

Ministry to America
Heart to Heart Ministries, Morgantown, West Virginia
Pastor Karen Austin

TONY:

We bless you Heart to Heart Ministries and may you quickly come into the fullness of His Glory! You are well on the way!

Watch and pray for this assembly as I see this as a revival center for training and sending out disciples carrying the glory of God.

The folks here had asked for impartation, so tonight is the night. During the praise time there was a great release of liberty. After a few dancing spins around the church I hit the deck and spent the rest of the worship time on my face, on the floor, piled up with Harvey. Casey began the ministry time as I got up. The hunger tonight wasn't any less than last night. After a little while of releasing faith empowering words we moved into words of knowledge. Since Marie had been receiving downloads of words for a few hours prior to the service, we let her release all of them. It was enough to bring many people forward to receive. As Marie began praying for some ladies they were flying to the floor fast, all at once and one of them grabbed a hold of me and I went flying. The amazing thing was I went flying directly towards the faces of these women out on the floor. Somehow my feet fell in the few inches between their heads and after this obvious 'God controlled' ballerina dance I rolled onto the floor in amazement at what just happened. While the team began praying I continued on with more faith building testimonies. I only prayed for a few people for healing before impartation prayer; here they are:

- A lady with bad arthritis in shoulders, arms, hands, knees. Suffering with the pain daily for the last number of years. As prayer was released she began to vibrate and holler out praises to God from His healing Presence and touch. It was very fast as she fell under His power and got up completely and totally healed. She thoroughly tested out every joint and with a shout declared her new physical freedom.
- A man that said "I need a miracle! The doctor told me that my only hope is a miracle. He sat down, took off his shoe and sock and showed me the bad swelling in his leg. He said that his kidneys were shutting down and his blood pressure very high and heart valves blocked and diabetes and..... I had him put his hand on his heart. As I prayed I felt the anointing going into him. He said, "Something is happening to

me, something is happening to me!” Then after a little more prayer he said “I am healed, I know that I am healed!” He was excited to go home and check out his blood pressure and sugar level.

- An older man stood there waiting for the longest time for prayer. **He took my hand and put in on his vertebrae (upper part) and there were two discs that were sticking way out (about 1-1/2 inches) from the rest.** He said “I cannot turn my neck either way without extreme pain. It makes it literally impossible for me to drive as I cannot turn to look around.” Then he showed me his hand. It was twisted and the each finger looked like a rollercoaster. His thumb twitched uncontrollably. His hand was almost unusable. I could see that he was just so tired of living this way. As I prayed the pain began to leave his neck and as he tried to turn it, the reach got more and more with each attempt. He was so thankful for the improvement. I got everyone’s attention and asked for their agreement in prayer for this mans miracle that was in progress. I blessed what God was doing and went on prayer for some others (both deliverances and healings). Just before we started impartation he came back up to me and said, “you’ve got to see this! He completely rotated his neck fully each way, without any pain AND he showed me his hand. **He said “Oh my God, look at this!” His fingers were completely straight and functioning in every way perfectly!** I only wish we had a before and after photograph. It is amazing what GOD DID over a 30 minute period.

During impartation time, there were prophetic words flowing from the Daddy’s heart. The people were so hungry they were getting up off the floor and getting in line again for even more! There were lots of tears, lots of laughter, lots of power surges and lots of calling out of destinies as Holy Spirit moved in a wonderful way. It was so good, we found ourselves getting back to our beds about 3am in the morning.

