

Ministry to America
Heart to Heart Ministries, Morgantown, West Virginia
Pastor Karen Austin

Tony:

The Same Spirit that has brought the kingdom of God to the third world nations we have been going to, is definitely moving in the same way in America! Hallelujah! As we hit the deck, overcome with His Presence and Power, we were overwhelmed with thankfulness! After releasing some visions of what He was doing in this assembly, we talked about The Kingdom and got into words of knowledge. I noticed a hunger among the people that was literally pulling the anointing out of me. We gave words of knowledge and the team began to pray. We weren't aware yet of all those that were touched and healed sovereignly during the worship time, some of those testimonies came forth later. But the people really seemed to appreciate being able to 'watch' the process of Holy Spirit BRINGING the miracle instead of just hearing the testimony of what He had done. A few testimonies of what I saw God do tonight:

- A lady with cataracts in her right eye, double and very blurred vision: First shot she said, "No change!" We've learned to not be moved by nothing happening the first round of prayer. At the second attempt with this lady, she said "oh my God, the double vision is gone, but my eye is still very blurred!" Ok, thank You Lord for what You are doing and bam, as **she began to look around "Oh my God, it is clearing up, it is clearing up, I can see!"** Our God is an awesome God!
- A sweet little ole lady with very little strength in her legs and knees that just wouldn't work anymore and pained her so bad. It took her a long, long time to get up the stairs to this 'upper room' place of ministry. I understand she has been faithful to come without consideration to the extreme physical difficulty it took to get to church. As we prayed she felt 'something happening' in her legs. We had her begin to walk and the more she walked the happier she got, until she said "all the pain is gone and I feel strengthened!" She said that for years she has wanted to more exuberant in her praise to The Lord, wanting to dance before Him. She jumped and danced with excitement for what God had done for her.
- Another lady who had lived for years "in constant and continual tormenting pain" and was told that she had neurological damage. As we began to pray the power of God came upon her and she reacted with violent tremors. The pain she had been living with all these years instantly moved from all over

her body to just in the area of her right hip down to her foot. When we began to command the tormenting spirits to leave her, then instantly there was a manifestation of the demons that had been ‘occupying’ the ground who didn’t want to leave peacefully. There were more violent bodily tremors and Holy Spirit revealed a ‘spirit of death’ that had been over her. She agreed and spoke of the toll this spirit had taken on her and we issued the eviction papers, in Jesus Name. **Then came a beautiful move of Holy Spirit to bring full liberation. The demons came out shouting and with tears of joy, she exclaimed “I am free, I am free!”** And she demonstrated that freedom from her new pain free state but jumping, dancing and spinning for the Lord, for all to see!

- A lady that could not move either one of her thumbs without extreme pain, for more than a year and bad knee that ‘needed to be replaced.’ As we began to pray she was quickly overcome with The Presence and Power of God. She started wiggling her thumbs and smiling as she watched the pain leave her. The anointing kept increasing upon her until she hit the deck, vibrating under His Power. I went off to minister to others in healing and deliverance and came back to her, still on the ground much later. As I came back she was just coming around and said “He has healed me, He has healed me!” I asked, “what about your knee?” **She jumped right up from the floor and said, “Oh God, there is no way I could have gotten up like that before!”** She began walking and said, “It is totally fine, it is totally fine! Thank you Jesus!” She said that she would have it medically checked and get the ‘Doctor’s Report’ to us.
- Another man who had been living with carpal tunnel and bad shoulders for a long time was instantly healed and was so shocked by the miracle that he said, “I hope it doesn’t come back!” I am believing that what we are seeing God do will carry with it a ‘keeping power’ that even when we slip in our faith, His Work will stand!

Casey

Wow it sure feels good to be back at it again out in the mission field. The strange thing is we are in America and not some third world country. This seems all too strange with all the comforts of home but yet the same anointing that we have seen all over the world. God is so awesome! We didn’t even get sore back sides from the flight only two and a half hours that was almost a teaser, which would normally just be the first leg of a long journey. The first service we went to was great and the worship was out of the building. I was asked to bring my worship flags and was given the freedom by Pastor Karen to just cut loose as I felt Gods leading. It felt so

good just to let go and worship. As the worship team started to play Tony, Harvey, and I were standing with our arms around each others backs and all of the sudden the Holy Spirit showed up in an awesome way. It was all we could do to stand and at that point the only thing I could think was praise God we are standing on carpet and not a dirt floor. Wow we are in America, did I say that already? I was being called to worship with the flags at that time as the other two hit the deck. The Spirit was so strong in the building I didn't want to stop worshipping. The strange thing is the worship team felt that the worship was kinda flat? I have no idea what building they were in but if that was flat I can't wait to see what is going to happen tomorrow night.

