Ministry to Sierra Leone, Africa; Town of Kabala
Pastor's Conference Day 2

Tony:

Our God is an Awesome God! Our God is an awesome God! Thank you for your prayers, please keep it up!

These folks are real intense after God. They ate up the deliverance training today and it was like a roar of the Spirit as their voices were lifted up to God, as they prayed for each other. It was the sound of Heaven! I was just standing there knowing that I was in the midst of a Divine invasion.

Again, we have been brought to any area where missionaries have not come. Thank you Lord for hearing their prayers and sending us!

We were going very long so we wanted to release the people to eat. But we said, "If the very bad sickness and disease cases want to come we will pray for you while the others eat lunch. Again, the people RAN to the front. We looked at each other and said, "What is going on?" We asked the first lady what she wanted and she said, "I have got to have everything you guys got, I want it all now!" Well we prayed for her, but announced again that at this time we only wanted the real bad sick cases. About ½ the people left but we still had over a hundred pressing us back to the wall. I had to do a little mini teaching on love and considering others more important than yourself, several times, as they were pushing each other to get to the front.

Each of us teamed up with a pastor to begin even greater impartation. Our goal is to leave them with all the goods. It was great watching Pastor James just go for it. When we were being pressed against the wall, he looked at me with the look of "what do we do about this?" I just laughed, he got it, and he started laughing too.

Here is some of what we saw God do:

- People with malaria all had symptoms that they saw removed which gave them assurance that complete healing had come.
- Everyone was so excited and had huge smiles as the healing came.
- Lots of high blood pressure problems healed as they felt the symptoms leave them. Many people said just that "I felt something leave me and all the pain is now gone!"
- Clearly The Lord was present today to heal! Those times it is just so easy!
- Lady with bad eyesight and abdomen pain gets her eyes open as soon as she realizes that her stomach pain has been removed.

- A number of people that experienced pain whenever they took deep breaths. As they stood there explaining it to us and they tried to breathe deeply they were just wincing with the pain. After just a few moments of prayer they smiled and danced as they took deep breathes and realized what Holy Spirit had just done.
- A lot with pain moving all around their bodies, as we prayed, until it made the exit out of various body parts.
- One lady had weekly fevers with dizziness and confusion coming to her. It was on her right now. We had her pray for herself and watch God set her free from her own prayers.
- There were those that experienced dreams in the night where various sicknesses came upon them, most accompanied by fear. As we explained the assignment of the enemy against them, we had them use their authority and pray for themselves. The all felt the “thing” lift off of them and they left with the ability to resist the enemy in the future.
- I even had a man with leprosy on his hand and arm. He was shocked as I put my hand right over the leprous sores. He left with a smile. We are expecting to hear testimony of what God did.
- My favorite was a young Muslim woman that said she came from afar because she heard people were receiving healing. **She kept saying “I am a Muslim” no matter what we said about Jesus, she just kept saying “I am a Muslim.” Well, what do you think God did?** She kept pointing to her big toe and then ran her finger up her leg, over to her back, up the back of her head and around over into her mouth. She said for 10 years, the pain was EVERY DAY, including her tongue burning constantly. Can you imagine that? Well, the power of God came upon her, she started wobbling, until she said “OH MY GOD, I AM COMPLETELY HEALED!” She was jumping up and down and sticking out her tongue and touching it, yelling OH MY GOD. Well, needless to say, she gave up her religion that hour and received Jesus into her life. She walked out yelling “JESUS, JESUS, and JESUS!”

Casey:

Day two in Kabala is going great so far. The meeting was on deliverance and they were excited for the teaching. Wow I wish I was when I first started in the ministry, now it’s like second nature to me. In the middle of the teaching Tony had Louis and I show them a practical demonstration on how deliverance is done. So we got to teach as well and it went real good. Louis

did a great job being the person needing deliverance; well we kind of threw him into to it. When the teaching was finished they made an announcement for anyone to come who needed prayer. This unleashed a massive wave of hungry people wanting to be touched from the Holy Spirit. I guess you could say it was your typical ministry time here. All three of us got pinned to the back wall of the church and our only way out was to finish praying for everybody. The best part was everyone was getting healed real fast once again. I prayed for some many people that it is already hard to remember them all. I prayed for several persons with back problems and a lot of chest pains. Praise God they all were healed. I also took several people threw deliverance. Most of them had issues of anger, but the ones that really get me are the ones that get attacked in their dreams and wake up with a physical problem. Most of them said it was fear so we booted that one out and cleaned the rest of the house and they said they felt free. They said that they are looking forward to a good night rest and sweet dreams now. I just pray that that door stays shut. They know they have the authority to keep themselves free and others now so it's time to put that teaching into action right away. So I guess you could say we were rather busy this morning and we have an outreach scheduled for this afternoon. That should be fun going out of the village into the bush to bring the power of God to them Whoo Hoo. Thanks again to everyone praying for us, Blessings. ><> Casey Oh ya just to add to the excitement of the day they are moving us around by motorcycles now. Dirt bikes to be exact and my driver was the head detective of the police department his name is Leo. Now this is the way to see the sights we all really loved that. God is Good. ☺

Louis:

Yes, yes, yes God is good all the time. Again God was in the house. Healing after healing was going on all over the place. I was with this one pastor who is in the army over here. God was showing him that it is not us. But all of God's children that can see the healing happen. We had a lady come up who could not hear. When we got done praying she could hear us, yea. Then we had two guy's come up who could not see well at all. By the end they both could see. I love it when God show's off, it is so cool.

Had a lot of people come up for deliverance for anger. They were being set free left and right and the pastor I was praying with was amazed. When we were almost done praying for people, it seemed they were coming off the street to get more. We had people asking for prayer for other people for a bunch of different stuff, you name it we prayed for it, that is n o joke.
