

Mission to the Philippines      Barangay Village Kuya, Upi, Maguindano

Tuesday, September 20, 2011

Tony:

Did Jesus say to go to the ends of the earth? We again find ourselves there. Way up in the mountains to a Native Indian Village. The people are predominately Muslim with a small Christian contingent. We drove hour after hour with every stretch of the road going up. We are so high we are even above some of the clouds. We were greeted at midday with the warm smiles of the Pastors gathered waiting on us. Maybe 15 pastors who each have a number of churches they oversee throughout this mountainous area. Their lives are greatly spent walking for many miles thru the mountain woods to minister. Wow, their dedication and faithfulness to serve is amazing. Thank you Jesus. They told us of how blessed they are that God would send someone to help them so far away. It appears missionaries have never wanted to come out this far due to the conditions. We are grateful to be here.

We arrived at the conference site. It is like a pole barn with no walls and out in the open. They fired up a generator brought out a guitar that looked like it was at least 100 years old and one of the pastors led in local worship. Oh, how I could feel the humility and genuine worship of these Indian people going up to the Throne. There were maybe 50 people there when we started worship. When I opened my eyes there were people everywhere. I felt the Anointing come on me during worship and knew that we were to pray for people pretty quickly. What I didn't realize at first was that many of the people there were Muslims that just came to see what was going to happen. This was to be a pastor's conference. As I began to speak, I quickly realized there were different things going on in the spirit realm right now. The pastors and leaders were here with hunger pulling on the teaching and impartation anointing. The lost, sick and infirmed were here pulling on the miraculous and healing anointing. We released just a little teaching and then into some words of knowledge and miracle healing mode. BAM, as the people came up ALL were instantly, miraculously healed! The looks on the people's faces was priceless as they saw Jesus as never before. Some were running off to go home to get their sick family members and brought back to be healed.

I continued to teach on what we were doing and being sensitive to Holy Spirit as Casey and Daisy were praying for the people that came for the words. I did get to pray for just a couple of people. One Muslim lady that lived in a nearby house that heard someone shouting that they had been healed and knew she needed to come. She had been suffering with migraine headaches for a long time. She was instantly healed and happily received her new life in Christ.

Another man that had been paralyzed in his left leg for the last 7 years stood in front of us. As I looked into his face I saw the desperation of a man that has not been able to live his life and

was so hoping that he would be touched by this Jesus that is healing others. The power of God shot into his leg and he began kicking and smiling. We had him walk around for all to see what God had done. Every eye was on him as he declared praises to Jesus!

We will attempt to get a lot of teaching in tomorrow and impartation as Thursday is outreach to the lost of the village and next the start of the long trip back home. Thank you all for your prayers!

Casey:

Wow if all of you could only see the beauty of this mountain village that we are so blessed to spend the rest of our time here in the Philippines. It was a long drive to get here and the living conditions are primitive to say the least. For example I am sleeping outside and for my bed it is this huge wooden table with a bamboo mat for some padding. I'm just praising God they had a mosquito net for me to use or I would be sleeping on a feasting table lol. The people here are so nice and friendly and very excited to have us as visitors. Our time here is going to go by real fast with only three days to spend with them. The place where we are staying is also the hot spot for all the village children this must be the place where they all come to play and hang out. It's such a blessing to watch them all running around playing without a care or worry in the world. Ah, to be like a child.

Our first meeting was in a pole barn with about 15 pastors and a bunch of the village people (no pun intended). They were all eager to witness the healing power of Jesus for themselves. They live so far from any hospital or doctors so they are really in need of the healing power of Jesus. The teaching was kinda short as Tony felt we needed to get right into praying for them. A few words of knowledge were given out and Daisy and I started to pray for them. The first few were in need of healing for their knees. As we placed our hands on their knees you could feel some of the bones moving around and instantly they would start kicking and jumping to test out the healing they just received. After the first few got healed the crowd got excited and just started to file up front for prayer. Daisy and I got busy real fast, but God was healing them even faster. I love it when this happens Bam Bam Bam. One of the men that came up for prayer said he had pain in his chest and was having a hard time breathing. As soon as I placed my hand on his chest he took a huge gasp of air and said it's gone, it's all gone and I didn't even get a chance to pray for him so I just blessed what God did for him. Another man came with a bunch of pain in his lower back from a bladder infection and again as soon as we touched him the pain instantly left his body. God is really making a point to these people in this village. Wow. Thanks again to everyone praying for us back home. Blessings ☺

