

Tony:

Thank you all for praying for us. The kingdom of Light has been pouring in and dispelling the darkness, hallelujah! These two days in this report is God action in a mountainous village. God held the rain as vehicle travel up the mountain road just doesn't happen when the dirt road is wet. There isn't any flat section of road, all various sized ruts and holes.

We are literally in the clouds. We have been pretty nonstop from early morning to very late at night. I am writing this late at night on Tuesday. Eternal History was made here on these two days. Wow, what a wonderful move of God! Seems like most of the village that wasn't saved, is now saved and I'm pretty sure there isn't a single person sick in this place now. Even the guys in the town bar got saved. This is the bush of the bush. Other than cell phones that work sometime, there is zero communication here and no power any time. A campers and mountain climber's paradise (my legs are like silly putty from all the hiking up and down the mountain to take our meals). The people have tremendously blessed us with their wonderfully fresh grown foods cooked the Ugandan way. I really liked the bamboo shoots.

The leader of all the pastors for this area and organizer of this conference and crusade made this statement at the end of these two days: "We now have real disciples of Jesus Christ that WILL bring the kingdom of God to all the surrounding mountain villages!"

There is no way to even begin to record a fraction of what happened here, only eternity is going to tell that story, but I will give you a few notable events that I can remember:

- There was a mad (insane) woman in the first conference session and the next day came totally in her right mind, completely healed!
- As we were praying for people at the end of second day conference, a young boy walked in off the street. He had club feet; legs twisted and could barely walk. One of the pastors said "look at his feet", the toe nails were gone and it looked like something was eating the skin off. He said it was some kind of local insect that does that and the folklore believes there are demons behind it. Well, I asked the boy to sit on the floor and we prayed for his legs to straighten and feet to turn back in to normal. The boy jumped up and his legs straightened and he went running out of the building. The pastor looked out the door and said, "All I see is a dust cloud, I guess he's healed!"
- A lady in the conference asked for prayer for her legs. She had to sit on the end of a row because her legs couldn't bend to sit normally; they had to be stretched out. She was in pain and wanting the use of her legs back. I thought for a moment about how hard it would be to live not able to bend the knees. Well, after a couple of whacks at it in prayer she was bending and jumping. Wow, was she a happy lady.
- Another lady at the conference said she could only see shadows. After just a few moments she was telling us and everyone else all the details, including full colors, of everything in the room. Amazing God!

At the Crusades:

- The River of God was flowing here. People were running to Jesus for salvation, even without a salvation call. What a sight to see. Yelling out, "Please, we want Jesus NOW!" What are we seeing, this is amazing!
- There were literally hundreds of backs, necks, legs, eyes, ears, every manner of sickness miraculously healed in this village.
- To give you an idea of the anointing level: I reviewed a couple of video clips I took during the prayer time. In one instance a lady had come for prayer for her legs, she had much pain and difficulty walking. I had asked Rachel, a young lady interpreting and praying with me for people, to pray for this lady while I attended to another need. Well, I held the video camera on her but was turned away. Rachel is also one of the church singers. When I saw the clip later, what Rachel did was sing a short worship chorus and then asked the lady to start moving her legs. The lady was jumping up and down, pain free. Rachel didn't pray, she sang a worship song and BAM the miracle came.
- More on the anointing level: One Christian man had chest and heart problems for years. We told him to put his hand on his heart and use his authority and command the heart restored. Instantly, all symptoms gone and he is healed.
- More on the anointing level: After being told what the problem was, we would just ask some of them to move the damaged body part and the healing was there, even before we prayed.
- More on the anointing level: Some were just walking up on the platform and receiving their healing as soon as they got up there before they got to us for prayer. Then when we got to question them, we found out they were just healed and we had them give testimony. The crowd roared with praise again and again!
- A man came with kidney stone pain. I know what this is like as I have been there a number of times. This man came in agony and in a matter of seconds, the pain was totally gone.
- A man had a stroke and his right side was mostly paralyzed. I had a vision of his vertebrae and felt I knew exactly where to put my hand and pray. He was miraculously healed.
- Had a number of malaria victims. One man brought his young baby daughter in his arms. Both he and his daughter had malaria. They were both burning up with fever. He said that he had received the Lord a few years ago but got discouraged and backslid. Well, we prayed for them and the fever broke for both of them and daddy said he felt strong and all symptoms were gone. He said, please help me come back to Jesus and I will be back into the church this week.
- An epileptic boy was brought. He was mostly deaf and totally mute. Well, his ears were opened and he began to speak well enough to tell us that he felt the epilepsy had left him.
- A young boy came and was afraid because he was not able to swallow. His throat was closed and it frightened him. In an instant his throat was opened and he was sooo happy. Oh yeah, I forgot that he was also partially deaf and got his hearing restored also.
- Now this was way cool: A young lady for the last 3 years has had a large tumor on her stomach. No one has been able to help her. She said that the tumor "moves across her abdomen from time to time". Now I'm not a medical person, but I don't think tumors do that. I had her put her

