

## MISSION TO TANZANIA FEBRUARY 2017

As always, I am so grateful to all that have prayed for this mission. What an absolutely Awesome move of God, an invasion of His Kingdom that broke religious structured walls down and set many, many people free! I will give you a few of the specific testimonies below that stand out to me, but as an overview, to get a sense of what I saw happen: There were THOUSANDS of healings, miracles and deliverances. There were HUNDREDS of salvations and the totally amazing thing was that we did not do any crusades, all ministry was in the churches! Lots of church leaders receiving teaching and training in Holy Spirit ministry!

I am going to give you a little history of the place we went to minister for those that are interested. If you want to go directly to what we saw God do, move on down the page.

The area we went to minister, is BUSH! Way out there! We were told we were going to “The Refugee Camp” and needed to have special government issued visas to get in. I did a little research and found how the camp began. Rwanda and Berundi, two neighboring countries both had 2 tribes. It was the Hutu and Tusi tribes. The President of Rwanda was Hutu and he was killed (shot down) while flying in a plane, together with his entire cabinet killed. Civil war broke out. End result was that the Hutu’s sought a safe place to live in Tanzania. This area way up in the mountains of Tanzania is their home, 90% of them have become nationalized and are currently protected by both the UN and the country of Tanzania.

Now on the religious side: Dr. David Livingston from England, came to this very area, and laid a foundation of teaching to introduce the people to Christ. He loved the people so much that he wanted to die here, and did. The missionary Stanley from England (perhaps you remember reading about Stanley and Livingston missionaries) came looking for him, took his dead body back to England but left Livingston’s heart (removed from the chest of his body) buried on these grounds Because of his love of these people.

The “Free Pentecostal” churches were begun as believers from Sweden, Denmark and Norway came to this area. They brought with them much tradition and formalism from the churches overseas. It was around 1932 that those churches were started here in the Refugee Camp. It is to those churches that God sent us to

minister. There was a catholic church that has been under construction and abandoned after many years and left to decay. We didn't get to see any other denominations in the camp but I was told that "when we come back again"- not "if", that they will plan to do a greatly expanded reach to the people, as the camp is much bigger than what we saw on this trip. Well, I thought this was pretty expanded!

So, we are sent by God to this Refugee Camp, to bring the GOSPEL with demonstration of Power and the Holy Spirit, to this people group. I now see God's Plan to affect positively, for the kingdom, this entire people group, by training and equipping, on this mission.

We head out of Arusha in a van, pretty well packed, with 9 people and lots of baggage and supplies on board. We were told it would be about a 10 hour trip and 25 hours and a day later we arrived. For those that have never been on a bush trip, the travel is an experience you will never forget. In the natural, a 4-wheel drive land Rover would have been the only choice. But we had a van, chosen by God to enhance our adventure! The first 7 or 8 hours were actually paved roads and I was thinking, this is gona be a breeze. Then we moved to dirt roads, and then on to dirt roads with moon craters, and then on to cow paths and then on to really no road, driving between trees around boulders, coming to bodies of water of various sizes. There was a local lady standing there where we came to just a footbridge across the cow path over a small pool of water. Our driver asked her if she know how deep the water was, because we were going to need to go thru it or finish the trip on foot. She stepped down into the water and it was up to her thigh. Ok, now in my carnal mind, I am thinking, no way. But then I stepped back into the Spirit and we looked at the driver and he agreed, "let's go!" I had heard once that when the water is up into the engine that will stop the car, but this is what I do know: "By the grace of God we go!" Amazing, we drove down into it like we were going to turn into a submarine and then drove right out of it! Glory to God. Now I didn't know that our driver was Not born again, will tell you the rest of that story shortly!