Daisy Palabrica-

Our team going to the next location, this time in Barangay Kuya, Upi, Maguindanao, it was a long trip and I'd like to praise God for the safe trip going there. In the afternoon at 2:00pm we started the meeting with the Pastors and Leaders there. During the invitation of Pastor Tony, words of knowledge, also he told the crowd if there is feeling bad or pain in the head pointing to the exact spot on the forehead, in the side two women approached me and asked me to pray. One of the women, I asked where is the pain, she was pointing the forehead and told me that she has been suffering migraine for 3 years and she felt the pain in the head, she said that is bothering her and also doubted that was the reason she failed the medical exam that time she applied for work abroad. She further told me her mother so sad she failed that exam to land a job abroad, she is the eldest suppose help her family. So I prayed for her migraine and the pain to go in Jesus' name. I asked her how she feels and she massage the forehead and checking and responded to me the pain is gone and I told her that in Jesus Name also your migraine for 3 years gone now. I asked her to receive and trust Jesus as Savior and she trusted Jesus. Praise God! And next woman next her complained to me about her eyes that she can't see because the two eyes seems like cloudy for 4 years she has been suffering the eye problem. I prayed in Jesus' Name casting the spirit of cataract and blurred to go...Praise God I sensed her reaction and checking her eyes and told me ..." wow ...it is now gone I can now see clearly, I told her that her cataract whatever having her eye problem now gone. Praise God! What a wonderful experiences submitting myself to the call and power of God reaching these sick and broken people around now they become believers of Jesus, I thanked God for God's servants teaching us the ways of the heart of God through the manifestation of the anointing and power of the Holy Spirit to give glory to Jesus my Lord and Savior.

Elmerson-

Again, the Wonders of God happening in another province of Mindanao. Where we meet tribal tirurays church leaders this tribe is one among the least of the muslim tribe in the Mindanao, even unbelievers were there in ground together with us in the training. We started at 2pm and some of these leaders came from far villages riding horses and walking as their means of transportation to the gilagila barangay hall and some of them came early to attend the most awaited power and firing teaching of Pastor Tony Fire. I was so amazed when the teaching was going some church in my side responded and shouting Alleluiah, and praise the Lord. I can really see in their eyes that they are so excited to know what's gonna happen. It was like power electricity in the air. When the words of knowledge came to Pastor Tony, there were pastors came and submitting themselves for prayer as Pastor saying the words of knowledge. And, right there that as Casey prayed over them ...they all got healed. I just praise God for the privilege of

being with the man of God, he is like manna from heaven and these people are so hungry for this food from heaven!

Dave Malanao-

It is my first time to experience this kind of mission trip, now I can tell to anyone that this is indeed a wonderful trip. When we arrived in the second location of training, our team leader requested me to stay and watch over our things inside the barangay hall. But when I was alone, one came and told that he heard our team came to pray for the sick people. So I asked him how he feels and what is the problem. He told that he has been suffering backpain for more than a year now. Also complained that he has blurred eye sight, then I prayed over the spirit of pain in his back, then he was checking and told me nothing happens until I prayed for him 3<sup>rd</sup> time still he told nothing happens, and still care for him so I stayed and prayed for 4<sup>th</sup> time. I asked him how he feels, he told pain is gone and he is continue checking it and told me again pain is gone. So then I go with the eye sight problem, first prayer nothing happens, I stood still in front of him and keep praying and before I started the 3<sup>rd</sup> prayer I told him that God will touch you and heal you now (I somehow just knew it would happen), then I prayed for the 3<sup>rd</sup> time and inquired from him, and he responded ..."I can now see so clearly"... no more blurred eye sight because I told him God fixed the blurred eye sight problem and believe Jesus as your Lord and Savior, now serve him for the rest of your life. This is the most glorious ministry of the Lord providing real help to hurting people!
