

Mission to Liberia, Africa 2009

Thursday, November 19, 2009

Outreach To: Wilson Corner

Tony:

Thank you intercessors, there is great breakthrough everywhere on this mission. Let me give you one example of breakthrough other than healing and salvation: Our resident chef asked for prayer yesterday. He said "I am 51 years old, have worked very hard all my life, I love Jesus, but yet nothing I have ever done has been profitable for me." He said that he has submitted a work proposal to the Government for a job that will truly bless him and his family (and he said to be able to bless others), but has had no response, not even one. This morning, after yesterday's prayer, he received a call from the Government office saying they are looking to approve him. There is no question in his heart of where the praise belongs.

We were only 5 minutes from our mission home today at the outreach; it was just an empty lot between two houses. We got there and rain was threatening. The team gathered for prayer huddle before they gave over to us and just as we came together, a very cool wind began to blow right thru us. It felt like our Daddy turned on the air, just for us. We gave out two words of knowledge and a bunch of people came up. The first four I questioned were for totally other things. When I found someone that was close to one of the words, I started praying.

I quickly realized that it didn't matter what the problem was, the anointing was again very strong and the healings were coming very fast. We finished in record time today because it was happening so quickly. I could have prayed for 1000 people in 15 minutes with this kind of power.

Just a couple of testimonies:

A Muslim man, with a Bennie cap on, stood in front of me. He said "I am a Muslim." I asked what he needed and he replied "I have always been a Muslim and have always, all of my life, suffered with aches and pains in all my bones and joints. I cannot remember a day without pain." I said OK, we will pray in the Name of Jesus, He is the Healer, not me. He said, OK, but I am a Muslim. I said OK, but when you receive healing, it is Jesus. He said "OK, but I am Muslim." I just put my hand on him, and just started to pray, and he started moving his hands all over his body very quickly, touching all the joints, and he had a very pained look on his face. I asked him if the pain was increasing, and he yelled out "No, it is going out of my body everywhere, what is happening to me?" If you could imagine receiving electrical shocks to all the joints in your body in sequence and quickly reaching with your hand to grab that spot that is being shocked and a second later it is happening in another joint. It was quite a site to see. The anointing moved powerfully thru him. Well, he agreed that his religion had never helped him, but now he would begin his new life with Jesus!

A lady came, that had a damaged hip, which made her leg shorter than the other. She said that she didn't have pain but that the leg was very heavy and it was very hard for her to move it. I set her down in a chair and lifted up the short leg. As soon as I touched it she started screaming. I started praying and she started screaming more. I asked if she was in pain and she said "No, it is like I am being electrically shocked." Well, I just stood back and blessed what God was doing, then had her stand up. She stood right up and said that her leg was light now. She took off walking totally normal.

There was lots of SHOCKNAWE on the faces of the people as their miracles manifested. I really like the folks that came with tumors that are externally visible and they try to find them after a moment of prayer! Our God is so, so Good!

We ended the day today with everyone praising and dancing before the Lord. Holy Spirit came upon one of the woman and I witnessed a dance that I have never seen before. It is amazing the things I get to see!

Pastor Harris & Pastor Kettor:

These are just some of the testimonies from the Pastors that were praying with the team today.

- NEARLY 75% OF THE PEOPLE IN ATTENDANCE RECEIVED JESUS TODAY. THE GLORY OF THE LORD WAS ALL OVER!
- 10 people healed from back problems, 5 persons healed from stomach problems, 4 people healed from partial blindness, 7 people were healed from serious body pain all over for many, many years, 4 healed from bad headaches (one of them was 15 years with head pains every day), 2 epileptic persons were set free and healed, 2 people healed from damaged hips (one of them was from a motor accident) and both needed hip replacements, but couldn't get one- today they got it), 1 person healed from Fever, 1 person has their damaged knee fixed by the Lord
- A little girl came with her mother and was instantly healed from being deaf and dumb all of her life. She was hearing and speaking.
- A boy had a hydrocele that was sticking way out. He got prayer and watched it completely disappear. He gave glory to God!
- A Muslim woman said that she suffered 15 years with severe body pain and was healed instantly and said that from hence forth she will go to a Christian Church, as she received Jesus.
- A woman had a tumor in her stomach and it instantly disappeared after the prayer.
- A boy about 20 years old suffered from liver damage and the doctor told him that he had at most 15 days to live and that was 5 days ago. There was nothing else the doctors could do for him. He was in absolute terrible pain when he came. He testified that he felt something leave him and all the pain went with it. He was jubilating from his healing and declared that he was going to live for Jesus!

- A young man suffered severe pain in his right buttocks. Whenever he would try to use the toilet there would be bleeding and bad pain. He was instantly healed.
- A lady had heart problems. She went to the hospital today and the doctor said there was nothing else they could do medically. She was coming home from the hospital and heard the music and came. She had this problem with her heart for over 20 years. She came for prayer and was instantly healed!
- An old Muslim man and his wife were miraculously healed of many physical problems and gave their lives to Jesus.
- A Muslim man was passing by and stopped by the street while the prayers were going on. He asked another Muslim man what was happening. He was told that Jesus was healing people. Now, this man had been nearly totally blind for the last 5 years. He was reluctant to come forward for prayer, but after hearing some of the testimonies he came. After prayer his eyes were instantly opened and he could see perfectly. He received Jesus right now and told everyone what he had done.
- A lady had severe kidney problems, maybe kidney stones. After receiving prayer, the pain totally left her. She praised God!