We got to what seemed like the middle of nowhere late at night, stopped at a police station to ask how much farther we had to go and they just said "a very long way! And you should find a place to stay for the night as the roads are almost

invisible in some places in the dark!” They said there is not much around these parts and you are headed to where there is nothing, but could not tell us where to go for lodging. We prayed, drove out to the road and there was a guy on a motorcycle. He asked if he could help us, we said yes, we need a place to sleep tonight. HE SAID “follow me”. And he took off down the road a little ways and there was a house there. What looked like a regular house. No signs to indicate it is anything other than someone’s personal house. He goes up to the door, goes inside and then comes back out with a lady that says “we have room for you all, come in!” The motorcycle driver takes off. Ok, now I’m thinking, was this guy an angel? The lady leads each of us to a room with our own clean beds. Ok, we are going to sleep for 5 or so hours and then hit the road again, because the first meeting is supposed to start in the morning and we don’t know how long to go yet. Back on the road, if you can call it that, 7 hours later we get to the camp. We are met by the Senior Pastor of all the churches we will be ministering to and he takes us to the government office to get our papers cleared so that we could be there. From there we go to the first church:

MSAGINYA village: Pastor Nathanael Lazaro

As we drove onto the property there were people all around. Singing groups belting out praise songs. Shouting and Applause from the people, lot of people. It was as if the King of the land had just arrived and the people were showing their excitement and appreciation. What a sight, the atmosphere was electric! They gathered the team up and took us into a room and said “before we start the service, we eat!” I heard the pastor say, “we have protocol to follow”. I didn’t think much of it at first, but later came to understand. One of the protocols is that we eat, before and after all ministry. Another is that we don’t carry anything, they carry everything for us. In fact, we don’t do anything that requires manual labor, they insist on doing all that. Another is that there are announcements and prayer before and after everything we do. Another is that none of the ministry team enters the building before the Senior Pastor. He leads us in, usually to a separate room, and he goes into the main hall first and we follow. There is much Protocol that we learned about. But you know, we become all things to all people for the sake of the Gospel! Another thing I quickly learned is how loving and caring these people are, they actually have people assigned to watch us to see if they notice that we need something. When we eat, it is amazing thing to see. Do you know,

they would even get up before dawn, start a fire, heat some water and put in buckets so that our showers would not be with freezing water. (At the top of the mountain, the water is freezing!) They certainly knew my personal preference to not shower in freezing water, but I did not tell them that. They understand the words of Jesus that if you want to be great in the kingdom then become the greatest servant. We were quickly made to feel like we were royalty and it didn't stop the entire time we were with them.

Ok, on to the first meeting. First the protocol, then we get to share. First we had all the introductions. First thing that I was "WELL, I HAVE NOW FOUND THE **ENDS OF THE EARTH** THAT JESUS TOLD US TO GO TO. IT IS HERE. YOU'ALL LIVE IN THE ENDS OF THE EARTH!" Well, they thought that was pretty funny, but I was serious! Then, after all the intros, Fredrick briefly shared a Scripture passage in line with the new birth and then turned over to me. I so thank God for Fredrick, he has a grasp on both Swahali and English and was an awesome part of the ministry here. It became quickly evident that training and equipping was needed and that the Truths of the New Birth were foreign to them. So, I get to bring the good news, Hallelujah! Looking at the faces of the people as I shared truth after truth and dismantled religious lie after religious lie, they didn't want it to end. The pastor said, "we have never seen or heard anything like this before, this is the Truth!" Pastor said "today was so powerful, Heaven has invaded our village!"

We gave some words of knowledge and the people started coming up, but they didn't stop coming up, I think everyone in the place came up. Now I know that not everyone was responding to the words of knowledge, but they were responding to The Glory of God that was saturating this place!

I asked if anyone spoke English, besides those on our team, only one pastor that was present, so I enlisted him to partner with me. I got him into praying quickly. After about the first 100 miracles from typhoid, varying degrees of blindness, those with bad legs, knees, etc, tormenting pain all over their bodies, bad backs, all manner of sickness ALL OF A SUDDEN a number of people began to moan, cry, squirm, spin around, fall to the ground, screaming. It was like a wave came in and a bunch of people hit the deck. I picked the worse one and had to back off the church leaders that were trying to wrestle the lady and were yelling at the demons. I got down on the ground and held this woman and starting speaking life

over her and quietly commanding the demons to submit. As I held her she proceeded to barf up some pretty wild looking stuff, about a bucket full. That went on for about 10 minutes until she was just able to rest in the love of Jesus embrace with a house clean of demons. When I was able to leave her in peace laying on the floor, I went to pull other people off of those that were still manifesting, that were trying to wrestle them to be still. Some of the people were manifesting from being touched by Holy Spirit, others were manifesting as the demons they were carrying we being evicted. At this point my role was fire control, as these folks have not had the training we bring yet. Today was only an intro. As we teach, are weapons are not carnal but spiritual. When the people that were manifesting were questioned, they testified of having been totally set free and they knew it! There was one lady that had an enlarged heart and rapid heartbeat. I had her put her hand on her heart and she literally felt her heart decrease to normal size and heart beat slow down to normal. Man, the look on her face!

