

April 18, 2015 One Day Leaders Conference Mission to Uganda

Bugade Village God is Able Church

Tony:

A note from two days after this meeting (Monday). We received word from the Pastor of this church that the people that were from his church that were attending this one day conference, stood to give testimony on Sunday. Every one of them that came for healing on Saturday testified on Sunday that they were 100% totally healed. The Pastor stated he had never seen anything like this and now will pursue this Gospel of the Kingdom! He also wanted to know how soon we could come back for a full conference!

Thanks to all who have offered up prayers. Everywhere we go, they are begging us to stay longer for more training. Please pray for God to put in place our ability to leave a team for longer in some places, especially for practical street training, plus provide teaching materials for us to leave with them plus at least new testaments as so many have no Bible.

My God, what an amazing day this was! We traveled about 2-1/2 hours deeper into the bush to another bush village for a one day pastor/church leader conference. They greeted us with an African breakfast then on to the church. When they turned the service over to us, I knew something extraordinary was going to happen. I began the teaching and again the people were on the edges of their benches, I mean swallowing up one truth after another. We moved into words of knowledge and about 50 people came up. We made all the team and the pastors that were going to pray wait until we had done a couple of demonstrations for everyone to watch. We started with an older pastor that was hunched over and could barely walk. It took him the longest time to just get up from his seat and come 10 feet and one step up that he struggled with making. He couldn't turn around or lift up his legs without extreme pain. Now I know how hard it is for a pastor to teach on healing and deliverance in the atonement when they personally are suffering with sickness that is not getting cured. I hate the devil and everything he does. Let's continue to destroy the works of the devil! We

prayed and it took two passes, but he was completely restored! His neck straightened out and he was dancing and jumping with his legs that just moments earlier would not move except with intense pain.

The next person was a lady and she said that the entire left side of her body had a stroke, her arm was totally paralyzed, she had extreme pain from her neck down the entire left side. Well, I thought this was going to be the second demonstration, but when we just touched her she began to manifest with violent shaking and cries and vomiting (without the fluid). I realized we didn't want all attention on the manifestation, until I verified the source and made appropriate actions, and that this could take a while, so I released all the others to get started praying. Then I attempted to reassure the lady that Jesus had her and all was going to be well. I found out that it started with a demonic manifestation in response to the Anointing entering her body. It stopped and I could see God was still working on her, sovereignly delivering her! She laid on the floor all the while we were praying for others, then stood to give testimony that she was healed. She said the pain and immobility was totally gone. She lifted her previously paralyzed arm and demonstrated how her leg was working normally! Glory to God!

A pregnant woman close to delivery was told that the baby was positioned wrong for delivery. She said this has brought a lot of pain to her for some reason. After prayer, she felt the baby moving big time and the pain all left! OK, I know what I think just happened!

A lady could not lift her left arm or move that shoulder. She didn't know how it happened. She said it was paralyzed. After prayer she demonstrated how her joints were free by waiving her arm. She looked like a happy little school girl!

Had a few people, mainly ladies, that have something moving around their abdomen. They say they can feel it and feel it moving, some feels like snakes under their skin, some like a lump just moving around. The movement is intensified once prayer starts. And in all cases, the "thing disappears under their fingers at some point! I love the looks on their faces when this thing disappears!

Deliverances: One lady that could barely see but was more concerned with the night terrors and evening demonic visitations she was having. We helped her get free and God fully opened her eyes also!

One lady suffering with heaviness and continual depression was powerfully set free today!

A lady said that she had, for the last years, been living with: Asthma and breathing issues, extreme difficulty walking, and constant intestinal distress. Now that is a pack of stuff to deal with. It was BAM, BAM and BAM and was she happy!

There were so many that came for prayer today, Miracle Healings and Deliverances everywhere, even Salvations. Remember this is a Church Leaders conference. There were many with head pains, one man had such bad pains in his head that his entire body was shaking, many with neck pain, many with stomach ailments, one lady said continual intense burning in her stomach, Some with paralyzed body parts – all freed, a lot of back issues, leg problems, knees, many with eye pain and poor eyesight and a lady with bent legs that God straightened. ALL Miraculously healed by the loving power of the One Who made them!

When we were leaving today, surely imparting only a fraction of what God has given us for these people, pastors were following me out the door beseeching me to stay longer to help them. Father, make a way to get them all that they need!

