

13<sup>th</sup> November 2014

**Tony,**

Thanks to all that are praying.

As I stepped off the plane and my feet set down on Ugandan soil, the first thing out of my mouth was “Devil, we are here!” There was just a strong confidence that again we would be undoing his work and bringing life to the people here. As we arrived in the Uganda airport we were met with masked nurses to question us and check us for a fever. You could feel the fear from this ebola thing. We just blessed our way thru, praise God!

Few hours sleep and off on the long journey to this bush area of Uganda. We arrived and the people were all praising God. As it turns out, there are all different denominations represented here, but it seemed that the Baptist representation was the greatest. They said we are going to eat now and then you will have 30 minutes and then we go to the crusade! I told them we will see what Holy Spirit will do! Needless to say, He had slightly different plans.

Here are some of the testimonies of folks I personally prayed for today:

I asked who could interpret for me, a lady pastor came. After we prayed for the first lady, the lady that was healed said “I would really like to be able to do this!” OK, no better time than now! Much to their surprise, I got both of these ladies doing the praying. Intense training. I love this stuff! You should have seen their excitement!

So, let me tell you about the first lady we prayed for that ended up praying with us. She had been battling for years with stomach growths and cancer and heart problems. She said “what is going to happen?” I said, “The Holy Spirit will come upon you and kill this sickness!” When we prayed she said “my God, all the pain is gone!, but something is moving around in my back. I explained that was a spirit and showed her how to boot it out and she did. Instantly it left. Then she said “I am trembling all over, what is that?” I said it is not a what, but the Presence of

Holy Spirit healing you!” Man oh Man, she was a happy camper. That’s when she said she would like to do this and I helped her into seeing the first miracle happen thru her own hands! I think she was even more excited seeing the miracle power of God flow thru her hands than she was getting her own healing!

Next lady had a crippling in her hands and wrists. Perhaps it was arthritis or something like that. She also had surgery on her knee a year ago and it went bad and she had been living with a worse condition and worse pain in knee than even before the surgery. The women prayed and BAM, Instant healing. I think she was going to crack her face with the huge smile. She wiggled her fingers and twisted her wrists around proving her new healing. Then she started jumping up and down to prove the healing of her knee! Glory to God!

Next lady had arthritis and said that she could not lay her head down to sleep without pains coming in her head. During the day there was like a dull pain there. Well, one lady prayed for the head and demonic activity there keeping her from sleeping and the other prayed for the arthritis. They just did sooooo good. Confident prayers of command, short and to the point! BAM, this lady who was hurting just moments ago is just flipping out now with excitement in her healing! I looked at the women doing the praying and said “This is really easy isn’t it!” They were both like 2 children on Christmas morning when they got to open the presents!

Another lady came with heart problems for years. There was pressure and pain and shortness of breath for a long time. Just a few moments after prayer she was taking deep breaths and Praising God for her healing!

One more: A lady was epileptic and often it was so bad she would bite her tongue. It left her feeling lousy and always fearful of the next attack. We booted out that spirit and she said “It has left me and I am free!”

**CRUSADE:** We got there late and it was short due to weather. We are in the mountains and it gets cold when the sun goes down and especially if it rains. Casey gave a very short and very to the point message of Jesus. We got to pray for some people then the rain came.

Here are a couple of testimonies from what I saw:

But first, let me tell you about the lady that I had with me to do the praying tonight. There was a lady pastor that came from long distance for the conference. She came up to me after the first session before we went to the crusade. She said "I cannot be here tomorrow, you must teach me the rest of what you will teach the others...all that you said you were going to teach and impart tomorrow and then I will teach others to do the same!" I said, when do I do that? She said right now before the crusade, you teach me in praying for the people at the crusade, then you teach me after the crusade!" I said, that will take all night. She said "OK, that will be fine!" Her hunger and passion was so great.

OK, couple of testimonies:

A mother brought her child smitten with malaria. I am familiar with this disease and the child had all the symptoms. After prayer all malaria symptoms were gone and we had one happy mother!

A lady said she was having very bad dreams and she was very very weak, with no strength to do anything. After the prayer, the demonic oppression lifted off her and instantly she felt strength surging thru her body! What all the doctors and counselors couldn't do, God did for this lady in less than one minute!!!

### **Fredrick and Emily**

It was a great joy to meet Tony and Casey after a long wait at Entebbe airport Uganda, as always meeting these servants of God gives me great joy because of the impact caused into my spiritual that has greatly affected my ministry positively.

We boarded a taxi for one and half hours to Kampala city to our hotel at St. John Guest House at Bugolobi at the outskirts of Kampala.

The following day our journey began from the hotel to the taxi park boarded one to Bugiri after 5 and ½ hours we arrived. Pastor James Otieno was waiting for us with his team very happy to receive us. It's the third mission for LFJ to minister in this country.

We arrived at the conference venue and found people waiting, after late lunch we moved to the tents that are usually used for Sunday service by Pastor Otieno James, join in praise/worship, thereafter the meeting was turned to us, I was invited to introduce the guests, but due to time that was gone, I could not but usher in Pastor Tony to minister the word to the congregation. He talked about having faith in Jesus Christ. Later he allowed the Words of knowledge through the Holy Spirit to take over. Many people came forward in response to the word of knowledge they received.

A woman with a severe headache, and her whole body was aching when I laid my hand got her instant healing, a young woman with one ear deaf I prayed for her but she could not receive her hearing back, inside me how I really I desire that she could receive her miracle.

A young man backache and both of his legs could not stretch got his miracle by following my instructions to bend and stretch his legs as he thanked God.

Emily prayed for an elderly lady with stomach ache and backache she got her healing there and there. .

### **Pastor James,**

I saw my sister who was suffering from stomach ache for more than 9 months and I told her to come to this conference to be prayed for. When she came, after she was prayed for, the pain totally went off. And my sister was very, very happy for that.

Then my neighbor when I went to meet her in the morning, she said she was suffering with pain in her right hand. BUT, immediately when she got prayer, the pain went off and she is doing well. She is doing well.

I am so excited of what God is doing thru this team! Many pastors are testifying about this teaching. It was very powerful and they said they will now be ministering in their churches differently, because they have been having a problem on the side of praying for people. In order to get the miracles thru the

teaching they are appreciating. They are saying that the team should come back to train them more and more!

Another lady was a counselor in the district, that lady was having a problem in her leg. It was paining her bad. Then after prayer the pain went off
