

Cathedral Worship Center, Philippians, September 10, 2014, Wednesday

Tony:

Thanks to all those interceding on this mission. We were into ministry pretty fast on this mission. These beautiful Filipino people were just waiting for us to get here and got us right into ministry! There was just expectancy and hunger awaiting us! It is so awesome to see revelation come to believers of what has been given to them in Christ.

After an extended time of worship honoring our King, we got cleared to begin to teach and demonstrate the power of God! After we gave some words of knowledge, I prayed for the first person for all to watch. I kinda talked through it sharing with everyone how I was interrelating with Holy Spirit! Of course everyone got to see a healing miracle as performed by Holy Spirit. I could feel the faith in the room beginning to soar. Then I asked which pastor or leader would like to come up and pray for the next person to see the healing come. One man jumped to his feet and ran up. He said "that would be me!" After a brief instruction he went at it. He prayed for a lady with a bad leg. Bam! She stood there testifying in her miracle and this pastor was so amazed at how simple and easy it was. The look on his face was "what did I just see!!!"

We had pastors & leaders from different churches, right out of the shoot, praying for healing for each other and ALL of them seeing instant miracles! A couple that I got to see were: a few women with lower back, hip and leg issues which have caused them pain and difficulty walking for a long time. The healing miracles this morning were taking seconds, blazing fast, to get to complete recovery. As soon as we touched the people they would start smiling. Amazing God!

One lady we chased a spirit of infirmity around her body, down into her leg, then foot and told her to kick it out (literally) in Jesus Name! She kicked and said "It came out, thank You Jesus!"

Another woman could not turn or bend her back. I mean she felt the anointing hit her and immediately bent her back doing toe touches, hooting and hollering with joy!

People just kept coming in throughout the day. At the end of the second session we gave another invitation for prayer to make sure everyone was covered. To our amazement, EVERYONE came up front. What I saw next was even more amazing. Our team prayed for ALL these people with absolutely everyone seeking healing getting a healing miracle and we had a lot of people not wanting to wait for impartation until tomorrow and asking for it now so they could go home and pray for someone sick and everyone was prayed for in less than 10 minutes. The Anointing was Amazing!

Melody:

I'm in the Philippines again, Yeah God! These are some of the sweetest people I've encountered. This was a 30 hour trip from my house to the mission house. Sunday nite I had 1 ½ hours of sleep before leaving and the next night while traveling, I got about 3 hours sleep...This morning I woke up feeling like I'd had a restful night, I don't know how Holy Spirit does it but He always covers everything. There's no Lack, no Lack, in Christ Jesus. Holy Spirit

just covers us, I really felt like I had a full night of sleep. We were up early to start our first of two conferences. We began the meetings with Filipino style worship. Loud and lively, they love to worship. Pastor Tony gave an awesome word on praying using the Authority of Jesus name. After both meetings today there was opportunity for prayer. These are some of the folks I had the privilege of praying with and watching God heal every one of them right in front of me and thru my hands...I am favored and feel so very blessed to be here and used in this way by our Sweet God.

The first woman had a cataract and had blurred vision. She was weeping with joy as her vision was completely restored.

Next, the first lady's aunt had a sore in her mouth on her cheek. We prayed and she was feeling the area with her tongue trying to feel it and it was gone. She was so elated.

A woman who had been in a car accident a year ago and has been in pain, her shoulder, back and leg were completely pain free after she prayed for herself using the authority of Jesus name. I had the next few people pray for themselves and I simply was the second person of "two or more gathered in His name" to agree with the proclamation of her healing. She began crying as she realized she was pain free. I had her move the shoulder all around and shake her leg to see if the pain was totally gone. She was so very amazed and kept proclaiming "Jesus healed me, I'm healed." Wahoo! I keep telling you He's a Wahoo God..

Next I agreed in prayer for healing as the next woman came requesting prayer for a painful heel. She prayed I agreed with her and boom, totally pain free.

A woman with abdomen and shoulder pain came up next and we prayed a simple prayer of "in Jesus Name, pain go" and it was gone...It was gone, just like that. I wish you could see the faces that I'm seeing as these people get healed. There's excitement, contentment, exclamation, tears of Joy, amazement, etc. as we watch their contentment in "no lack, thru Jesus Christ".

