

Mission to Tabora, Tanzania March 2018

God Bless everyone praying for this mission! Another Amazing invasion of Heaven during these days! Believers trained & equipped to do the work of the ministry, new brothers and sisters brought into the family of God, hundreds of miracles of Healing and Deliverance and so much more....

I begin at the last session after a week of teachings, crusades, outreaches and Holy Spirit ministry. There were a couple hundred men, woman and children at this last meeting. There were many more in attendance during the Friday – Sunday meetings. But this last meeting was during a week day when children were to be in school and men and woman working. BUT, these people took off work and even the parents of the children said these meetings were more important than school. As we were exhorting them to trust and depend upon and be filled with (under the influence of) Holy Spirit we ended with those rising up from their seats and declaring themselves Chosen, presenting their lives, body parts, souls fully to the Lord to GO FOR HIM! I was amazed, especially at the little ones, that fully understood what they were doing as they yielded their members in this turning point in their lives! I was really moved seeing the sincerity and faith of everyone! They then all danced and sang for us giving thanks for the team. They then mobbed us for a last opportunity to wrap their arms around each of us releasing Love and personally blessing and thanking each of the team members for our ministry of love to them! I was too choked to talk, being overwhelmed with the transformation I had seen in their lives during this week. From there we begin our very, very long trip back to our homes in Kenya and America. For the American team, it will be 4 days of travel before we hit American soil!

Now I will give you a mixture of events that I witnessed with my own eyes, not in chronological order but as Holy Spirit brings back to my remembrance.

The next day after the training had finished we gathered together with those that wanted to go out to the community for Holy Spirit ministry. We ended up with 12 teams with a total of 120 people. Do you Bible students see any significance with those numbers? With teams ranging in size, we went out in different directions to go house to house bringing the Kingdom of Heaven with us. I was surprised at the number of households that we went to that were Muslim. My team was made up of 12 teenage girls. No, I mean teenage women of God! Wow, not much

instruction needed before they took over leadership of the mission and went for it with such Authority that you would think they had been doing this for many years. We saw salvation in all It's forms from the people becoming born again to healed of sickness to being set free from demonic torment! Many people had lots of chickens running around inside their homes. In one house I mentioned to the Owner Lady, "oh my, you have lots of Coo-coo's!" And she took my hand and brought me out to a separate courtyard inside their home that had what looked like about a hundred chickens and roosters running around and she pointed and said "coo-coo's!" It was like she was saying "Oh, you want to see coo-coo's do you, well take a look at this!" In American culture a courtyard would not be a huge chicken coup!

In one of the homes, they were already born-again Christians and the Husband happened to be home from work because his wife was very ill, to take care of her. He said that his wife was pregnant and the baby died in her womb awhile ago and she has been having tormenting pain every day since, totally unable to do anything productive for herself or the family. And he asked for prayer that he might be able to get back to work so that he could buy food for his son to eat who was malnourished. We asked for the mama to come out into the living room so we could pray. Daddy brought her out and she could hardly walk and in obvious pain. She said her abdomen was really torn up and there was intense pain in her arms and shoulders. I started the girls out in the prayer of command and after a couple of minutes, mamma went from her sitting position to flat out on the floor. As they ministered LIFE to this woman, demons of sickness and infirmity began to manifest so I instructed the girls in the simple, calm, manner of casting the demons out yet reaffirming mamma that she is Loved and not to be afraid of the manifestations as it is simply the demons coming out. The girls all took their hands of the woman and began to bless what Holy Spirit was doing. After a few minutes of rolling around the floor, suddenly, mamma just stopped and became very still and you could see the Peace of God come over her. She was able to now sit up and the girls commanded all the remaining pain in her body to leave until mamma was completely free and now with strength able to stand and walk, very, very happy! We blessed the entire family and the home and property. When we left, the young boy was able to eat, the father able to go back to work and supernatural provision for food for the family was provided! OK, now we are

talking, this is The Kingdom of Heaven and it just invaded this Christian home! The girls said they could do this all day long! Go get em young women of God!!! That was just one example of what we and All the other teams saw during our outreach.

I love it when I can hear testimonies of what God has done AFTER our mission. Well, when we arrived here, some of the pastors from the previous two missions to Tanzania came to me to tell me some of those awesome testimonies. Here are few:

- Youth Pastor from our first mission to Arusha said that as a result of our ministry training to him he has worked to train the children to do the same things. He gave testimony of children going to their homes and getting their parents born again! Testimonies of children laying hands on the sick and seeing miraculous recoveries. Testimonies of children now having no fear of demons but cast them out of people and homes! There it is, the next generation being trained to carry on what we are doing only I believe in a much greater scope and intensity then even what we are seeing now!
- Pastors from the Refugee Camp, in mission #2 to Tanzania. They told of how our going to the Christian school and prophetically releasing blessings and praying for the children and the school has brought tremendous change. The school was about to go under from lack of students and finances. When we were there, enrollment was at 98 students. We were told that the Heavenly invasion started immediately after we left with the current enrollment now at 254 students and growing, in less than a year! Finances are now to where they can pay the bills including paying the teachers who were working without pay. We were told the Students are now praying with Authority and seeing God moving powerfully in the school, in their homes, families and community. I was told they have never seen such Holy Spirit Power amongst the students before. Apparently non-Christian families sending their children to government schools are hearing about the blessings coming to the families of the students in this school and pulling their children out of public school and enrolling them in this GOD School! As a result of that non-Christian families are getting born again!
- Also, from the Pastors of the Refugee camp come this testimony: From our teaching, ministry, impartation, release of healing and deliverance to

