Outreach at VOA (Voice of America) Refuge Camp

Pastor Harris & Pastor Kettor:

People were very eager to see what could come of the outreach today. They were in high expectation which caused the Holy Spirit to move so powerfully, so rapidly, it was so quick. After the first healing occurred (blind eyes that were opened), 3 Muslim sisters were converted (even before the general call for salvation). They said, "we have seen the true Living God, we want Jesus!"

There were about 200 SALVATIONS today, mostly Muslim!

This is what we saw thru our hands, we are so thankful to God for this awesome privilege.

- I saw four blind women totally healed today.
- A man that was totally blind in both eyes was completely healed.
- A man suffered from stomach, waist and neck problems. He was healed INSTANTLY and was jubilating.
- A little girl was totally deaf and dumb and her ears were totally opened and she had just begun to make some sounds. Glory to God!
- Five persons healed from back problems.
- A lady had severe, sharp pains all the time for the last 10 years. She got INSTANT healing, praise God!
- A girl was healed form severe headache. We had her pray for herself and she was totally shocked that she was healed. What we are seeing is a real shock to both us and the people. Thank you Lord!

- Three people healed from heart and chest problems with pains and difficulty breathing.
- A man couldn't sit down on his bottom at all and had serious problems with his digestive system. He said that he has had this condition for the last 2 years and no medication could help him, until today, he was miraculously healed. To demonstrate what God had done, he went and sat down for all to see, bouncing on his bottom.
- A grandmother, with her grandchild, both of them suffering with Fever, were both healed INSTANTLY, and sweat began to pour out of them as the fever departed. They were rejoicing greatly!
- Three persons that were suffering with feet problems. One said that he couldn't bend his knee. Suddenly, he started bending his knee and jumping up and down. It was poof! And it just happened!
- Five children that all had stomach problems that were brought by their mothers. All were totally healed. All the healings today came fast, very rapidly!
- A lady had a problem with both breasts; she had been suffering for more than 7 months. She has also been sick in her stomach for the same time. After we prayed for her, she lifted up her hands and gave thanks for her right now healing.
- There was no chance for many to give testimony for what had happened to them because the people were so thick and the space under the roof was totally packed with people they couldn't get thru.
- A lady that had problem with her right leg and was not able to walk. During the war one of the Rebels beat her severely and damaged her leg beyond repair. She could never afford to go to doctor or hospital, but immediately after prayer, she was totally healed.

- There were five people with bad neck and spinal problems. They could not twist their necks at all. They all got healed INSTANTLY!
- An elderly lady had a very severe problem with her back and has to walk hunched over. She could not stand straight. After she was prayed for she was miraculously healed, all the pain left her body and she stood up straight and praised God!
- A lady had bad arthritis in her right hand. She couldn't bend her fingers or wrist without bad pain. After prayer, all the pain disappeared.
- A lady had a tumor on her throat. After she was prayed for, the tumor instantly disappeared and she was healed. She was totally amazed at what had just happened to her.

Tony:

We cannot thank all of you enough for your prayers. We have seen a definite acceleration of the release of anointing for miracles this trip. They call what we did today an "Outreach". That is when we just move into an area where there are a lot of lost people. It could be in the market or central part of a village or main road intersection or as today we are in a refugee camp. There is a covered roof over gazebo that is for community use that we set up in. They had the big speakers on the back of a flat bed truck with a generator and off we went. One of the local preachers primed the atmosphere before the worship with declarations of truth. We entered into praise and worship with voices and the local percussion instruments. I danced until I was totally drenched and the people were greatly amused at this white chicken dancer. They gave over to us and I asked how many of these people (mostly Muslim) had heard preachers talk about Jesus before. They all raised their hands. I knew they didn't come today to hear more gospel words, but to see a demonstration of Who Jesus really is. So, after a few words, we gave one word of knowledge: for someone with a blind left eye. Several people came up. After questioning a few we began with a woman, totally blind in

her left eye. In just a few moments, her eye totally opened and she could see perfectly. The people erupted! Their ryr's got real big! I told them; let me show you that it is not us, but Jesus. I had the lady (who was a Christian) that just had her eye opened pray for the next man that was totally blind. She did and to her and everyone's amazement, this man's eyes opened up. When he bore witness to the miracle I knew it was time to give the invitation for all to receive Jesus. I had Pastor Harris do the honors and what a beautiful sight: About 90% of the people there received Jesus. I looked around at their faces as they were praying, tears flowing. We then got a lot of people praying as many, many more were healed and received miracles. I saw lots more eye problems healed, some partial healing, deaf ears open, a lot of various body ailments healed. Thank you, Thank you, Jesus, We Love You!

Casey:

Today we went back to the V.O.A. refugee camp for our first outreach. We were under this small tin roofed building with no walls. This building is their community center and the place packed out real quick. Especially when Tony danced, for a white boy he moves pretty good. They had a pickup truck with these huge speakers on the roof and in the bed of the truck just blasting the tunes. This seems to work very well in these countries. If you blast it they will come. The worship was loud and of course awesome. Tony talked for a few minutes and we went right into praying for them. We had a word of knowledge for a blind left eye so we called for those with that condition first. Several responded to that word, but only two of them really had that specific problem. The norm here is if a word for prayer is given they all come. We prayed for the two ladies with the left eye problems and one of them received an instant miracle and the other received healing. Why this happens I don't know, but she was still joyful because all of her pain was gone. I know that I know she will see again out of that eye again in Jesus name, we will probably get an email as soon as we get back. The crowd was amazed at what they just saw and the time was good for a salvation call. When they asked who wanted to receive Jesus and everybody lifted their hands. It was amazing to see this and how by one person getting healed leads into from what I would guess almost two hundred getting saved. God is good. We must have

prayed for an hour solid with not even having to move an inch. This place was packed out. I prayed for a bunch of people that had eye problems. Some were blind and others had blurry vision, but all of them were healed. I also prayed for a bunch of little children and babies that had some kind of sickness. They all had high fevers, but again after prayer their bodies felt cool and the ones that could talk said they felt better. It didn't matter what kind of pain anyone had today after they were prayed for they were better. Again today we were hanging in the very Glory of God. I could get real use to this. 😊 Thank you to everyone still praying for us and our families. Blessings 😊

Harvey:

Today we went to the refugee camp down the road again and had a mini crusade. We went there right after lunch and when we got there one of the pastors was making like a carnival barker and inviting people to the crusade. The crusade was held at the community meeting hall which was a lot like a back yard gazebo attached to a small building. Worship was good and then Tony gave a short message which was followed by some words of knowledge. God showed up, the people who came up got healed and the time was right for a salvation call. I think everyone there responded, it looked like all the people who came to the meeting raised their hands and said the prayer of salvation. After the salvation call we gave the invitation for all who wanted prayer to come up. I prayed for a boy that pointed to his ears like he couldn't hear and after I prayed he smiled and left, the smile kind of tells it all. The next person I prayed for was another boy with the same problem and after I prayed he smiled and took off. I prayed for a woman that had, had an abortion and it caused her to have stomach pain and back pain and after praying a couple times, she said the pain was gone. I had two women bring babies up and the each said the baby needed prayer for a fever and after praying for them the seemed fine. I also prayed for a woman that said she had a fever and was sick for a year and after praying she said she was fine and felt good. God is so good! Many, many, many thanks to all of the prayer warriors!! Later
