Outreach To: Clay Market

MANY MUSLIMS GAVE THEIR LIVES TO CHRIST TODAY!!

Tony:

Usually the end of any trip is strong, but we were wondering, how it could be better. Clearly the level of anointing was very strong for every single meeting, crusade and outreach. At this Outreach Market today we set up at a CATHOLIC Mission building that is right next to the Market grounds. Our Catholic brothers and sisters have set up this mission to attempt to reach out to the Muslim community.

Being in a nearly total Muslim area the response of the people was different. The Catholic mission building we were at was down about a 10 foot incline from the road and from where we were standing we couldn't see the market on the other side of the road. There were Muslims standing all along the edge of the road, but it didn't matter if we were white, they were not coming until they saw something besides preaching. As the miracles started happening people were running back over the road to the market to get others and wave after wave of people were running to us over the road.

A couple of testimonies I prayed for:

- Everyone I prayed for came out of the dominion of darkness and into the kingdom of light today! Everyone I prayed for received a miraculous healing, very quickly.
- I asked a lady what she wanted prayer for and she didn't say anything. I asked her again and she said, "How much is this going to cost me?" I told her that Jesus had already paid the bill in full. She was happy.

- A lady came holding her arm as if it were in an invisible sling. She said that she had broken her wrist and arm bones and there was no way she could move them without terrible pain. From the looks of it, I knew we needed a creative miracle. We prayed a few words and I said to her “begin to move you arm and wrist!” She looked at me like I had two heads, but started moving her arm. A big smile came over her face and she said Oh my God, I am healed!
- A lady came with typhoid. I asked what the symptoms were and she said “I feel like my head is going to explode and I ache so bad all over my body. I basically feel like I will die tonight!” Well, I had wondered what that disease felt like. She really looked like she should be in the intensive care ward. After a brief prayer, she smiled and started laughing and jumping up and down. She declared to all that her new God, Jesus, had healed her!
- A mother brought her 4 year old that was totally deaf for the last 2 years. She had the sound of desperation in her voice, “please, can you help my son, please!” I told her to watch us pray for a couple of people, to watch what Jesus does. I watched her eyes getting bigger and bigger, she received Jesus and then we had her, as A BRAND NEW BELIEVER, lay her hands on her sons ears. The little boy’s ears instantly opened. Wow, what a sight to see!

Pastor Harris & Pastor Kettor:

This was a Muslim stronghold area and of all the places we have been, this was the hardest to respond to us. Many thought we were going to collect money from them. We assured them that we were going to offer prayer for them free of charge. But, they only got convinced when they saw miracles happening. They didn’t mind standing under the rain so they could get their healing. Africans always run very fast when it starts to rain, but not today. This is very unusual for Africans. They do not like to stand in the rain.

Here are some of the healings from the pastors: 15 people healed from stomach problems (one of them had this problem for the last 15 years continuously); 9 persons healed from back problems; 5 people that were deaf had their ears opened instantly; 12 people healed from problems in their legs; 3 healed from knee disabilities; 3 people healed from pains in their kidneys; 9 people healed from various heart conditions; 3 people healed from partial blindness (all said they could see perfectly clear); 5 little children healed from body and stomach problems; 3 persons had serious problems with their hands that prevented them from using their fingers (one of them was also partially blind-all miraculously healed); 2 persons healed from yellow jaundice (one started sweating profusely when the anointing came on her, until all symptoms left her); 6 healed from severe headpain; 3 people were healed from Typhoid; 6 people were healed from severe burning in the chest; 12 people had pain all over their bodies just all the time;

A little girl came that had an infection in both of her ears. Fluid was running out continuously. She was instantly healed after prayer. Mommy was very happy.

A little girl said that her tongue was cold as ice. It was totally numb. That was for most of her life and she was not able to taste anything. After prayer she said "my tongue is released and I can taste with it!"

A girl said she suffered from gonorria. But after prayer, she went and urinated and came running back saying that she was completely healed. She said that before, when she urinated, she used to scream and cry because of the pain, but today it is all gone. Thank you Jesus!