DAY 5 Bugade God Is Able International Church

Fredrick and Emily

As usual the Lord God manifested Himself in a special way showing His mercies and grace to His people at Bugade village Center, in God Is Able International Church it's over a two hour drive from where we stay. many pastors and leaders came. According to the leaders around more could have attended but being planting season people come late because they have to catch up with the season for better harvest. Bishop Raphael Ongango's intention was to brand LFJI ministry by Pastor Tony so that when we have another mission they will know what they

expect and who Tony and team is so that many more churches can be gathered in one place.

After Pastor Tony had taught, he entered into the word of knowledge whereby the team was invited to join in, many people responded by coming in a big number.

The first person to be ministered on my line was a female pastor who was suffering from chest pain and shoulders that were painful too, I laid hands on her in prayer she got her healing immediately, and people who were watching were surprised. My line began to grow.

Two boys came to me, one of the boys was partially deaf about 85% in his two ears, he could hear by far and when someone is shouting according to the person who brought him for prayer, I laid hands on both ears and immediately they got open, I almost doubted if it was true, the person who brought him to me, did some tests, calling his name at allow voice while at a distance and the ears could pick and he could respond it was a great joy.

The second boy had stomach ulcers since he was young, his was about 12 years old, he got his healing instantly.

A man who has a very swollen stomach, full of gas, I prayed with him and immediately he began to feel some reactions in the stomach ready to release a heavy gas, I told him to run out to emit the gas there, he stayed there for some times when he came back to me the stomach had deflated, he looked happy.

Two women on the line had also most similar problem, the first one had pregnancy that wasn't growing, it was about 7 months but it seems as if she does not have it the belly was flat, she began to feel pain in the stomach when she entered the church for the conference, It's like the demons that were working against her pregnancy was resisting because of the presence of God that was there. When I laid hands on her the pain stopped and she was beginning to sweat yet the weather was cold, and things were pinching her as needles, I told her that those were signs of deliverance, she believed that she was totally healed.

Another on the line stated that she got pregnant and then the pregnancy disappeared, she went to hospital and Xray done on her it confirmed that she was pregnant and the Xray showed that fetus was very tiny, yet the pregnancy was much older what was shown in the size of the fetus, since then there has no signs that she was pregnant and it was determined that there was no life in the fetus and she believes that someone she knows from the neighborhood bewitched her. I asked her if she was born again she said yes, I asked her to place her hands on her stomach I rebuked the spirits of barrenness and witchcrafts and death that were behind the stopping of her pregnancy. When I began to release spirit of life and healing power, **I saw her womb grow as if someone was blowing air in the balloon**, it was visible and tangible, It was amazing, I had never experienced anything like this before! She then acknowledged that there was movement in her womb with her child. This is so amazing: God raised this dead fetus in her womb, then expanded her womb and grew the child up at the same time miraculously, in a matter of moments. Wow, **RAISED FROM THE DEAD!**

A young woman came with a severe headache, and pains all over her body, she could not support herself to stand, she had someone to support her, when I began to pray for her, she began trembling, and her body temperature was high I kept praying for her, later she said the headache has stopped the temperature became normal but she felt some mist in her head, I asked her to get a seat and rest at nearby chair as I prayed for some other people, during that time a pastor with a paralyzed left side came with a headache case I felt I should start with headache first I was praying and running my hand from his head to the paralyzed side, all of a sudden he began to raise up his dead hand and leg, but the headache was still there, I continued to prayed more the headache stopped, the man was happy.

Later the young woman who was seated, stood up from the chair, I laid hands on her and she got total healing, praise be to God. I had many cases of stomachaches, abdominal pains, chest pains and legs swollen that were ALL healed during healing time the Lord did miracles in our own eyes because we are willing to be used of Him, it was amazing!

Emily.

A woman who became pregnant for 4 months and then mysteriously the pregnancy stopped, came to me complaining of backache, chest pain, her thighs and all of her legs were in a great pain, when I began to pray for her she began to sweat and trembling, and she said that all pains rolled down to her legs, but I told her that she should begin to thank God for healing. As she did that, every pain disappeared and she laughed thanking me, but I told her to thank God. Hallelujah the Lord healed her.

A woman with a tumor in her abdomen that caused backache I prayed for her, the power of God came upon her mightily almost falling down but my interpreter catches her, the tumor disappeared.

Another woman had something moving in her stomach for many years, whenever the thing moves she could not have strength, after prayer the thing disappeared for the first time and immediately she felt strength coming into her, she said that she could not believe that she just get healed just like that so easily she praised the Lord with tears.

Another one had a neck pain and headache when I prayed with her she got healed instantly, she went and came back that she forgot that her eyes were also paining I prayed and she got healed.

A girl had something in her chest that caused pain, and every time it began to cause pain it touched her back,, she was also was instantly healed!
