Ministry to Sierra Leone, Africa; Town of Kabala
Open Air Crusade Day 3

Tony:

Our last night in Kabala, God gave the city something to talk about. When we arrived at the site, there were only a few thousand people there. When we broke into intense praise and worship, the crowd grew huge. People came from everywhere. After dancing with the people a little, I spun off into the crowd and went way to the back, even out onto the street where the Muslims were hanging back watching. I ran up to them, wrapped my arms around them and hugged them, releasing blessing over them. I did that with hundreds of people. The Muslims were shocked! But they all thanked me and smiled. Holy Spirit was showing me that I was breaking off false mindsets about Christians by my GOING TO THEM with love, a hug and a blessing. It was sooooo cool as I came up behind many and put my arm around them. They turned to see who was hugging them and saw my white face and then immediately said "pray for me" or would grab my hand and put it on someone near them that was sick. Miracles were happening very fast, out in the crowd. One person took my hand and put it on the eyes of a totally blind man. In seconds he was looking around with his new eyes. I was soaked with sweat as I ran from person to person in the midst of the thick crowd. One lady came up to me and took her handkerchief and wiped the sweat off my face. Then took the handkerchief, held it to her heart and said "I am taking the anointing to sick and demon possessed people!" As I moved thru the crowd, the people were grabbing at me and putting my hand all over body parts. Very short prayers as I moved thru and all the people raised their hands to praise God for their healings.

As Casey began to bring the Crusade message, I stood amongst the people in the crowd. It was really cool from out there. The Presence of Holy Spirit was all around us. I could feel His draw on the hearts of the people. Casey gave invitation to come for salvation and AGAIN the people RAN to the front of the stage. Muslims from everywhere came to receive The Lord. The Church officials said that the Body of Christ has been doubled in size this week! We gave one word of knowledge for demonstration to build the faith level even higher for greater miracles. The word was for those that were deaf or partially deaf in the left ear only. Some came with the right ear, we had to make them wait as we were following Holy Spirit's lead. One after another after another deaf came up on the platform and in seconds their deafness was GONE, they gave testimony to all the people and the atmosphere got

even more charged. Well, it was time to line up the pastors and call the people to come for healing. I paired up with a new pastor tonight. He definitely got the impartation. Every manner of sickness was healed quickly. Again, lots more deaf and deaf /mutes. People with some paralysis, restored. A lot of women harassed by demons in the night watch. We heard some absolutely wild encounters that these women had with demons. It was easy leading the Muslims to Jesus tonight, as they just wanted to be healed and set free.

In the last report you read of our prayer for a notable, remarkable miracle that will shake the Muslim community. Here it is: We had a man come with legs that had no feeling and no strength. The city has seen him hobbling around on crutches for years. As we began to pray, the man said that he felt feeling coming back into his legs. The Pastor that was praying with me said to the man “are you ready to see God do this?” The man gave his supporting sticks to the pastor and we put them on the platform and off they went, the pastor continuing to pray with the man as they began to slowly walk off together. Later I heard intense screaming and yelling with a huge crowd out in the middle of the field. Casey will tell you more about what happened to this man. It is the next day when I am typing this and people all over town are talking about what God did last night.

As a real topper for me there were two men that came up to me at the end of the night. The first was a man with leprocy that we prayed for in the conference. There were scales and sores all over his hands and arms, I remember well. He said “look what God has done!” He showed me his hands and arms and they were clear skin! He said, I will serve God all the days of my life! A second man was a man that was totally deaf in one ear and got 100% of his hearing restored. He said to me, “I told the Lord that if He would open my ear, I will give myself fully to love, worship and serve Him only! For the next 30 minutes he drew from the well within me of the riches available to him. There was such a purity and sincerity and holiness and hunger to this man, I could only weep for joy to see what God had done!