hand on the tumor and we commanded it to disappear, in Jesus Name! She felt it getting smaller and smaller over a period of about 15 seconds. Then she said it was "very small". We prayed again and then she went on the finger hunt probing her abdomen to try to find it. GONE! Hallelujah!

Casey:

Well due to lack of ac power and dead computer batteries we are combining our days for the reports. So much is going on here if you don't get it written down quickly you forget it, and we just had no time to write it down. This trip we have the most teaching sessions I think we have ever taught (4 separate conferences) and of course there is a crusade to back it up at the end of every day. This village we are in now I only wish there was a way for all of you to see this place. We are up in the mountains at an elevation that we are in the clouds most of the time. We don't get to see much of the sun and the weather is very cool. Harvey you would love this place, next brother next time.

Day one of the teaching sessions went very well and working with the Holy Spirit is what we taught. Again after teaching we prayed for who ever wanted prayer. The power of God is not in lack in this village. Everyone I prayed for got instantly healed. After the session we hiked to the pastor's house for an awesome lunch. Everyone that knows me knows that I live in flip flops and I felt like I was supposed to wear my tennis shoes, next time I am going to listen. The pastor's house is well down one mountain and half way up the next. I took some good pictures and I hope to share them with all of you.

After lunch and a nice rest we were off to the crusade. So again we hiked down the mountain then back up to the center of the village where the crusade site is located. When we arrived there were a bunch of people already sitting in the grass just waiting on us. So one of the worship leaders went to the church and got one of their drums, the ones with real cow skin and fur even. I would love to bring one of these home, they have such an awesome sound. Anyways he started to play the drum and all of a sudden everyone was up and dancing and they even went marching up and down the street. This place is so cool Thank you Jesus for sending me here.

Tony gave the message tonight and it was short and good just the way we want it so we have more time to pray for healings. I honestly can't remember all the people I had prayed for, but there are always the few that stick in your mind. The first one was a Muslim woman that had bad pain in her feet and also in her chest. The cool thing about her was she wanted Jesus first before she would even let us pray for her. She asked us for Jesus, that's how easy salvations were tonight. After she received Jesus she was healed instantly. Another woman that needed to be helped up onto the stage was paralyzed on the left side of her body and she was even deaf in her left ear as well. After a few seconds of prayer her ear opened up and after a second shot of prayer she was jumping up and down on the stage praising Jesus. The last one I remember was a young boy that was deaf and again after a short prayer he too was totally healed. Praise God this place truly has an open heaven.

Day 2

The teaching this morning was on deliverance and Tony got this real cool revelation about deliverance using a back pack. I know it sounds strange but it really worked great. The back pack was full of all the baggage that we all carry around until we get delivered, and one by one you remove all the junk until the heaviness is all gone. I can see us using this demonstration for all the teachings now. Thank you, Jesus. After the session was over we again prayed for who ever wanted prayer. I had three people that were almost blind have their eyes totally restored. I also prayed for a few babies with hot fevers that felt cool after prayer. Headaches, backaches, and stomach aches were all healed as well. The last woman I prayed for wanted me to help her with deliverance. She was being attacked in the night and wanted it to stop. I don't blame her, so I walked her through the steps of setting her free. When I was done she looked like a new woman and she said she felt so good now and I explained to her that she has the authority to keep herself free and she was very happy. Now it's time to take a hike we have to work for our lunch in this village 😊.