A Muslim man said that he was once a Christian and his parents forced him to renounce Christianity. But, with the proof of what he saw today of what God did in his presence, he doesn't care what his parents saw, he will follow Jesus, no matter what!

A man had malaria, and lost his hearing as a result for the last 5 years. He went for a lot of medication and hospitals and no way could they help. Today, he got instant healing from Jesus!

A young lady about 25 years old was suffering from liver problems. When she came her complexion was totally white and under severe pain. Her feet were all swollen and numb. After prayer, we watched the swelling disappear and her complexion turned completely normal, praise God!

A girl confessed that she was so stubborn with her parents and could not regard anyone. But, from what she witnessed today, she repented and asked for prayer that she would never repeat that attitude again. Glory!

A lady said she suffered severe pain in her bones in her right leg for the last 10 years. It made it nearly impossible to work normally. After prayer, she felt relief and no pain! Thank you Jesus!

Casey:

Our last outreach for this trip was this morning and we ended it at another Muslim market. When we arrived the music was blasting and the praise team was dancing. The only thing missing was the crowd. The market was on the other side of the road and they didn't want to leave their booths. After a few songs played a small crowd showed up. It looked as if it was going to be a quick ministry time. Tony asked me to do the outreach this morning and we always huddle together and pray before any meeting. When we finished praying and turned around a larger crowd was now there. It was now my turn to brag on God for a few minutes and get them all stoked up to receive their healings. That doesn't take very long here; they are all so desperate to receive a touch from God. I gave out a word of knowledge and one lady came up for prayer. She was having pain in her right knee. I was using her as an example for everyone to see the wonderful healing power of God. I prayed for her knee and had her jump and down to check it out. The pain was all gone and the crowd started to cheer. I released everyone who needed prayer to come and have God touch and heal them.

- The next lady I prayed for was in pain all over her body. Well, we started with her knee and made the trip all-around her body commanding the pain to go. While I was praying for her knee I could feel the bones moving all around, I even had Harvey check this out. Her knee was all locked up and

she couldn't bend it when she walked. After prayer her knee was loosed and she started to walk around normal and on top of that the pain was all gone. Yeah God!

- I prayed for several that all had real bad headaches and all of them said the pain was all gone.
- Another common problem again today was stomach pain. Like every meeting so far the pain left instantly. I had a steady stream of people in front of me that wanted prayer. I looked around and the others only had a few lined up in front of them. I guess they thought because I gave the message I was the one that needed to pray for them. That soon changed as everyone else had miracles popping around them as well.

The whole trip was a mighty experience of a whole new level of anointing that we were standing in. I loved every minute of it too. Before the outreach was over I had prayed for a man with one deaf ear that was opened and a lady that was almost blind and she received her sight fully. God, you are so awesome, I love you. Thank you to everyone that kept us lifted up in prayer it made our trip a major success THANK YOU. 😊 Blessings 😊

Harvey:

Today we went to a different Muslim market which was a little further down the road than Wednesday's crusade. The market looked more like a traffic jam than a market. It looked like everyone sort of pulled to the side of the road and then decided to have a big tailgate party. There was a Catholic church that sat off the road a ways and that was where we were set up for the crusade. The worship was going when we arrived and there was a small crowd there, I think they were all crusade workers, but as we prepared to start the message the crowd grew a bit. I think they wanted to hear what the white man had to say. Casey gave a short message and then demonstrated the power of God and we had a large crowd wanting prayer. When I started trying to get someone to pray for, they all wanted

But when the miracles were being performed, nobody told them to come, they just came, just by hearing others testifying. So, **the more you go for God, the more He will prove Himself! Bless you.**

Pastor Kettor's personal conclusion statement from Today: It was such a good experience today. Normally in a situation like this the Muslims would not come, even if we beg them and preach mightily. It is only thru a clear demonstration of the power of God that they will come. They got that today, and as soon as the first testimony of a miracle was announced, they started running. There were waves of them dropping their goods in the market and running to receive their miracle from Jesus! This is such an awesome sight for us, as Pastors, to see. Maybe 2% of the people were Christians, 98% Muslims. The Muslims ALL gave their lives to Jesus today. This is truly miraculous. We are so blessed!