When the lights came on Randy released a vision that he had received during worship. They all received the words spoken, they are hungry here and it shows. Tony gave a good word on the kingdom and shared some testimonies of things we have seen God do over seas and how He wants to do the same things here. That's just what happened in this small church tonight God showed up in a mighty way and released His kingdom. I prayed for several people tonight. The first person was a man that was having ringing in his ears real loud ringing to the point that it would keep him up at night. He also had some other problems with his hands and feet that was causing him pain. **When I prayed for his ears he said that the ringing left and everything got real quite and he just started to laugh saying "wow that's cool!"** This man is also the drummer for the church and he said that the pain in his hands and feet started when he started playing the drums. He has never played before and God just gave him the gift of drums so we knew that it was a spirit that was trying to steal the worship from him. We broke that off him and he said that the pain was gone praise God. When we released words of knowledge I got a word for some people in the church that needed to be set free to worship and just be able to cut loose like a child. Two people responded to the word and God down loaded on them and all kinds of stuff got broken off of them and they were set free. One young man was from Florida and even went to Suncoast, I thought I had seen this guy before, he looked so familiar. This guy was set free and just started to bounce around and say I want to dance so Tony grabbed his hands and they just started to jump around and he said I feel soooo free! I know I prayed for others too but as normal I don't always remember them all, but the last person I ministered to took the rest of the evening. She was a young lady in the worship team that was in desperate need for a move of God in her life. To respect her I will not go into details of what God set her free from, but it was the most powerful and awesome thing to be apart of. As I asked her what she needed prayer for she looked me in the eyes and just broke down and started to cry. It was one of those moments when you feel the heart of God so strong that all you can do is place your arms around them and hug. Let God do the rest. After a while God had me speaking over her

about the things she needed to be set free from as I lead her through a very gentle but deep deliverance. The end result was freedom and you could see it in her eyes there was new life in her now. Wow what an awesome meeting and we are in America did I say that yet?

Be Blessed thanks for praying for us ~ Casey ~ ☺

Harvey:

HALLELUJAH!!!!!!!!!!!! JESUS!!!!!!!!!!!! I've been waiting to start doing in the US what we do everywhere else in the world and tonight was an awesome start. We were actually at the church early and got to enjoy the entire worship. It seems when we are in foreign country they pick us up for the meeting about the time worship is to start, so we usually miss the beginning. We started to worship and immediately got pulled in to the presence of the Lord. We just got started and Tony and I wound up on the floor and I spent the rest of worship time there. God was going really deep in me and I am still trying to get my arms around what happened. One result of the floor time was that I spent the rest of the night in a Glory bubble. I wasn't aware of it right away, it wasn't until I began to pray for people that I figured it out. I wondered why people would start crunching or get pushed back when I would walk up to pray for them. Before I even touched them they would start to crunch or start to fall back. I prayed for two or three people before I figured out what was going on. It sure was cool and also humbling. I prayed for several ladies that had back trouble and wanted to be healed so they could worship and dance for the Lord. It is really fun to watch as God touches them. First, it is a look of "did this really happen", and then the big smile when they realize they have been healed. I prayed for a lady that had an elbow problem and was wearing a brace on her arm. She said the pain left right away and I found out later that she took the brace off and her arm was fine. I prayed for a young boy that had asthma and I know there was an impartation but did not know if he was healed. His mom was a single mom and I think she was the one that really needed prayer. I began to pray for her for more and she began to sob, so I continued to minister to her for a while. You could see God was working on her and she left with a smile. I prayed for another lady who wanted more of Jesus and focus in her life. She said she had had five car accidents since the first of the year and also was having trouble trusting God and not trying to be in control. I watched as God touched and ministered to her and got to see a big smile on her face when God was finished. God is sooooo good. I prayed for a guy with problems in both elbows and he said the pain was all gone. He said his elbows still didn't work quite right, but was expecting them to be completely restored, but had no pain. I also prayed for a woman that had problems with her feet and God

touched her. She was having problems moving her toes and she had a problem with both big toes and had had an operation them but was still having problems with her big toes. God touched her right away but I had to pray a couple times for her healing to be complete. She was very happy and wiggling her toes after she got healed. I had one lady that I prayed for that said she was having hormone problems after having her ovaries removed. She got touched, but I guess I'll have to wait till another time to find out if she got her healing. It sure was fun to watch God work. Thanks to all of the prayer warriors. Later.