If you've never gone on a mission trip, I would be seeking the Lord to see if He may just have this in store for you.. It is invitation only.

Bobby:

WOW!.....WOW!.....WOW! My God is a mighty, mighty God! His presence has been tangible. I love being in his presence! I'm not sure why yet but He is blasting me when I eat. (Strange but I'll take it) After Pastor Tony taught on healing this morning, he asked for words of knowledge. I had one for the right shoulder, lower back and circulation in the leg. The first person I prayed for was an older gentleman that came up for the pain in the shoulder but after the interview found out his whole body was hurting and had lung cancer with pain in his chest and hard to breathe. After saying a short prayer demanding the pain and cancer to leave he looked at me and said he felt better. I said lets pray again and we did. I asked him to move around to see if the pain was gone; he did and said yes it was all gone! The funny thing is he was focused on the pain on his body and not his lungs. I asked if he could breathe better and to take a deep breath.

I watched his eyes get big and watery as he realized the pain and heaviness in his chest was gone as well. Have I said WOW yet? After that I prayed for two more shoulders that were healed instantly. Everyone I prayed for said they were pain free and healed by the name above all names.....JESUS!! It's amazing to see 100% healing in a service. All the Glory goes to Jesus!...WOW!

Casey:

Ahhhh, back in the Philippines, I sure love this place and it is so great seeing our friends again. They put us up in a nice apartment up on the second story and I was able to hang my hammock so I am loving life. This morning we went to the church to start the first conference. The worship was so sweet this morning as they just ushered in the Holy Spirit. I would have liked to hang out there all day, but we have teaching to attend to. After the first session we were able to pray for a few people that were in need of healing. I just stood back and let the rest of the team go for it first. Maybe that was a bad decision on my part because everyone got instantly healed. However I did manage to squeeze in one. The woman was having pain in her right ankle and like everyone else she too was instantly healed. What a way to kick off the conference.

The second session was on working with the Holy Spirit and words of Knowledge. It was jam packed with a ton of information, but we only have two days here before we move to a new location. When the teaching was over we called out some words of knowledge and several people responded. I didn't wait this time. I'm not missing out. I got to pray for several of the young men there. One man had a bunch of pain in his fingers and wrists. I think he said he had some kind of nerve problem. You could see the stress on his face as he tried to move his hands. So after prayer when I asked him to move his hands I knew right away he was healed just by the look on his face. He was super excited and just kept repeating it's gone. It is so cool to watch someone's life get totally changed in a matter of seconds. This will never get old. One of the other men I prayed for had a racing heart with an irregular heartbeat, and just like the others he was totally healed in seconds. God you are so awesome. Just think we have a whole week of this. Thank you to everyone that is praying for us. Blessings ><>

Sharon

Blessings in Yeshua's mighty name from Millan, Philippines. I am the newest team member and this is my first international mission trip. WOW! – We truly serve the God of NOW. Anointed musicians shared the altar platform and sweetly ushered in an awesome anointing of the Holy Spirit whose presence was felt with expectant faith to believe for a miracle. Attendees offered our God much praise with joy and thanksgiving as they heard several powerful truths. The genuine Gospel message and a "clear" definition of salvation were presented. Doubts were dispelled as the Holy Spirit imparted revelation – There is all power and authority in the name of Jesus the Christ. Imparted through grace and the aid of the Holy Spirit, this same power and authority, behind this Name, has been given to all saints everywhere, the "moment" salvation by faith in Christ was received.

Excitement mounted as those who took a step of faith came forward to lay hands on those in need of physical healing (and folks got healed in Jesus' name.) A woman received healing for

pain and irritation in her throat caused by intubation prior to surgery two and a half years ago. She testified swallowing was no longer painful and the irritation had subsided. Many shared testimonies of healing and being set free. I had the privilege of praying for a young woman who had a miscarriage several months earlier. Though this woman asked for prayer for the back pain, and other parts of her body, a word of knowledge directed me to pray for her wounded heart, bind a tormenting spirit, and declare healing, forgiveness, restoration and freedom in Jesus' holy name. She broke down and wept in my arms as Jesus took her up in His loving care.