**When we thought we were done**, after all had been healed and set free, and now sitting down, and quiet, a mother brings her daughter up, while all look on, and says “my daughter is deaf mute and had multiple health issues!” I said ok and I commanded the ears to open, one time, and then clapped outside her ears and she looked at her mother and nodded with a smile that she could hear. I then told mommy to tell her to say something, she told her to say Asanti Yesu (thank You Jesus) and the girl started repeating the words her mother was saying! The people started shouting praise to God. But best of all was the look on mommy’s face, it told the story! Then momma proceeded to check out what God had done with all the other “multiple” physical problems her daughter had. And to her amazement every issues (don’t know what they all were as it was only Swahali being spoken) was miraculously healed! It was just such a God ending to the service, when it looked like everything was done, God does another “Watch This!”

After that service, we move to KATUMBA: with Pastor William Isaya for the next two days of Leaders Conference. He is like the Bishop or Senior Pastor over these churches. Now this church is huge with thousands of members. The leadership team is more than 200 people. They had 30+ evangelists in addition to all the other offices. So we got to show them Jesus style evangelism, hallelujah! Holy Spirit did lots of demonstrating mixed with the teaching and these people were

amazingly attentive and intent on every second of what was being said and done. **It was as if these folks had been waiting all of their lives for this moment.** It didn't seem to matter what their religious traditions had taught them, they were elated for the opportunity to replace all that with the Truth! The way they set up the meetings was to only have the leaders in the conferences, then the last meeting was open to the whole church. I didn't understand that at first, but later as the masses came for prayer, I understood.

So we begin by giving some words of knowledge that were very specific so we would only get one or two people and we could show everyone how simple praying for others is. Well, 8 people come up with that problem. As we demonstrated and the first person was miraculously healed, we had them do the praying for the next person. Ok, now we really had the interest of everyone, clearly taking away the notion that our team were the "specially anointed ones!" When we opened it up for prayer for all, here they all come.

OK, here we go: There were just so many there is no way I could record them all: A lady with a large orange size tumor felt it disappear under her hand. A lady with a headache, the pain starts moving thru her body as we pray, then she starts screaming and hits the deck, rolling around and screaming. There was a big crowd around us, pushing in, but they all backed off when that happened. This one was pretty quickly freed. Then all sorts of heart issues, assorted body pains, extreme tiredness, paralyzed hands, arms and legs, cripples walking away without a disability, backs, chests, both high and low blood pressures, stomach, ears, one lady I remember said she had what felt like a stone under her skin in her abdomen (which, of course disappeared), a man that had a bicycle accident and his shoulder was "distorted" and unusable (in a moment he was waiving and moving it as he couldn't before, in shock at what God had done), a number of people that in addition to their issues in their bodies asked for prayer for their loved ones at home (we did that, but also encouraged them as born again believers that they can go home and lay hands, in Jesus Name and see the same thing), another one that was interesting was saying they had a constant burning in various body parts (all instantly healed), people with HIV (saying that the symptoms were removed after prayer), I remember a man that had burned his hands and arms and the skin was like torn open with open wounds, not even bandaged (he said it was very sore and was paining- we prayed- I put my hand right on those open sores for a

direct injection of the Life of Jesus, didn't see the skin restored but he said he knew healing had begun as the soreness & pain was now gone), a lot of people with teeth and gum disease healed. I like this one guy that got a mirror and checked and just had to declare for all to hear that he had open wounds where his gums were open and bleeding and infected and he was not able to put anything in his mouth. He was laughing with joy as he said "there is no bleeding, no open wounds, no sores, my teeth and gums are perfectly restored right after the prayer!"

Also, a number of people that when they try to read their vision is very blurred. Amazing, I am the one praying for them, standing before them wearing glasses to read, and these people ALL get their eyes restored and are reading perfectly (tested as I give them a tiny print bible or hymnal to read).

There were many I prayed for that I just released life as my interpreter had realized the joy of him doing this and had gone off praying by himself, I heard lots of Asanti Buana's (Thank You Lord) coming from him and the people he was praying for. At that point I had the people point to the issue and then gesture yes when the healing was realized.