HARVEY:

Tonight was another God explosion, and as usually happens, was a step up from the previous meeting. When we started to worship God showed up right away and I think everyone was in the river. There were people worshipping with flags and dance, all across the front of the sanctuary. A young boy was sitting on the floor in the back playing a wood flute, hands were raised in worship all over the place, dance was breaking out, and some were just caught up in the Presence of the Lord. After a short while I grabbed a camera and attempted to record what God was doing. His

presence was thick all over the building and it was not long before I was stuck on the floor, I guess I'll have to get a robot for the camera. This was the last night at this church, so it was impartation night. There was a lot of hunger and I think everyone there came up for impartation. It is always so much fun to give away what you have because then there is room for more than you had and God always gives you more than you had. It sure was a good night. Worship started at 7:00 o'clock and we finished impartation around 12:30 or 1:00 o'clock and it felt like we had only been there about five minutes. Thanks for the prayers

CASEY:

Wow, once again the worship was out of the building. I had gotten lost in the worship and just enjoyed hanging out with the Holy Spirit. The only thing was that it was too short. But that's ok because it just leaves you hungry for more. I just felt so free in this church to let go and be myself. Wow! When the lights came back on I was the only one up front out of our small team. So the pastor handed me the microphone. Talk about being put on the spot, but it was good. I just shared for a few minutes and had them all throw back a few drinks in the Holy Spirit. They are so hungry here and they just get it. "Wow, we're in America!" By this time Tony had pulled himself from the carpet and made his way to the front row. I'm not too sure how he was walking or even standing. Like I said before the worship was awesome and the Holy Spirit was taking us as deep as we wanted to go. They are really blessed with the gift of worship here. It was fun to watch Tony as he was sharing tonight just totally blasted and flowing with the Holy Spirit as one. The word he shared was simple, but wow, did this prime the pump even more for ministry time.

We related words of knowledge; well Goober had gotten a truck load of words in the car ride on the way to the meeting. So Tony just handed her the mike and told her to go for it. Hey Goob "Hands up!" The church members responded quickly to the words released and we were off and praying once again. I prayed for two women with the same problem. They both were in a car wreck and suffered neck injuries. Both of them were still in pain several years later. God took away their pain and they were able to move their necks with a full range of motion now. I also prayed for their teeth too. They both needed dental work. I don't know if God gave them new teeth or not because both of them went down under the Holy Spirit. I also prayed for a young woman that ended up going through deliverance. We taught her

how to take the authority over her own body and soon after that she was taking herself through deliverance. Yeah God!

After we were finished praying for everyone that needed prayer we moved into impartation. This took quite a while, not only because of all the prophetic words we were getting, but they all just kept getting back in line for more. Like I said, they are really hungry here. It was so much fun just flowing. I had to pray for a ton of them that wanted the impartation for flag worship. I don't remember the last time I have ever gotten to pray for so many that just wanted that gift. Wow, this place is going to explode with color! Thank You Lord for such an awesome night!

MARIE:

I am rejoicing like crazy inside as I quietly write this report. On Saturday morning the Lord began to reveal to me an area in my life that He wanted to heal. I prayed about it and did what I knew to do to be delivered, but my Daddy told me to get others to pray too; and He carved out a few minutes during the busy day for a couple of the team guys to pray for me. I shared what the Spirit had shown me and they helped me to repent at a deeper level, to renounce with more determination, and to take back ground the enemy had been able to take from me. Mission trips can become a great opportunity for personal tune-ups. I stepped up to a new level of freedom. I now feel like I could ride a roller coaster with my hands straight up in the air instead of white knuckling the safety bar – free and fearless! In the spirit, at least for now.... (In the natural I am not an amusement park fan.)

Soon after the prayer it was time to head out to the meeting. On the way I really tuned into the Holy Spirit. Then the download happened! The Lord gave me about 10 words of knowledge for the meeting. When Tony released me to share the words, the room became like a wonderful Christmas morning as the people kept responding and coming forward to receive their healing gift from Jesus. **The atmosphere had already been seeded with such glory during the worship time and the hunger and the faith level was huge.** The whole evening was so packed-full of Holy activity that it has all become a blur at this point. I don't know how to report the level of freedom, anointing, revelation, and so much more that I felt and saw go into the people. It was so much fun to just flow from person to person and to watch the Lord demonstrate His Kingdom and His powerful love! *I am undone and changed for life!*

There has to be a way to train my mind to remember more of the things I saw so that I can tell you. But, for now I will share three testimonies that are yet very vivid.

PACK YOUR BAGS!

