

Monday, November 17th**Tony:**

We began the day with our usual breakfast of African Tea, Bread, Bananas and Fresh Eggs. From there we went to bless the “mum” (and her house) of the lady that is allowing us to stay in her home during the first part of this mission. I am totally humbled at the way we are being received and blessed in these bush villages. This lady brought me to tears thanking God for our coming to her village as “No Missionaries” ever come here, she said. She said she felt like Zacheus when Jesus came to his home. We prayed and released a blessing. (We have been doing that in many places so far on this mission- it is absolutely wonderful to experience!) She said “I have a blessing for you” and brought out a live chicken and handed it over to me. As soon as I grabbed that chicken he knew he was going to be supper!

We arrived at the conference site 2 hours after the scheduled start time in the morning, but as always, we were right on God’s time. There were many more bush pastors here this morning as some had to travel far and could not make it for the Saturday first meeting. We even had a “bishop” from Kenya, near the border to Uganda with us from the crusade last night and thru the conference today. In these parts a “bishop” is someone that is superintending over many churches. This man of God has many bush churches in Kenya that he has started. Near the end of the session he stood to say that he came to the crusade last night to watch to see the ministry to see if we were truly sent by God. He said “I have never seen such ministry. It is truly the same ministry of Jesus! I saw the miracles, I saw the deliverances, I interviewed those claiming to have received a miracle and found it all to be true! Today, I find the teaching to be a simple gospel that is for all believers and will truly bring Heaven to Earth should we step into these truths!” That was certainly encouraging to us of *Living for Jesus International*. Other pastors equally testified! It was all teaching and impartation today so no miracle healings to report for the morning but I can tell you, again everyone was

completely glued to every word coming out of my mouth and I could literally see it going into their spirits. I am humbled by what God is doing in this place!

There is a lot we don't tell you that happens on these trips between the lines. There is lots of laughing, lots of crying, lots of jaw dropping moments as we see lives impacted and affected by His Glorious Presence. Here's one: When we thought all the praying was done, they brought a little girl, maybe 5 years old to us, she was crying saying, "I have so much pain in my stomach, please help me, it hurts so much!" I felt the compassion of Christ just bust loose in my heart and I started crying as I prayed and commanded that pain to leave. Oh my God, I didn't have a camera to show anyone, but to watch the look of amazement on this little girl's face as all pain left her and she said I am ok, I thank Jesus for helping me! I hate the works of the devil and I will spend my life for others to see those oppressed by the devil set free!

Here are some of the testimonies of what I saw while praying with one of the pastors after we gave words of knowledge.

- A man that has been struggling with eye problems for long time. Instantly healed!
- A woman that had a bad right hip joint. We prayed and she said it was better, but when she tried to turn sideways, it was excruciating pain. We prayed again and turned her loose. Well, this lady would be great with a hula hoop. You should have seen her go. She was very happy to receive this healing miracle!
- Next lady said she had a bad knee and could not walk without pain. BAM, instant healing of her knee and she was kicking away. We thought we were done and she said, wait a minute, I also have poor sight and see very poorly. So, we laid hands on her eyes and again BAM, 30 seconds, we told her to look around and check it out. She squinted and had that look of total amazement on her face we are coming to love. Then she said "I can see clearly, I can see clearly, Praise God!"
- Next lady had continual pain in her eyes and a "bad back" that provided her with daily pain as she attempted to do her chores. Again it was instant BAM

and both eyes and back totally restored as she did a couple of deep knee bends to prove what had been done for her!

- Next two women both were carrying babies side arm, one said she had back and knee pain and was Instantly healed. The other said there are many people in her life that are rejecting her and she feels rejected all the time. Plus she had some serious back pains. She was a Believer. We led her thru deliverance and as that spirit of rejection left her she started flipping out (in a good way). That spirit put a tiny fight up on his way out, but had no choice but to leave! Oh yeah, when the spirit left, the back problem left also! ALL Glory to God!
- Then we had a run of about 20 children with problems ranging from headaches to itchy skin to all sorts of bangs, bruises and internal pains. Every one instantly healed. The pastor with me said, I will show the church just how easy and how much fun this really is!
- Next we got a real old lady, she said her vision was very, very bad. We prayed, she opened her eyes, looked around and said "Now I can see, Thank You Jesus!" Then she smiled at us and looked so beautiful with her 3 teeth! I just love this! God You are so good!

