

LIVING FOR JESUS INTERNATIONAL
UGANDA MISSION DECEMBER 8TH TO 12TH 2018

DAY 1

Emily and I left Bungoma very early the morning around 4:00am we woke up prepared and left so that we may in Bugiri by 9:00am so that we may be on time in Kimbale villages for the Conference, we thank God we did not have hindrances at the boarder point with both Immigration and Customs officials our papers went through very quickly.

When we arrived in Bugiri Fredrick Ongango was waiting, we just checked into our hotel room and leave.

We arrived in the villages of Kimbale few minutes before noon, on the arrival praise and worship was going on immediately thereafter there was no introductions, Fred Ongango was invited to the pulpit to usher me on the stage.

The church belongs to Good News Church the Senior Pastor is John Jackson Wandera in Kimbale Village.

What I experienced when I stood up there was a heavy presence of the Lord and tangible there was no struggle looking for words to speak.

My message was on the power of the gospel of Jesus Christ and His Supernatural grace. I explained to the audience why do God want man to be born again and reason why our father God is interested in us that he sent His son Jesus Christ to restore us back to Himself.

And in John 3:3: "Unless one is born again he cannot see the kingdom of God." In other words, being born again is infinitely serious issue quite different from being a member of a particular church. It's through the gospel (Good news) through His grace that man can respond and be part of God's family. We will not see the kingdom of God unless we are born again. So today the question is "Why?" Why is it so necessary? ... The Holy Spirit allowed His word to flow freely and everyone was attentive up to the end of the first and second sessions.

Ministry Time:

Through the Word of knowledge many people came forward to be prayed for, after I had demonstrated the power of God for healing and deliverance many people came forward to be prayed for.

Two women had same problems they could not fold their fingers, I touched the fingers and commanded them stretch and immediately they stretched.

Many other cases were of chest pains, a woman who had lived with chest for 15 years received her healing instantly.

Emily: A girl of about 18 years old came crying I first thought that she was under God's presence later I realized that she was in a great pain, suffering from severe headache, tears were rolling down her cheeks, when I laid my hands on and commanded the headache to stop, she kept quiet and I saw her face shine, I couldn't understand I asked her what was happening she said that she was healed.

We had our lunch under the tree reserved respected leaders, however, most of the grass-thatched houses there are too tiny to accommodate more people.

Fredrick Ogara teaching with interpreter Fred.

Day 2.

Today I just continued with my previous message of the power of the Gospel of Jesus Christ, the attendance is bigger than yesterday, the church is filled to capacity some people are standing from outside, here we don't have PA system just manual, my voice is audible enough for everyone to hear, am comfortable am not complaining.

Being a Sunday service the service was prolonged beyond usual time no one complained, three people gave their lives to Jesus.

Day 4.

We went to Bugobi Village, the host is Pastor Martin Barasa of Oasis of healing Church, and he is also the Mayor of Bugobi Town Council, a very influential young man. We had a one-day seminar from 10:00am to 4pm roads to Bugobi are unpassable. We thank God that our truck is able to wed through.

I taught the same teachings I taught at Good News Church at Kimbale, and were so much excited they wanted us add more days.

Ministry time:

A partially crippled man on crutches he told me that he was feeling severe headache, when I laid hands on the head and prayed he said he's healed, then he asked me to pray for his chest I laid hands on the chest and asked him to breath in and out, I asked her how he felt he said he feels well, then he told me again to pray for his legs asked, how do you feel? He threw down the crutches he began to walk straight totally healed it was a drama.

Emily: A man well dressed middle aged, had a spin cord problem, when I laid hands on him the pain disappeared he began to walk straight, many women with abdominal pains were healed after prayers.

God did many good things that amazed many people. We expect a good number of students from Bugobi.

Sunday service at Good News Church Kimbale Village

Emily Prays for a woman with chest pain, she received her instant healing.

Good News Church Kimbale

Ministry time:

Because the time was not on our side, the leadership was asking us to go for lunch thereafter we proceeded to Crusade. At crusade ground praise and worship went on well as the crowd continued to build up, the clouds were just hanging but no one cared for the word had gone around on how the Lord was healed people in the church during the conference and because everyone knew that we have an open air meeting, they waited for the crusade message and ministry.

When time came, I was called upon to climb to the dais before I could climb up it began to pour heavily none stop it rained and continued to rain until it was dark still raining, we had no otherwise, but to drive back to Bugiri.

Day 3.

The conference began around 11:35am the distance from Bugiri to Kimbale is slightly over an hour. During the conference we allowed testimonies from the congregation, from the look of things and hearing from their testimonies there's a great need of the Word of God, because every one talked about the word of God, how they have been condemned by their leaders, some have gone back to their former religions, they have prayed and fasted with not tangible results. Most of them if not all said they need such teachings because it's quite different from what they've been hearing.

Ministry time:

Emily: Emily had told me that the Lord showed her a person who had difficulties during the long call the rectum also follows with stool. Before announcing about the problem I cautioned any body with problem should not come openly has to wait until other people different problems come forward, indeed it was one of the pastors who came quietly and narrated what he was going through, I prayed for him and immediately the Lord healed him.

A woman with many years backache came forward for healing she got her healing there and there. We saw many people delivered from demonic attacks and healed from various sickness.

Crusade:

The crusade ground began to receive people even before we arrived, waiting the Kimbale Primary School playground was full to capacity, whoever was taking videos and photos on my phone was an mature he left out many areas that were filled up with people. As the praises were going on we experienced light rains and later disappeared however, no one was ready to leave this time, they had told me that they will brave the rains no matter how heavy it might be.

When I came on the stage to preach the word of God, I sensed the same anointing that was in the church, I immediately knew that the Lord was present and ready to bless His children.

After delivering the Word of God I made an altar call over 200 people gave their lives to Jesus as their personal savior, among the people who surrendered their lives to Jesus a witch who had told people that he was responsible for the heavy downpour in order to stop the crusade.

When he reached the crusade ground he began to feel severe headache, I called him forward after laying hands on him immediately he became well.

A young woman of about 19-20 years old began to act insane beating up everyone, pastors and leaders began to wrestle with her, she seemed to over power them, I told them to leave her a lone while on the pulpit I commanded the devil in her to leave a lone, she fell down and she was carried to the dais.

Many people was healed including a woman who had lived with HIV/AIDs for over 20 years got healed, she knew that she was when she saw boils on her skin dry up instantly, permanent fever that she has experienced for years lifted at once and many other symptoms on her body disappeared.