Harvey:

Today the crusade was late in the afternoon and was kind of like a lightning strike, if you blinked you would have missed it all. At 4:10 we were wondering when we were going to the crusade and at 5:45 we were back at the house where we are staying. Even though it was a short crusade there was definitely no lack. The worship was under way when we got there and even though it was just cd's it was cranking. After a short worship time Tony gave a brief message and a word of knowledge and it was game on. The first person I prayed for was a woman who had pain in her feet and most of the rest of her body. I prayed for her feet and then prayed for the rest of her body. The pain all left her body pretty much

instantly. I prayed for a lot of people with pain in one place or another and sometimes all over, who all got healed. About all you had to do was put your hand on them and they were healed. As it seems to be happening to me a lot on this trip, I had a guy with some sort of problem in his male parts, I'm not really sure what was wrong other than pain, but he said the pain was gone and he was healed after I prayed. I had another guy that said he could not see clearly and his eyes cleared after about a ten second prayer. God is so good! As the saying goes it was kind of like shooting fish in a barrel, the healings were coming so fast and so easy. It's kind of a short report tonight, but things happened so fast there is not much to say, plus it was a small group of people. Many thanks to all of the prayer warriors!! Later

Casey:

Outreach number four... This outreach location was only about a block from the house where we are staying. It was right off the main road at the junction. There is a small market and a few shops nearby. So the music once again drew in the people as they came to see what was going on. It is so cool here that you don't need a permit or any kind of permission to set up an outreach. Just set up anywhere you want and crank the tunes. The music was good and they got a kick out of watching us trying to dance again. They are on a different beat here so it looks like we are always off beat. Well we are off beat that's why. Call it what it is right? That didn't matter at all; the Holy Spirit showed up in mighty power even if there wasn't a huge crowd. It has been our experience that God moves mightily in small settings. Wouldn't you guess, that's just what He did again tonight? We gave out a few words of knowledge and we were off and praying.

- The first lady I prayed for was having severe stomach pain. One of the words given was for stomach pain, so she was healed right away. Praying tonight was again effortless I don't recall a single meeting on this trip where we had struggled in ministry. I love what God is doing, I could get used to this real easy.

- The next woman I prayed for was having problems with her eyes. She said there was fog in her eyes and that she couldn't see well. She couldn't even see a person's face as they walked up to her. I placed my hands over her eyes and spoke against the spirit of blindness and instantly her eyes were healed. She looked around reading all the signs around her to prove she was healed.
- The next lady I prayed for had a baseball size tumor on the left side of her stomach. She said it was very painful. I prayed for her and had her check it out. The tumor was still there, but the pain was now gone. So I prayed again and the tumor shrunk about half way but stopped. I prayed a few more times with no change so I tagged Tony and he gave a whack at it. He prayed once and the tumor was all gone. She poked all over her stomach looking for it but it was gone. She just stood there praising God.

I prayed for a bunch more people that had all kinds of pain and sickness and they were ALL healed. The meeting ended with a praise party and all the people that were healed dancing all about.

- Then this young girl brought her little sister up to me for prayer. She said her stomach was hurting her so I knelt down to pray for her. She must have been about 5 or 6 years old I would guess. She was a bit nervous, I don't know why just some big white guy touching her. I prayed for her pain then asked how she was feeling. She just stared at me with no answer. Then her big sister said she doesn't talk, she has never talked before. Ok, so I pray in a new direction and broke the curse of that mute spirit and spoke sound and life into her voice box. I looked at her and told her to say Jesus. I think by now I had successfully freaked out this little girl or she was just shy so I got the worship leader to help. Her big sister and her friends were laughing as they watched us ministering to this little girl, but they didn't laugh long. As the worship leader knelt down next to me she said she can't talk I know her. I said in Jesus name she will have her say Jesus. So she looked the little girl in the eyes and told her to say Jesus. With this small voice coming from this child the

name Jesus came out. The worship leader had her repeat Jesus over and over until it was loud and clear. I'm guessing her mom was in for a huge surprise tonight. Everyone around knew this child and now she was talking? That testimony of her healing traveled several miles in all directions and Rev. Bettor's phone started ringing asking if we could come to their villages. God you are so awesome. A big thank you to everyone praying for us and our families. Blessings 😊

Brian:

This afternoon we had a small outreach at a road junction. After worship time words were given and about twenty people came up for various pains. One of the persons I remember the most was a Muslim woman totally blind with pain all over her body. All the pain left in short order, but the blindness was not moving. After no success, I called a Liberian pastor over to see what he could do with the blindness, still nothing improved. I called another pastor over and still nothing was moving. So we blessed the woman and told her that she could receive her sight later on. She did get her sight restored before she left the lot, glory hallelujah! We are seeing a lot of blind healed but the ones I seem to remember the most are the ones that are not healed (maybe 1%), but instant is a miraculous healing, and we get reports back in the states all the time of blind people receiving their sight a few days or weeks after we leave.

Looking forward to the last day of ministry at another Muslim market, yea God.