thousands of people while we were there, they tell us of the many continual baptisms that have been occurring. They said many, many salvations came from the “Church People” even from some of those that were “Leaders” in the churches from our ministry to them. They said the testimonies continued on and on about how the people were healed, delivered and saved while we were there. These people kept coming forth and bearing testimony of what God did for them and as a result of their testimonies EVEN MORE people were set free, saved and baptized! They told us on the need for our team to come back at least one more time for more training for the thousands of people that didn’t get it the last time!

OK, so the second day we are there, it is easy to wonder what is happening behind the natural scene when we come, because we know there is a release of the Kingdom of Heaven, but there is much we do not see with our natural eyes. Some of the pastors come to me on the second day to give me this testimony: There was a practicing Witch living right next to the church where we were holding the conference. After the team had left to go to get some rest after the long first day of ministry with training, prayer and crusade, this person practicing as a “witch” came over to the church carrying all the “witch type utensils used in performing curses, hexes, incantations, etc.” and said to the church leaders “I have been here a long time, effectively limiting the effect of this church thru what I do, but something has happened to me today. Suddenly I realized that what I was doing was wrong. I was listening to the teaching from the speakers and realized that it is this Jesus that I need, that He is the REAL Power and that I had been deceived!” He said “I have come to bring all the books and instruments to be burned and I want to have Jesus in my life now!” OK, now we are talking. The articles were burned and this dear person who Jesus loved, received salvation and is now in the Church!

On the Sunday we were here on this mission, the team went separately to different churches to minister. From the testimonies of what happened, it was a God invasion at each church and “A Good Time Was Had by All!” The other team members will tell of their time in Glory! For me, I was joined by Dawnmarie to minister in the church where the conference is being held. As we taught them again of what is available to them in Christ, you could literally see and feel the excitement in the air. When we had the sick come forward we also asked for

those that had been in the conference that wanted to do the praying to come forward also. I just love this! We had about 15 people to start with that said they needed healing and about 15 more that said they wanted to do the praying! This is more than what we normally see want to do the praying. As we started and the miracles of all sorts started happening, more people kept getting up out of their seats and coming to both get healed and to pray and some, at first, just to watch close up these miracles happen. It began with a woman that had her throat swollen and couldn't swallow. Woah, the amazement that came over her face as her throat opened up! Now she wanted more by getting in on some of the praying! It was Awesome, but when the children came for prayer, all getting healed and THEN the children started doing the praying, My God, the amazement on their faces, in shock really, of what was happening thru their hands! We're talking even bad eyes being opened up to see clearly, THRU THE HANDS OF THE CHILDREN!

Three men came up to me before one of the teaching sessions. There was a fourth man that they brought and this is the testimony of what they told us about this man they brought:

- He was seriously demonized and I was reminded of the Gadarenes Démoniac that Jesus set free in the Bible. They said he was out of his mind and that witches stole his personhood, somehow. They said they had cleaned him up and put new clothes on him. That they found him with finger nails a few inches long, his hair down to his shoulders, gnarled and knotted, his body filthy and stinking bad. They said that during the day he did not know where he was staying and just wandered around. At night he was able to remember where he was staying and could find his way back to the house where he would sleep. They said it was an old ladies house who spent every evening in the cemetery. But they did not know what she did there. He said that he slept on the back of an old man that was laying on the floor. He said that his job was to sweep the floors and the old man would yell at him because he ran the broom over the old man's back. This demonized man could only speak a few words and could not eat well or hold any food down. They asked if we could PLEASE help this Démoniac man. We took him into the church building where there were just some intercessors praying. Holy Spirit led with one of our team members leading him in receiving Jesus Christ and he became born again. Well, that was

what was need for the deliverance to happen. As we in turn spoke to him words of truth and explained how we were going to remove the demons in Jesus Name, we watched as Holy Spirit took over.

- The Power of God came upon him and he fell FORWARD as we gently laid him on the floor. His arms were spread out like a cross. His arms began to manifest the actions of a snake with his hands looking like fangs attempting to bite. We blessed what God was doing and declared an end to rule of the demons in his life.
- As I had my arms around him as he was going down to the floor, it was like a rush of “spiritual demonic beings” flooding out of him. I sensed them going out and past me. I know there were many and that Holy Spirit started and would finish the eviction!
- When the Peace of God was evidently upon him we asked him to speak to tell us what happened. He was now speaking clearly. He said there was a Heavy Weight feeling like it was wrapped around his spine, that just lifted off! He said that his tongue was also “heavy” and seemed to be almost frozen before, which made it hard for him to speak, but that now his tongue was Free and he could freely talk! He told us that he was free.
- We blessed God for what He had done and instructed this young man in how to stay free.
- The next day he came back to the meeting totally IN HIS RIGHT MIND and was so thankful to God. We had him sit with the team to reaffirm him! All Glory to God!