The second morning, before the third conference session at this church, we went to the Christian high school that is run by this church. We walked the ground and prayed over the property releasing blessings. They then gathered all the entire student body together and asked each of us to pray over them. Now look at how big God is: I am moved to pray both making declarations over their lives and prophetically. Out of my mouth comes this kind of exhortation: "Let no man, no devil tell you that you cannot, that you will not succeed, **let no man beat you** or tell you that you are bad...you are born again, a son and daughter of God..."

Later one of the Leaders tell me the enrollment at the school has been progressively dropping drastically and they didn't know why, but while I was praying God showed him the reason: One of their traditions has been to believe that CORPORAL Punishment was the right thing to do. They would whip and beat the children when they felt they were not being obedient or not doing the work correctly or coming up short in some way. And while I was praying God showed them that was Not His Heart to do that, but that is a tradition of man AND THAT

THEY CANNOT DO THAT ANY LONGER AND WILL NOT ALLOW THE TEACHERS TO CONTINUE IN THAT TRADITION, but will now exercise the love of Christ! Amazing, Just Amazing! Did I tell you that was, to me, Just Amazing! Yesu, Asanti Sana! (Jesus, Thank You!)

After 2 days training with the Leaders at Katumba, we move to: KANOGE with Pastor Yohana Buregeya and meet with his church Leaders (about 200 also).

Oh, I wanted to tell you about our driver. He told Emily today that he wanted to get saved. (I thought he was saved). His question was, if I get saved and then sin again, will I lose my salvation? I don't think I will be able to honor that and I don't want to dishonor Jesus. Well, we gave him the good news of the Gospel that all his sins are forgiven and will not be held against him by God and that his spirit will become totally pure and holy, but Holy Spirit will now be living in him to help him with the sanctification of his soul. He was grateful and received the Lord. So, the next thing we do is get him praying. Right away he was laying hands on the sick and seeing miracles. He just kept saying, "this is so amazing!" Yup gang, we need to get new believers right into ministering the Life of Jesus!

Again the Leaders were extremely open and were hanging on every word. I know a lot of this they are hearing for the first time and they have lots of traditions, and as sometimes, in some places, I can see resistance as the fleshly conflict arises between what they have been taught over the years and the Gospel I am presenting, BUT NOT With These People! With these people, only a true humility and desire to be set free. In this atmosphere His Anointing in me flows unhindered and is just such an awesome experience! Thank You Jesus!

Words of knowledge and we begin the demonstration. First showing them and then leading them in praying for the next person While Everyone watches. Holy Spirit loves demonstration, He loves to show the Real Jesus, the Fruit of the Real Gospel! And I can tell you I love to watch Him do it! As long as I am sucking air, I will give thanks for every opportunity I have to see Him change a life!

Again, just tons of people receiving miracles. Here are a few: One man said "I don't drink tea or soda but I have this pain, that will not go away right here." And he pointed to a spot that looked like the location of his kidney. Now I don't know

what the non drinking of tea or soda has to do with this issue, but I know Jesus has already carried this problem. So, I put my finger on the spot and in 10 seconds the man was free. Talk about surprised, I love the look. Another man said he has had neck and shoulder issues for a very long time and nothing can be done to stop it. I said, "Oh yes there is!" I prayed, the power of God came upon him to free him and he grabbed me with a bear hug like I was his best friend that he hadn't seen in a long time. A lady with diabetes said she had continual symptoms of prickling pain all over her body. Of course, gone in an instant. A man said he had an accident that has messed up his back and disqualified him to do many things, including helping people in ministry. Well, today, he got requalified as the Truth was manifested in his body. Many, many more set free and healed in Jesus Name!

Now that we have all the Leaders healed and semi trained with continuing understanding of who they are in Christ, **we move to the last service at KANOGE.** This was a bit of a surprise to me what we saw. This service the Church was packed out with not only the Leaders but now about 800-1000 church "members" also. So, we gave an exhortation of what is available to all believers in Christ and talked about how Holy Spirit would come upon them if they will go. We talked about the Dunamis "Dynamite" Power of Holy Spirit that He will release if we only believe. I knew I needed to keep the teaching light and not deep but simply to stoke the people!