Marie:

Come out you hard of hearing spirit or something like that I heard myself say, “in authority”, not one sense of anointing. My first “patient”. I was flying solo, as the team was spread out. I would love to say “instantly” the woman received her hearing. I'd like to say too that after several minutes of prayer she jumped up and down with excitement as her ears “popped” open but NOPE – did not happen. So my thought was, ok here we are our first trip with Living for Jesus International – doing a Miracle Crusade and “BAM” no bam! I looked for a free team member – none available- so I blessed the lady, assured her of the Father's love and wondered now what Holy Spirit? No time to sulk –no place to hide – Praise God!

So, the next lady in line had some symptoms remaining from a stroke. She had numbness in her hands and forearms, was unable to clench her hands or move her fingers very much. Again, with no sense of anointing just raw – ok Jesus you said lay hands on the sick – so here we go again. After taking time praying everything I could think of she began to cry and tremble a little. She could begin to feel her hands and then she could clench her hands tightly and wiggle her fingers. **But, it was real exciting when she then said, “ I feel life going through me”** as she motioned with her hand down the center of her body. She was weeping a lot now. Before the Lord was done I did sense that Jesus who came to heal the brokenhearted wanted to also heal her broken heart. She cried and told me of her childhood abuse and some other things she had suffered. I laid my hand on her heart and prayed for the Lord to bring healing. Such peace and joy flooded her! Thank you Jesus!

It was real fun for me to watch Randy as he shared about a powerful angelic vision. He came as close as I have ever seen to becoming nice and silly in the Spirit. He also had a word of knowledge for kidneys. Together we prayed for a friend of ours who said she felt something leave out of her foot when he prayed and she felt good after that.

In His Presence,
Marie

Randy:

I feel blessed to be back in West Virginia and honored to be able to introduce Pastor Tony, Harvey, and Casey to this picturesque state and its wonderful people. My emotions have been stirred on this trip and entering into our first meeting I was very aware of God's Holy Presence. The worship at Heart to Heart caused me to get lost in the heavenlies and while there I sensed the silhouette of a large Angel holding a large ceramic jar before me. He waited for me to take the jar from him. With the help of Casey holding the microphone near my mouth, I explained to the people the vision I was having. I took the jar from the Angel and walked around the church and the people, pouring out the contents of the jar onto the floor. I described the contents as being a white hot substance that looked like molten metal. It had the consistency of molasses. After this prophetic action I gave the word that this was an anointing of cleansing, that would burn away the unholy and things that hold people back. This dovetailed with a vision that Pastor Tony had also. During the ministry time I received a vision of laying my hands on a woman's kidneys. I gave a word of knowledge for kidney problems. No one responded. Later during the prayer time I prayed for four people with kidney problems, three were women, a fourth woman stood in for her husband. All received physical manifestations of God's presence working with their kidneys. **One young man with heart problems said he felt fire go into his body and he realized he was healed. Another man had his right ear open up and his hearing was restored.** That man also suffered from tired legs. He works as a landscaper. The Lord had me pray not for his legs but for his back and for the removal of stress and tension. I prayed for the Lord's peace to be imparted to him, and afterwards his legs felt fine. The highlight of this evening was my privilege to pray for a newborn infant that was deaf in his left ear. This little one was so small, probably around five pounds. The presence of the Lord was sweet, and the baby slept in my arms as I prayed. I commanded all infirmity to leave his body, and he jerked his arms and legs while still asleep. I told the grandmother how I had prayed for my infant daughter in her crib and commanded a fever to leave her. My daughter's leg kicked out and her fever broke instantly. We both felt encouraged for the baby's healing, and are looking forward for the audio test he is scheduled to receive. Our heavenly Father, Lord Jesus, and our comforter the Holy Spirit demonstrated once again an abundant willingness to pour out Love and Healing Virtue upon all who would come to receive.

God bless you all, Love Randy
