wept as we prayed and gave a hug with tears of joy running down her face. Hope was the evidence. I reminded her that when we stay near to God, He will give us the desires He wants us to have for His purpose in her life.

I prayed for another young lady who wanted to have complete restoration of her spiritual life. She rededicated her life and was encouraged through Holy Spirit. She received the baptism of the Holy Spirit and rested in His Presence on the floor.

An elderly man sat in a chair all alone at the back of the room. I felt Father's compassion and love for him. I checked with a male teammate to see if the man had been prayed for. He said that he had been prayed for, yet I still felt the nudge of Holy Spirit. So I approached the man and offered to pray for him. I simply prayed more of God's love, joy, and peace into him. He smiled broadly and I knew Jesus had touched him.

The morning ended with teammates singing in the Spirit. God's love in the atmosphere was so evident!

Evening

We arrived around 7:00pm at the church to find many people in attendance. After the teaching about deliverance, the people were encouraged to run each other through the four steps that were taught. I was invited over to a man and his father to sit with them and guide them through the process of deliverance. One had anger, the other mental uncertainty (as voiced by him). They both went through the process and received a change as Holy Spirit ministered to them.

I looked around listening for Holy Spirit to guide me to the ministry He wanted me to do. Two young people were in prayer and I had a word for them: they would be raised to be leaders in the Lord's army of the end days. They were to stay pure and develop a close relationship with the Lord.

A lady came to me to have healing from gall bladder problems and thyroid issues. We prayed for the spirit of infirmity to be gone and for an infilling of peace. We commanded healing in both areas. When asked if she felt any change, she definitely felt something moving in the area of her gall bladder. We prayed again and she smiled, saying she just knew she was healed! All pain was gone.

The woman's daughter wanted prayer for general pain throughout her body. As we prayed, she felt a release and knew she was touched by the Lord. I reminded her about the teaching and to use it at home if she needed to. The power of the Spirit would continue the healing and she was reminded to walk by faith and not by sight. She evidenced her healing with a big smile.

I had a word for a woman across the way. When she received the encouragement, she began to cry softly and said it was just what she needed for a problem she had with her husband's "hobby." We prayed for him and I suggested she ask Holy Spirit for the right time and words to share with him what she learned tonight. She left with hope and joy that her husband's heart would be prepared.

A team member and I prayed with a lady for her prayer language to be released after years of having only a couple of words. As we prayed in our languages, she joined with just those two words. Soon there was a flow of words. She left with tears of joy.

Holy Spirit gave us wonderful praise and worship this evening! There was such an atmosphere of peace.

Dawnmarie:

Saturday Valentines day

As the Team walked in the African village we were welcomed with Love

The Worship Opened up and we could See the works of the Lord We were 1 Voice, the More Love that was there this day brought in demonic spirits we were prepared Praise God and in agreement Demons were cast out hallelujah.

Saturday night

An Evening of deleverance and words of knowledge given from the congagation

Restoration from members repentance, and declarations they declared of restoration Praise God a Day of Fruit.

Maria Medina:

Breakthrough in Jesus Name! The saints of Ark Salvation Church and our team will never be the same. The outpouring of The Spirit was tangible. Spirits of witchcraft were discerned quickly and cast out under The Power of The Holy Spirit. Praising Jesus!

The Angelic presence brought beautiful songs of worship and I was able to flow with The Spirit. Lady with many infirmities came for healing, laid hands on her and she began to manifest. I silenced the enemy in Jesus Name and the lady was able to receive her healing after casting out many spirits by our team.

Laid hands and prophesied over young woman. She received and wept as she felt free. So many more set free morning! Praising Jesus.

Powerful worship! Patrick and Anna flowed with Holy Spirit to open heavens and we quickly rested in His Presence. Hearts prepared to receive the Word in the still sweet Presence.

The saints were taught to perform deliverance and it was put into practice. Many received their breakthroughs. Praising Jesus