So I asked the team to give a specific word of knowledge for demonstration. It was for upper gum and teeth problems. People come up, we lead them thru seeing the simple process of praying the prayer of faith and command as all watch. BAM, instant healing for the first person while all watch. Jaws hanging down everywhere! People sliding to the edge of their bench in anticipation of what is going to happen next. So, we now get the first person prayed for to pray for the next one. BAM, instant healing! Now these "church members" are stoked! Remember, this is the first time the church members have seen this ministry, up to now, it has only been Leaders in the training.

As the demonstrations by Holy Spirit have reached the people with sufficient impact, we move to invite anyone that wants/needs prayer to come. Well, of course, after that demonstration, they are all coming. There is really not enough

room in front of this church for a 1000 people, but they are going to try. We make the announcement that we want all those Leaders that were in the training to come and pray also, not just the team. It looked like some of the Leaders were still in need of receiving rather than giving, so maybe 50 Leaders were praying with us. I have the only English teacher from the High School with me now, so this is good. We are jammed like sardines in a can, people ALL around us, the sound of 50 people praying, loud, all at once! **HERE IS WHERE WE TAKE A SHIFT:** First person, second person, third person, fourth person, the first thing they said to me was **"I Have Demons"**. Now, that's not something you would expect one person after another to say. Then they talk of tormenting pain and pain moving around their bodies and I ask if they are born again, answer is NO. We explain how Jesus is the Healer and the Deliverer and how He has reconciled them to the Father and one after another they get born again and released of their torment. A couple of them fell to the floor and I asked my interpreter to get down there and ask them what happened. They "I am well, I am free!" **Then it hit me**, Hey, looks like a lot of these "church people" are Not Born Again. I stopped, asked Fredrick to give an invitation for those to be saved, he did, and **MANY PEOPLE GOT SAVED**. Remember, we are in the Church, we are not doing a crusade. **Then in the midst of the salvations occurring, we had a move of the Spirit over the people that were up for prayer. It was as if His Glory intensified and The Anointing began putting pressure on the demons (the demons that MANY of these people were carrying), and we had manifestations ALL over the place.** I realized that in this church I hadn't gotten to teach the Leaders as yet about New Covenant deliverance, only in limited amount. So, as the people were on the deck screaming and wailing and rolling around, there were Leaders everywhere yelling at the demons and trying to wrestle with the people. Now this was a sight to see! I then needed to go from one to the next and instruct them not to wrestle or yell at the demons! Finally, we got them all off and it began to calm down as Holy Spirit brought release to these beautiful people. Before the final protocols, a lady in the front busted out in Swahili and everyone went silent. I asked what she was saying and they told me it was authoritative prayer for those not present and thanks to God for what He had done today!

Now headed back to KATUMBA on Saturday night, to spend our last evening there and then up on Sunday morning for our last service, now with all the thousands of

members of this church. All these thousands were not part of the training so I kind of had a sense we would be enlisting those who had been trained to pray today. Oh boy, well, it turned out to be bigger than I thought. Can you picture this, during the offering, they had buckets up front and the people would come up to put their offerings in the bucket. There was one of the Deacons there to provide change to people who only had an amount larger with them than what they had purposed in their heart to give. Never saw that before. The offering took about 10 minutes for these thousands to come.

After all the introductions that needed to be made and all the Protocol that had to be met, the Senior Pastor personally introduced me and I went up. I love that man, we truly connected in the Spirit. He was telling the people about how we stopped at the market to get some vegetables on the way back to Katumba from Kanoge and they looked around and couldn't find me. He tells the people, "we are there to get vegetables and Tony is there to bring the kingdom. We found him stopped ministering to an old man that was in pain and walking with a cane and the man was now very happy! This is the man of God that is now going to speak to us!" So, he turned over to me and Fredrick and I began to encourage and exhort the people to prepare them for what God was going to do.

We are on a large raised platform. There is a huge pulpit across the front on maybe 30 feet long. I normally like to go down with the people, but there were people to left, people to the right and a lot of people straight ahead. Not to mention all the Elders, Deacons, Leaders sitting behind me. So, I just stood up front, Holy Spirit, Fredrick and I and we let her rip. I am thinking it was going to take a long time to pray for this many people, so we moved into demonstration after like a ½ hour exhortation on the Word. I asked Fredrick, "do you have a word of knowledge that is very specific?" He said, "Oh yes. It is for someone that has pain in their head and it feels like someone is driving a large nail into their head with a hammer!" I thought, well, that can't be very many people. Surely! Here they come, one, two, ten, twenty people come to the upper platform. I asked "do all you have that kind of pain right now?" Yes, they all said. Many of them had the look on their faces that comes when someone is in extreme pain.