Here is what happened in one of the Evening Crusades: Now the normal way they did crusades here was for someone to give a rather long message addressed to Christians, then give a salvation call, and do a mass prayer. Holy Spirit wanted to show them how He had trained us to do this in most African nations. Fredrick and I stepped up on the platform knowing that what we are going after is the lost and Christians that have fallen away from their walk with the Lord. So, I gave a very short exhortation on what Jesus wanted to do to reveal Himself to the people and then Fredrick and I gave just 3 words of knowledge so that Holy Spirit could clearly demonstrate. I gave a word for people that have heart pain and palpitations and were afraid of what was happening to them. Fredrick gave a word for people that have large tumors on their body and a problem with their

spine. About ½ a dozen people came up while all the people of the village watched on. First two people with heart problems were Instantly healed and they knew it and with bubbling excitement told the people what God had just done for them. The next man had a tumor in his abdomen that just “Disappeared” and that lit the crowd up. Then a Muslim woman that had serious heart issues and apparently feared for her life. Well, in a few seconds the Shalom Peace of Jesus was what was left after God touched her and removed all the issues! By the way, this lady also received Salvation as she encountered the REAL God and had no problem letting everyone know that. And my favorite was a young man, maybe 12 or 13 years old that had a baseball size lump on his lower abdomen. He felt it disappear, then proceeded to put his hand in his pants against the spot where the tumor was and I only wish I could have gotten a picture of this young mans face. He lit up like a Christmas tree and his eyes literally opened up to double their size and his mouth was just left hanging wide open! When he took the microphone and gave testimony, it was like a shock wave went thru the atmosphere! That was enough, now it was time to bring those that have faith in Christ for Who He is and what He had done, to salvation. And that is what happened. From there we invited all those that remained with sickness and in need of prayer to be healed and set free to come forward. Many people flooded the ground. It was not only our team that prayed, but many pastors that had been in the training also. The miracles were fast and in 15 minutes we were done.

I turned around to look at the raised platform (as I was down on the ground now praying with all the others) and the platform was full off healed people waiting to give testimony. When they all had done that, then the platform was full of children that wanted to do the same!

We have been walking in the Glory of God these days and I am so thankful to be a witness to Jesus Christ revealing Himself and His Kingdom to so many people! During some of the teaching sessions, I was out amongst the people and saw Holy Spirit come upon people and they would cry. Later gave testimony of how God came upon them in their seats during the teaching and healed them or set them free! Did I say, while they were in their seats? Yes, no hands laid, no prayer from us, just the Glory of God! Thank You, Thank You, Thank You Lord!

There is so much that I could report on this mission but I choose to end with just two more testimonies: As the team was walking away from the conference ground to go across the road to the home where they were preparing our meals, a man ran up to me and said there is someone that has just come waiting to get prayer, "I will go get her" It was an older woman and her son (who is married and has a family). She said that she had a tumor that needed surgery and was concerning her very much. We prayed and it disappeared instantly! Then she told us of the difficulty she had walking because there was something broken in her heel and she had to carefully walk on the ball of her one foot. This also she was told would require surgery to fix. After a quick prayer, she took off walking normally, even did a little jog! All with a huge smile on her face. All the fear that she had was gone. He son said "I was preparing to sell everything that I have, my possessions, my house, everything, to pay for the medical bills that it will require to have all these things repaired for my mother. Today, God has shown me that He has made me rich by SAVING me from having to sell all that I have. I am SO GRATEFUL!" We don't often think about the time and expense of going the medical route that God saves us from when His Healing is released. May Gratefulness erupt within the lives of so many that have been SAVED!

OK, last one: A young lady came up for prayer at the end of one of the meetings and began to manifest during prayer. Her left side, especially her leg began to vibrate and bend in and out UNCONTROLLABLY. It was scaring her. Our team prevented some of the home town folks from carrying this girl off to another place so they could wrestle her. Our team took the girl aside to be with the rest of the team isolated from all other people for ministry.

Now, this girl was scared. We told her what Jesus was going to do and the demons were going to leave and she would be restored. First thing we did was to remove the demons, gently to her but with full Authority in Name of Jesus as far as the departing demons were concerned. They put a bit of a fight as they were being pushed out by increasing the shaking in her leg. We worked together with Holy Spirit releasing His Peace until the only manifestation was His Peace all over her body and saturating her soul! We then instructed this girl in how to deal with any of these things should it ever happen again.

After leaving the Tabora area, we received a call from them saying that the rains have come back heavy after we left and that is another confirmation of our being sent by God! We came to minister at the height of their rainy season and all rain stopped the day before we got there and it did not rain one day during the entire mission but only returned the day after we left. The rain would have made ministry hard. But with God! But with God! Hallelujah!

To All who are reading this: Anybody up for a God Adventure? It's all prepared and waiting for you.....