Casey:

It is hard to believe that today is our last day and night in this village. I just learned how to find my way back to our guest house and now we are leaving. I guess that's the way it goes, but I am excited to see what God has for us next. We will be heading next to another village about 3 hour drive farther away to begin another 2 day conference and crusades.

Today at the conference the teaching was on deliverance and they really got it today, I mean they really got it. It is always good to see the teaching so well received. Like normal we did our practical demonstrations on deliverance. They loved that too, it takes the fear out of them when they see just how easy it really is and they can do this themselves. That's just what we had them do next, help each other get set free. It was good to see everybody participate in this exercise. After that we ended up going into a session of questions and answers. This went on for a long time, but the understanding they received was well worth it.

Now it was midafternoon and it was time for lunch. We ate in the pastor's mud hut again and they served us chicken, beef, rice, pasta, eggs and hot peppers. I have become known as the tuff one because I have been eating the hot peppers whole. Well, at least three with each egg. What can I say, I like hot peppers. All of the meals have been awesome on this, trip praise God.

For the last crusade we had them change up the order of things so we could pray for the sick earlier. We felt God wanted to touch them and we also knew that's why all the people came tonight, to be touched by God. Tony had us do a skit tonight on a lost person being controlled by the devil and then calling out to Jesus for help and salvation. I was Jesus, well I got the part because I had the longest hair lol. This skit was a hit and the message was powerful and at least a couple hundred came to Jesus tonight. Mission accomplished. We then released words of knowledge and began to pray for them. We didn't get to pray for a bunch of people though. I think the whole village must be healed. Yeah God! I did get to pray for a few people though. The first guy I prayed for was having back pain and very poor vision and itching in his eyes. I just started to pray and he said "ahhh the pain is gone." I didn't even finish the prayer and his back was all healed. So I started to pray for his eyes and again he stopped me and said "I can now see, I can now see and the itching is all gone." Wow was that fast and all the rest of the healing came just that fast tonight. I love instantly evenings. After that I got one of the local pastors to help me, but what he didn't know was he was going to do all the praying. Can you say "set up," but they need to start some time and that time is now. He was a bit unsure at first, but after the first miracle through his hands he saw how easy this is and that he has the anointing as well. So as he prayed I saw leg pain go, stomach pain go, bad back pain instantly healed and so on. He was having a blast. Somehow I ended up in the children's section again but I'm not complaining. I love loving on all the little children. When were finished praying they cranked up the praise music real loud and talk about an awesome praise party they were having. This village will never be the same. Thank you for praying for us, blessings.

Later :-)

FREDRICK AND EMILY

Venue: Bukonde Church of Pastor Patrick Otwane.

The leaders' conference was unique, well attended and today the Holy Spirit gave Pastor Tony a different approach with delivery of the Word through the book of II Cor. 5:17 he explained the process and the result of a person who has become a new creation in Christ looks like and what the ordinary man looks like. For Apostle Paul says in Roman 12:1-2, that those who are Christ should sacrifice their bodies as a living sacrifice, and acceptable to God as a worship service.

During the whole session of teaching people received the message with open minds and hearts, later he allowed questions from the audience, some had questions concerning anointing oil, people forced to be slain by pushing etc., while some gave comments on how they were touched with teachings and also felt so sorry that they have believed lies all along for all these times. Tony answered all questions satisfactorily to the congregation.