Casey:

This was by far the most energy filled crusade we had on this trip. There is an open heaven over this village and boy could we feel it. All the people were so excited, jumping and dancing went on well into the night. I gave the message tonight and I had also given a salvation call at the end and hundreds gave their lives to Jesus. Praise God. We then gave out a bunch of words of knowledge for healing and here they came. The hunger here is awesome they all want to be touched. I teamed up with one of the worship leaders as we started to pray. We prayed for so many people tonight and all the healings were instantly. I got to pray for a deaf girl and as soon as I laid hands on her she began to hear. I didn't even get out a single word; just by the touch she was healed. I was standing right there and I had to ask her are you sure? That's just how the evening was going it was so easy and so much fun. We also prayed for a bunch of teenage boys that seemed to come up just to mock what God was doing. Not for long as one by one they were all being touched and even shouted their testimonies afterwards. Ha ha. Get them God. One of the young men came up and got way more than he expected. He said he had a headache so we prayed and nothing happened so I knew right away something was up with this one because all the other healings were right now. So we asked how long he has had this headache and he said a long time. We asked if he had Jesus and he said no, so we led him to Jesus and prayed again. As we were praying he began to manifest right up on the stage for all of his buddy's to see. We shut down the demons and proceeded to get this young man set free. As we were praying for the Holy Spirit to fill him he began to weep and fell to his knees. He was so joyful for the freedom he now has and all those tormenting spirits are all gone as well as his headache. You know it's not good to mock what you don't understand as he found out. When he got down off the stage all his friends were asking what happened to you and all he could say was Jesus. Hundreds and hundreds of people were set free and healed in this small bush village, and I can honestly say without a doubt they will never be the same. Thanks again for all your prayers, Later 😊

Fredrick:

During the prayer time at the crusade there was a lady that came and she had a bad ear and other side of her neck down to her ribs was numb. She had no feeling at all. She has a lot of ailments all over her body. She said the doctor told her she was a diabetic. When I laid my hands on her I had just begun to pray and she lifted up her arms and yelling out "I am healed, I am healed!" This is amazing.

A young man said from his head to his feet he was hurting everywhere. I asked if he was born again and he said no. I asked if he thought God could heal him. He said yes. I asked him to lay his hands on himself and I led him to pray for his own healing. This is amazing, he was instantly healed. He prayed and WAS NOT SAVED and BAM got healed. So, then I asked if he wanted to be saved. He said, are you kidding, I would be crazy not to. Then I led him to Jesus.

A woman came and had breast cancer. She couldn't put clothes on it because of the pain. I had her put her hand on the cancer and we prayed and instantly all pain was removed. I felt there was some heavy presence of God, there was absolutely NO struggling.

A lady had chest pain and breathing problems. I did not pray yet, I told her just start taking some deep breaths. She did and was amazed that she was instantly healed. Then I asked is there anything else, she said, yes my legs are paining me. I said start walking and she did. It was so amazing.

This morning a woman came and she had had a miscarriage. Recently she felt she was pregnant and went to the doctor and found out she lost the baby. She was left with the pain, severe pain. When she came she was feeling a lot of pain. After prayer the pain disappeared.

At the crusades we had popcorn healing. It was instant healing! I saw 6 people get instantly healed as soon as they confessed Christ as their Savior.

The lady that had cancer came back the second night and showed me what God had done. Last night there were a lot of open, sore wounds and she couldn't lift up her arm as the cancer had gone into her arm pit. BUT tonight, she lifted up her arm with no pain and took off her blouse to show me her breast. The sores were almost all gone and wound had closed up and look almost healed. ALL GLORY TO GOD, WE HAVE SEEN CANCER REMOVED IN ONE DAY!

Two women came with the same problem. They were completely deaf in their left ears. I just put my hand on their ear and INSTANTLY pop the ear was opened. THIS IS SO AMAZING TO SEE!

A child was brought with a very severe fever. The temperature was very, very high. Immediately after a short prayer, the fever was gone and the child restored. It is so hard to explain such power of God I am seeing.

A drunkard came to me and told me that all over his body he was feeling pain everywhere. At first prayer all pain left except the ribs. I asked him if he was born again, he said no. He received the Lord and then instantly his ribs were healed and he became sober.

There were hundreds of other healings like stomachs, backs, etc. All to the glory of God!