Casey:

When Jesus shows up it is the most amazing time you will ever have. He showed up in a huge way last night as the atmosphere was super charged with the Holy Spirit. What a way to end our stay in Kabala, going out with God on top. The crusade started with kind of a small crowd. Well to me it looked smaller than the other two nights until... Worship broke out into high praise. The two women from Liberia that are traveling with us got up on the stage and got the crowd going Liberia style. They had all of the songs and

dance moves that really got the crowd going. They did an awesome job of ushering in the joy of the Holy Spirit. Louis, Tony, and I took off into the crowd and started to dance with the children again. These kids love this so much that they just grab on to you and almost push or pull you down. It was crazy, but yet at the same time a lot of fun just loving on them. When it came time for the message Tony handed the authority over to me and I went for it. Yep the plumber was preaching tonight. I spoke words of encouragement and hope and shared some testimonies of Jesus and how He healed. I also spoke to them about pressing in to Jesus for your healing. The crowd was alert and excited and I felt I was to give an altar call for salvation. So I did. I wish all of you could have seen what my eyes saw as hundreds came to receive Jesus. It didn't matter how young or how old. I even saw many Muslim (X ha ha) in the crowd to receive Jesus tonight. Personally I think I could have said "Mary had a little lamb, Who wants Jesus" and they would have come running. The Presence of God that was in the air last night. It just seemed SOOO Powerful. Standing In His Anointing is an absolute wonderful experience and no matter what we could do or say wasn't going to change what God was going to do tonight. When the pastor finished leading the hundreds to Jesus we called out some words of knowledge. We brought the deaf people up on the stage so everyone could see the wonderful healing power of God. You know I just love it when God shows off. Wouldn't you know it God healed every one of them (deaf ears NO MORE) for all to see His glory. The atmosphere was even more charged now so we loosed the pastors to start praying for the sick. Almost all of the people I prayed for tonight were in need of deliverance from some real nasty spirits. I praise God to report that all were set free. What I really want to share is what I saw happen with another (local) pastor. This pastor was to my right side all night. Not very close but I could see him in my peripheral vision and he just keep catching my attention. The whole night he just prayed for this one man. Over and over again. I had no idea what he was praying for, just that he was going for it. You could read his body language and tell something big was going on, but I had my own people to pray for so I couldn't go check it out. We must have prayed for a few hours easily as the crowd was the largest crowd we seen all week. Word really spread of what Jesus has been doing here. Yet this pastor was being persistent and sticking with this one man still giving everything he had and more. Other pastors had already gotten worn out and were sitting in the chairs just looking at the amount of people still wanting prayer. Yet again this young pastor was still pressing in for this man's healing. If he was standing at the door of heaven he would have beaten a hole in the door by now. I am guessing by now you

are getting my drift on just how hard this pastor was praying for this man. Then I lost sight of him for a short while until I was kneeling in the dirt praying for some ones feet. God healed the feet as the crowd erupted into what seemed like chaos. I stood up only to see that very same young pastor. He was walking backwards with this young man walking slowly to him. The crowd grew larger and louder they were all clapping and shouting something. So I ran and grabbed the video camera to go check this out. The man that was being prayed for couldn't walk he was a crippled man that used sticks to pull himself around the village. Now he is walking all on his own. The look of determination on the pastors face as he kept shouting walk in Jesus name, Walk in Jesus name. That was real cool to see and I really praise God that this happened threw a local pastor and not us. It just proved to them that God will and wants to use them for signs and wonders. Praise God!

Louis:

The day was fun. We had some pastors come by to get a bible and give a testimony. They have some sweet testimonies, the pastors got what God had for them and man o man are they taking off with it. Go God. When we were all most done I had to go help fix the generator. Thank you Jesus is was not hard. It was fixed in no time at all. The crusade was great and man o man was God moving in a big way. When worship was all most done we all got up and started to dance. Man I love the children they are so much fun and a big blessing. Skip got up and did the message, he did a great job. Man did the people love him they took all of it in God was moving in a big way. When it came time to pray the pastor I had before came to me and ask if we could pray together again. So we started to pray for people. We had a lot of people come up for prayer, I do mean a lot. God do I love this it is so sweet. We had a blind lady come up and we started to pray and she got nothing. So we prayed again and bam nothing haha. By the third time she got a little bit so we kept going by the end she only got 50%. I was not happy but she said she knew that God was doing something big in her life so go God. I Had some more boys with nugget problems tonight and God healed them all again sweet. God is good all the time. This last night was great so many thing was going down in a good way I cannot even put it all in to words. All I can say is there is one more week the game is on. Love u all see you soon.