One of the words I got was that there was a person who had really been praying and trusting the Lord for a nice vacation. Four women came forward. I reminded them they REALLY had to have been in prayer over this desire. None of them backed down. So, I released the word I had, “The Lord says, “Pack your bags!” All four of them fell out under the power of the Holy Spirit. Tony said later he was just amazed at how the Lord touched these women so powerfully who just wanted to go on a vacation. The people watching seemed to have enjoyed how very nice the Lord is to care about EVERYTHING!

RIGHT KNEE PAIN

Another word was about pain in a right kneecap area. Of course at this point the whole team was praying for all the people who had responded to the various words and who needed healing prayer. I connected with a gal who had injured her knees on some exercise equipment. Before praying for healing I felt to ask her if she had forgiven herself, as she told me she did something strenuous that she knew she should not have done! I lead her in a prayer and then knelt down and laid my hands on her knees. **Suddenly, I felt something move under my hands.** First the one knee and then the other. WOW! That was so very COOL! She felt it too and all the pain left. At the end of the night she came up to me to let me know she had been testing out her new knees and really was totally free of pain! I believe in the FINISHED WORK OF JESUS!

LADY WITH ELECTRICITY

Impartation time is super fun too! It seems like the more I was “imparting” to people the stronger the anointing and the prophetic flowed. By the time the last person received she really got a dose and a half. Her body began to shake and crunch – the more the prophetic flowed – the more shaking. Then it seemed like she was being electrically charged from heaven. I took my hands off of her and there was something like a force field around her. Others came near and said it felt like static electricity. Someone started to put his hand on her back to catch her but I knew he had to step aside. God was giving her strength and wanted her to learn to stand under a great anointing and we just had to let Him minister to her. After quite a while I

did sense she would be released to melt and rest and the gentleman was asked to return and boom, down she went. It was so awesome to watch someone receive so powerfully.

Thanks again to all of you who have been praying.
Love, Marie

RANDY:

I could write this report entirely just about the worship at Heart to Heart Ministries tonight. Pastor Karen Austin opened the meeting saying she felt an expectancy of something special was going to happen. It certainly did happen. First I felt a tremendous liberty during the worship. I don't want to get too long with this so let me just say I got lost in the love of the Father and danced, ran around the church, worshiped with the flag, and who knows what else was happening while I was out there. Then something else happened.

While in worship I kept praying a prayer over and over in SPANISH. I wondered if there would be any Hispanic people there for me to pray with. Late into the prayer time a nice young couple came forward for me to pray for them. The lady looked as if she was Hispanic so I asked her of her nationality. They were Nicaraguans. She was in bad pain in her lower back and he had hurt some vertebrae in his lower back. I had them face each other and I asked them if I could place my hands on their backs. I told them about how I was getting a prayer in Spanish during worship. I said my Spanish isn't very good but I know that God wants me to pray this over you. **Then in Spanish I prayed, In Jesus' name, receive the fire of God. Instantly the lady trembled and tears started to flow. She was so happy for the pain left immediately, and she said she felt fire all over her back.** They both received their healing and then I prayed a blessing over their marriage and over their children and future grandchildren. The lady said my Spanish was very good. That was the Holy Ghost!

During the impartation service it was time for me to pray for the pastor. I laid my hand on her shoulder and just waited on the Lord's direction of how to pray. I had a vision of the Lion of the tribe of Judah roaring a proclamation over her. I shared that with her and told her not to be startled. I laid my hand upon her head and roared loudly into her face. I roared again and she went down under the power and I went down with her keeping my

hand upon her head. The Lord had me roar seven times over her. I then whispered into her ear, telling her of Father God's great acceptance of her as His daughter. She shared some things with me afterwards and I knew she was greatly blessed by the Father's great Love.

The city of Morgantown West Virginia served as an indicator that America waits hungrily for the Love and healing power of our Lord and Savior Jesus. It also served as an encouragement to the whole team that we are centered in the Lord's will and being kept in the flow of His Love.

Be abundantly blessed and sheltered in His Love

Love, Randy