KAFUFU CRUSADE

Pastor Tony asked us to do a skit, I Fredrick was a confused drunkard, Pastor Otieno was the devil that made the drunkard into the works of darkness, while Casey was Jesus who never got tired kept on begging the drunkard and confused man to come to him for salvation lastly the drunkard saw Jesus see Jesus through the preacher's message Pastor Tony and he was received by Jesus who hugged him and loved him regardless of his condition.

Ministry through the Word of Knowledge:

Through the Word of Knowledge, the response was overwhelming Emily and I prayed for the following persons:

1. A woman by the name Tekla Nangira came to us trembling the whole body, feeling pain everywhere on her body she has been in this condition for about a month, she has received medical treatments but not responding to the drugs, she confessed that she had chronic malaria and Typhoid, her body was too warm, she was not borne again, but we prayed for her, instantly the body temperature rescinded to normal and her condition changed immediately, she brightened up on her face, we thought we were dreaming it was too fast. Then I summoned one of the pastors to lead her to Christ as personal savior.

Thereafter she proceeded to the Testimony area where she gave her testimony and everyone knew her well and her testimony made a big impact to many that made many to believe our message.

2. Two women with similar condition, semi-paralyzed in both fingers came over for prayer, in my heart I felt that should the first one be healed then the next one will also be healed under the same anointing since they had the same, after short prayer the first one instantly got healed she jumped up with loud shout in praise of the Lord Jesus who had done this to her, while she was praising we got hold of the fingers of the 2nd one instantly also received her healing. At the testimony platform they said we can't believe this it is like a joke what kind of prayer is this we thought that we could be made to go through many rituals, just speaking few words and someone is healed?
3. A young woman with backache came over for prayer, she also had a high fever after prayer she testified her healing with a lot of joy.
4. A young woman with chronic coughing condition got healed instantly we saw a big smile on her face and then she asked us to pray for her husband who cannot keep an employment every time he is paid salary he loses the job, we prayed for her husband again she said can you pray that we come out poverty in my family I can see your God is powerful to do anything, we said Yes He is.
5. A man with painful kidney on the right side, he could not bend, this has been so for a year for the first time he was able to bend because Jesus healed him instantly.
6. A young man with chest pain of two years was miraculously healed after prayer
7. A pregnant woman with severe pain in her back and abdomen received her healing there and there.
8. Pastor Robert Sitati, one of the Pastors who attended the conference came to me where I was seated asking for prayer, he had pain in the waist, and every time he goes for long call he passes blood with a lot of pain, and this condition has been with him for the last 6 years, when I laid hands on him, he immediately got his healing and deliverance, he was one of those pastors who felt that the devil must be shouted at.

9. A woman who could not speak Lugganda language nor Kiswahili, she only knew her language, through an interpreter she explained her sickness that there is something on her backbone that is moving up and down like a snake inside she asked to touch and feel it, when it moves it causes much pain for some years now, she has travelled in search of medical solutions in vain, when I laid my hand on her back, I couldn't feel the so called snake moving. I asked her if she was a believer so that she can be healed, she said yes, then I prayed a short prayer and instantly, she told me that she felt as if some breeze was blowing towards her and the pain had disappeared.
10. The host pastor at Kafufu, came to where I was seated that asked me if I could listen to his testimony, I allowed him and the testimony he was trying to give me was all about negative stories how he has suffered, prayed and visited doctors over some pains on his back with not healing, I stopped him and told him that what he needed to do is accept that Jesus can heal him, then I pray with him. He allowed me to pray for him and immediately he felt unusual peace as pain lifted away. He became so happy and ran home to bring his wife, who has suffered so much in her stomach she was also saying that something like a snake moves in her abdomen, and the Doctors have not been able to detect, and every time she pregnant it becomes worse, as she stood in front of me, she was feeling some pains, when I laid my hand on her in prayer, she received her miracle for the first time and thank God for the healing.

Emily was approached by some people after waiting for Tony pray for them yet he was busy praying for the children with other pastors, a woman with a throat pain and backache got healed after prayer.

Another girl who had a condition that causes her hand to be paralyzed was prayed for and got healed.