So, we take a man to begin, explaining to the thousands watching what we are going to do. He is INSTANTLY healed. When then have him pray for the next lady

for all to see. She is INSTANTLY healed. Oh man, the atmosphere was charged! We go to the next one and **HERE WE GO:** We begin to pray, she hollers out a scream and hits the deck. So, now I call our team up to start praying, remember we have 20 people up here with nail pounding pain. They start praying and BAM, one after another beginning to wail and going into a spin or down to the ground. Remember, thousands of people watching this. I start talking to some of them, they tell me "I have demons!" Of course, and they are not born again. So, taking a few moments with each one, get them born again and free AND of course, now pain free. Had them tell the people what happened. **Yolanda, we have an Invasion of Heaven going on right now!** I told Fredrick, "Ok my friend, it's time, take the microphone and give an invitation for salvation." He did, and it looked like about 300 people came, including some out of the Elders & Deacons group behind us! I now went down on the floor to Bless and Pray over those newly saved, then we invited all the sick to come. We also asked all those that were in training to come and pray. We did get to teach this group of Leaders the basics of deliverance prayer, Hallelujah! It looked like a huge wave coming at us, with all these people coming for prayer. But we had a prayer team of about a 100 people! It only took like 30 or 40 minutes and all had received miracles, thousands. Amazing, isn't it.

Now, let me tell you this. The last two people I had to pray for had poor vision. I prayed a few times and saw Nothing happen, so I turned them over to the locals praying. Wouldn't you know it, but when all were prayed for and now sitting down, they had brought one TOTALLY BLIND man (we're talking pitch black vision) up to the platform. And with everyone watching at the climax of this service, they ask me to come up and pray for this guy, as others had prayed and not seen any movement. So, I go up there, had to walk around the bodies laying all over the floor resting in their new healing and deliverance. The devil of course comes and tells me, "you see, the last two people with eye problems you could not get them healed. Now you are going to be humiliated in front of all these people as this man's eyes will not open up either!" I said, "devil, if this was about me, you would be right, but this is All About Jesus and He has already healed this man. Watch this devil!" I stood in front of this man and just said (internally) "Holy Spirit" and this is what happened to me. I went into an open vision and saw the inside of his eyes as the Anointing touched him and I saw LIGHT released from the inside in him. I then

stood back and raised my hand and said can you see my hand. A big smile came over this man's face and he said "I see you, white man!" An Amazing end to an Amazing service. Did I tell you that Our God is Absolutely Totally Amazing? Yes, He is Amazingly Good! Yes, Jesus is still going about doing good to All who are oppressed by the devil!

Then when I thought we were done, a lot of people started bringing up pieces of cloths and setting them on this massive pulpit. I said "what are they doing?" I was told they all have infirmed family at home that cannot come to church. They want you to pray for these cloths so they can lay on their sick family. I thought, well, the Bible says it was cloths that came from the body of Paul, and as I wasn't too keen on taking my shirt off and cutting it up, I knew God would do something, so I put my hands on the cloths and prayed and away they went!

During the final Protocol, the Senior Pastor got up, looked at me and said some things. Since I still had my recorder on, I am going to write down what he said: "When we met, I started learning there was something special here. God has imparted to you humility, greatness and power in His Kingdom. You come from a rich place like America, you did not choose to go to the cities where you could be more comfortable, but you decided to come here. Hallelujah! Bless God! We know your coming is of God! What you did here was as the Lord Jesus Himself did, and the Apostle Paul did while they were on earth. Jesus loves all the poor, all the weak, they were his friends. I am not just speaking words, this is coming from the depth of my being right now, where I have been touched. I have this Scripture for you, Matthew 14.14 "And when Jesus went out He saw a great multitude; and He was moved with compassion for them, and healed their sick." This you did and taught us. When you go back home, send our greetings to your family and church there, let the people know what God has done! We believe this is just the beginning of our relationship and it will grow and grow in the Lord! We welcome you again and again. You have sisters and brothers here, you have family here! We will be praying for your ministry. God bless you!"
